## 6. MAINTENANCE

To ensure the longevity and optimal performance of your AINAVI car stereo, follow these maintenance guidelines:

- **Cleaning the Screen:** Use a soft, lint-free cloth to gently wipe the touchscreen. For stubborn smudges, slightly dampen the cloth with water or a screen-safe cleaner. Avoid harsh chemicals or abrasive materials.
- **Temperature Control:** Avoid exposing the unit to extreme temperatures. Prolonged exposure to direct sunlight or very cold conditions can affect performance and lifespan.
- **Software Updates:** Periodically check for available software updates to ensure you have the latest features and bug fixes. Refer to the manufacturer's website or support section for update instructions.
- **Cable Connections:** Ensure all cables are securely connected. Loose connections can lead to intermittent issues.

## 7. TROUBLESHOOTING

If you encounter issues with your car stereo, refer to the following common troubleshooting steps:

- **No Power:**

- Check all power connections to ensure they are secure.
- Verify the car's fuse for the stereo is intact and not blown.
- Ensure the car battery has sufficient charge.

- **No Sound:**

- Check speaker wire connections.
- Ensure the volume is not muted or set to minimum.
- Verify audio output settings in the stereo menu.

- **Touchscreen Unresponsive:**

- Restart the unit by turning off the car ignition and restarting.
- Perform a factory reset if the issue persists (refer to the settings menu).

- **CarPlay/Android Auto Not Connecting:**

- Ensure your phone's operating system is up to date.
- Try a different USB cable (for wired connection).
- Check phone settings for CarPlay/Android Auto permissions.
- Restart both the stereo and your smartphone.

- **GPS Signal Issues:**

- Ensure the GPS antenna is properly installed and has a clear view of the sky.
- Check GPS settings in the stereo menu.

If these steps do not resolve the issue, please contact customer support.
