Cellularline Tracy Tag - Instruction Manual

Model: B0DXVGGRLY | Brand: Cellularline

1. INTRODUCTION

The Cellularline Tracy Tag is a compact and versatile device designed to help you keep track of your personal items such as keys, wallets, backpacks, and suitcases. With a design similar to Apple AirTag, it is compatible with many accessories designed for them. It integrates seamlessly with Apple's Find My network, allowing you to locate both nearby and distant items with ease. Its durable, dust and waterproof design ensures reliable performance in various conditions.

2. SETUP GUIDE

Setting up your Tracy Tag is a straightforward process, designed for quick integration with your Apple devices.

2.1 Battery Installation

The Tracy Tag comes with a pre-installed CR2032 battery, which typically lasts about one year. To replace the battery:

1. Locate the battery compartment on the back of the Tracy Tag.
2. Gently twist or open the cover as indicated by the device's markings.
3. Remove the old CR2032 battery and insert a new one, ensuring the positive (+) side faces up.
4. Securely close the battery compartment cover.

SMART FEATURES

2.2 Pairing with Apple Find My

To pair your Tracy Tag with your Apple device:

1. Ensure your iPhone or iPad is running the latest iOS/iPadOS version.
2. Open the **Find My** app on your Apple device.
3. Navigate to the **Items** tab.
4. Tap the **+** icon and select **Add Other Item**.
5. Follow the on-screen instructions to connect your Tracy Tag. The device will emit a sound to confirm successful pairing.

ALWAYS KEEP TRACK OF YOUR OBJECTS

Works with
Apple Find My

3. OPERATING INSTRUCTIONS

3.1 Locating Nearby Items

When your Tracy Tag is within Bluetooth range of your Apple device (typically up to 10-30 meters depending on environment), you can make it emit a sound to help you find it.

- Open the **Find My** app.
- Select the Tracy Tag from your list of items.
- Tap **Play Sound**. The Tracy Tag will emit an audible alert, guiding you to its location.

