WHAT'S IN THE BOX

- LIGE Smartwatch FV13 x 1
- Black Silicone Strap x 1
- Gray Blue Silicone Strap x 1
- Product Manual x 1
- Customer Card x 1
- Magnetic Charging Cable x 1
- Strap Adjuster x 1

SETUP GUIDE

1. Initial Charging

Before first use, fully charge the smartwatch. Connect the magnetic charging cable to the charging contacts on the back of the watch and a USB power source. A full charge typically takes approximately 2 hours.

710mAh Big Battery

Ultra-long battery life, noneed to worry about powerwhen you are outdoor exercising or camping.

	Extra Large Battery 710 mAh	Large Battery 300-500 mAh	General Battery 150-220 mAh
Heavy Usage	7 Days↑	3-4 Days	1-2 Days
Daily Usage	14+ Days↑	7 Days	3-4 Days
Low-battery Mode	100+ Days↑	50-60 Days	10-30 Days

2. App Installation

Download and install the **FitCloudPro** companion app on your smartphone. The app is available for Android (version 4.4 and above) and iOS (version 9.0 and above) devices. Search for "FitCloudPro" in your device's app store.

3. Device Pairing

1. Ensure Bluetooth is enabled on your smartphone.
2. Open the FitCloudPro app and follow the on-screen instructions to add your device.
3. Select the LIGE FV13 from the list of available devices to initiate pairing.
4. Confirm the pairing request on both your smartphone and the smartwatch.

Once paired, the watch will synchronize data and settings with the app.

BLUETOOTH HD VOICE CALLS

Free your hands and make voice calls at anytime and anywhere

Contacts Dial Pad Make & Receive Calls

Jimmy: What are you going to do tomorrow?

Alin: Can i invite you to dinner tomorrow?

Receive realtime message notifications from social software APP

f S X LINE WhatsApp TALK Instagram

The advertisement features a background image of a person's hand on a steering wheel, wearing a black LIGE FV13 smartwatch with a red and black dial. The watch face shows a 'Messages' notification from 'Alin' with the text 'Can i invite you to dinner tomorrow?'. Above the watch, there are three circular icons: a contact card for 'Contacts', a grid of numbers for 'Dial Pad', and a telephone handset for 'Make & Receive Calls'. A speech bubble from 'Jimmy' says 'What are you going to do tomorrow?'. Below the watch, a row of social media icons (Facebook, Snapchat, X, LINE, WhatsApp, TALK, Instagram) is shown next to the text 'Receive realtime message notifications from social software APP'.

2. Call Functions

With Bluetooth 5.0 connectivity, you can make and receive calls directly from your wrist. The watch features Hi-Fi stereo speakers and a noise-isolating microphone. Store key contacts for quick dialing. Ensure your watch is paired with your smartphone for this feature to work.

3. Notifications

Receive real-time notifications from various applications such as WhatsApp, Facebook, and Instagram directly on your smartwatch. Configure notification settings within the FitCloudPro app.

4. Flashlight Operation

The FV13 integrates a powerful 12-point LED array flashlight. A dedicated tactical button allows for 0.3-second instant activation. The top-mounted lighting module is designed for convenience without awkward wrist adjustments.

Linterna LED Potente

Whether for outdoor sports at night or for indoor lighting, it helps you illuminate every corner.

5. Sports & Fitness Tracking

The smartwatch supports over 100 professional sports modes, including running, hiking, cycling, gym training, yoga, and mountaineering. It tracks metrics such as heart rate, step count, distance, calorie expenditure, and exercise duration. All data synchronizes with the FitCloudPro app for detailed analysis.

6. Health Monitoring

Equipped with the VP60 A2 bio-tracking optical sensor, the FV13 provides real-time monitoring of heart rate, blood pressure, and blood oxygen levels. It also includes automatic sleep monitoring to help you understand and adjust your daily routine.

Figure 8: Health monitoring features including heart rate and sleep tracking.

7. Other Smart Features

The smartwatch includes a variety of additional functions:

- **AI Voice Assistant:** Activate to dial numbers, play music, or manage tasks hands-free.
- **Weather Forecast:** Provides real-time weather updates (requires FitCloudPro app to run continuously in the background).
- **Remote Camera Control:** Control your phone's camera remotely.
- **Music Control:** Manage music playback on your phone.

- **Customizable Watch Faces:** Choose from 200+ curated watch faces or upload personal photos via the FitCloudPro app.
- **Alarm, Stopwatch, Calculator:** Essential utility tools.
- **Sedentary Reminders & Drink Water Alerts:** Prompts to encourage healthy habits.

MAINTENANCE

1. Water Resistance

The LIGE FV13 is 5ATM waterproof, meaning it can withstand depths of up to 50 meters. It is suitable for swimming, showering, and exposure to rain. However, it is not recommended for hot water baths, saunas, or diving activities. Avoid pressing buttons underwater.

2. Cleaning

Regularly clean your smartwatch and straps to prevent skin irritation and maintain device longevity. Use a soft, damp cloth to wipe the watch face and body. For silicone straps, mild soap and water can be used. Ensure the watch is completely dry before charging.

3. Battery Care

The 710mAh pure cobalt battery offers extended endurance. To maximize battery lifespan, avoid extreme temperatures and do not allow the battery to fully drain frequently. Charge the device using the provided magnetic USB cable, which features IC-shielded protection for safe charging.

TROUBLESHOOTING

If you encounter issues with your LIGE Military Smart Watch FV13, please refer to the following common problems and solutions:

Problem	Possible Cause / Solution
Inaccurate Step Count	Ensure the watch is worn snugly on your wrist. Arm movements not associated with walking may be counted. Calibrate stride length in the FitCloudPro app if available.
Inaccurate Weather Information	The FitCloudPro app must be running continuously in the background on your phone and have location permissions enabled to provide real-time weather updates. Check your phone's internet connection.
FitCloudPro App Connectivity Issues (sporadic Bluetooth connection/disconnection)	Ensure Bluetooth is enabled on your phone and the watch is within range. Restart both the watch and the phone. Unpair and re-pair the device in the app and phone's Bluetooth settings. Disable Bluetooth on other devices if interference is suspected.
Watch Shuts Down When Hand Bends Backwards (if worn on left arm)	This may indicate accidental button presses. Try wearing the watch on the right arm or adjust the watch's position on your left wrist to prevent buttons from being pressed by hand movements.
Battery Life Shorter Than Expected	Frequent use of features like calls, flashlight, continuous health monitoring, and high screen brightness will consume more battery. Reduce usage of power-intensive features. Ensure the watch is fully charged each time.

Problem	Possible Cause / Solution
No Always On Display (AOD) Option	This model does not support Always On Display. The screen will turn off after a set period to conserve battery.
Messages Not Displaying on Screen	Check notification permissions for the FitCloudPro app on your phone. Ensure app notifications are enabled within the FitCloudPro app for the specific applications you wish to receive alerts from. Confirm the watch is properly connected via Bluetooth.

PRODUCT SPECIFICATIONS

Feature	Detail
Model Number	FV13-C (black silicone + gray silicone)