AND FIND NEARBY OBJECTS

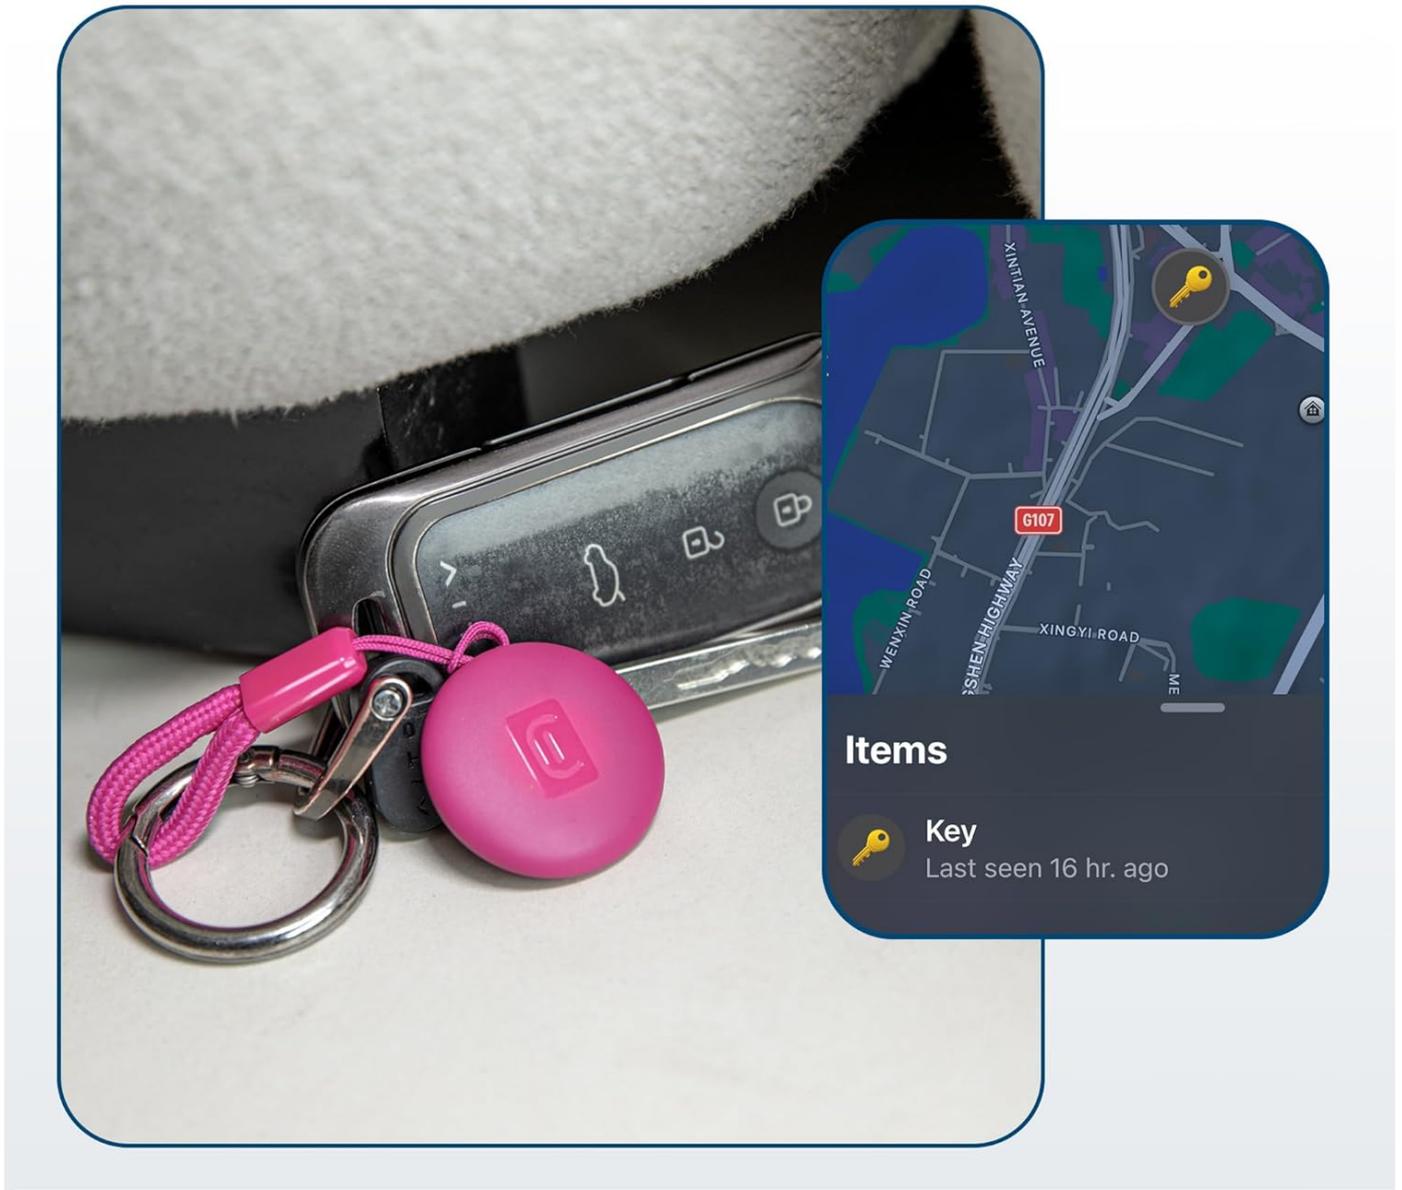

Image 3.1: The Tracy Tag attached to keys, illustrating how to find nearby objects using the Find My app's sound feature.

3.2 Locating Far Away Items

For items outside Bluetooth range, the Apple Find My network leverages millions of Apple devices worldwide to help you locate your Tracy Tag.

- Open the **Find My** app.
- Select the Tracy Tag from your list of items.
- View its last known location on the map. The Find My network will anonymously and securely update its location if it comes within range of another Apple device.
- Tap **Directions** to get precise navigation to the Tracy Tag's last known or current location.

Track What Matters THE MOST

Image 3.2: A screenshot of the Find My app displaying the location of an item on a map, with a cat and dog in the background, demonstrating tracking capabilities.

4. MAINTENANCE

4.1 Battery Monitoring and Replacement

The Tracy Tag uses a standard CR2032 coin cell battery, which provides approximately one year of life. You can monitor the battery status directly within the Apple Find My app. When the battery is low, replace it following the instructions in Section 2.1.

4.2 Dust and Water Resistance

The Tracy Tag is IP67 certified, meaning it is dust-tight and can withstand immersion in water up to 1 meter (3.3 feet) for 30 minutes. While it is resistant to splashes and brief immersion, it is not recommended for prolonged underwater use. Ensure the battery compartment is securely closed to maintain its water resistance.

FIND FAR AWAY OBJECTS

And nearby objects...

5. TROUBLESHOOTING

- **Device Not Connecting/Pairing:**

Ensure the Tracy Tag has a fresh battery and is within Bluetooth range of your Apple device. Restart your Apple device and try the pairing process again. Check if Bluetooth is enabled on your device.

- **Cannot Hear Sound:**

Verify the Tracy Tag's battery level in the Find My app. Ensure there are no obstructions muffling the sound. If the battery is very low, the sound may be faint or non-existent.

- **Location Not Updating:**

For far-away items, the location updates when the Tracy Tag comes within range of an Apple device on the Find My network. Ensure your own device has an active internet connection to receive location updates. If the item is stationary in an isolated area, its location may not update frequently.

- **Battery Drains Quickly:**

Ensure you are using a genuine CR2032 battery. Extreme temperatures can affect battery life. If the issue persists with a new battery, contact support.

6. SPECIFICATIONS

Feature	Detail
Model	B0DXVGGRLY (Tracy Tag)
Brand	Cellularline
Compatibility	Apple iOS Find My network (iPhone, iPad, etc.)
Battery Type	CR2032 (Replaceable)
Battery Life	Approximately 1 year
