QUZUDN B0DXVNKWB9

QUZUDN 15W Magnetic Wireless Charger User Manual

Model: B0DXVNKWB9 | Brand: QUZUDN

INTRODUCTION

This manual provides detailed instructions for the safe and efficient use of your QUZUDN 15W Magnetic Wireless Charger. Designed for seamless MagSafe charging, this device offers fast wireless power delivery for compatible iPhone models and AirPods. Please read this manual thoroughly before use and retain it for future reference.

Key Features:

- **Ultra-Fast 15W Magnetic Wireless Charging:** Provides high-speed power delivery compatible with iPhone 16/15/14/13/12 series and AirPods Pro/3/2.
- **Secure MagSafe Charger Design:** Features strong magnetic alignment for perfect attachment, preventing accidental disconnections.
- **Included 20W PD Adapter & 6ft Cable:** Enhances charging efficiency with a powerful adapter and an extended USB-C cable for versatile placement.
- **Universal Compatibility:** Supports all MagSafe-enabled iPhones (16/15/14/13/12 Pro/Max/Plus/Mini) and AirPods (Pro 2/Pro/3/2). *Note: Magnetic suction function does not support iPhone 11 to 8 Series.*
- **Portable & Stylish Design:** Compact with an anti-scratch coating, making it ideal for travel, work, or daily commutes.

WHAT'S IN THE BOX

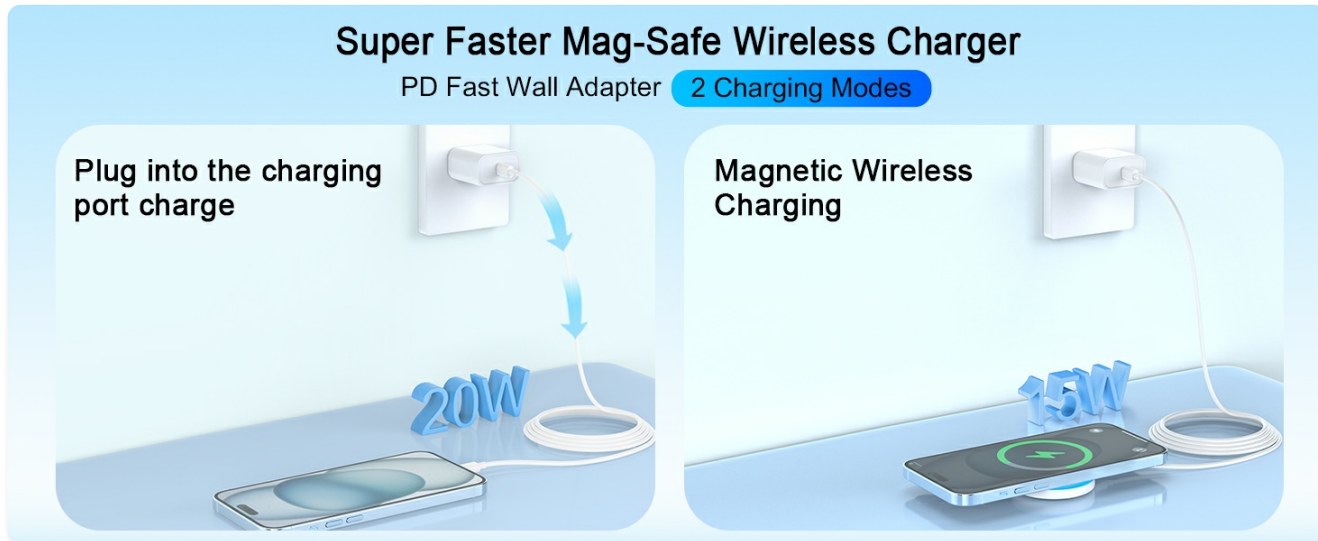

Your QUZUDN 15W Magnetic Wireless Charger package includes the following components:

- 1 x Magnetic Wireless Charging Pad (with integrated 6ft USB-C cable)
- 1 x 20W Power Adapter

SETUP INSTRUCTIONS

1. Connect the Charging Pad:

Ensure the integrated 6ft USB-C cable from the magnetic wireless charging pad is securely connected to the 20W Power Adapter.

The magnetic wireless charging pad is shown with its USB-C cable plugged into the 20W power adapter.

2. Connect to Power:

Plug the 20W Power Adapter into a standard wall outlet. The charging pad will illuminate with a blue light, indicating it is powered on and ready for use.

The charging pad displays a blue light when connected to power.

OPERATING INSTRUCTIONS

1. **Place Your Device:**

Place your MagSafe-compatible iPhone (iPhone 12 series or newer) or AirPods (Pro 2/Pro/3/2) directly onto the center of the magnetic wireless charging pad. The strong magnets will automatically align your device for optimal charging.

An iPhone 15 is shown charging wirelessly on the pad, with a green charging icon on its screen.

2. **Confirm Charging:**

Once properly aligned, your device will display a charging indicator (e.g., battery icon with lightning bolt) on its screen. The blue LED ring on the charging pad will remain lit during charging.

Automatic alignment

fast Wireless intelligent charging

0.5H

0-20%
For iPhone 15

1.5H

0-50%
For iPhone 15

The image illustrates fast wireless intelligent charging, showing an iPhone 15 charging from 0-20% in 0.5 hours and 0-50% in 1.5 hours.

3. **Magnetic Alignment:**

The 360° strong magnetic suction ensures your device stays securely in place, even if moved or used during charging.

360° Magnetic Alignment

The image highlights the 360° magnetic alignment feature, showing the charger securely attached to the back of a phone.

4. **Compatibility with Cases:**

For optimal magnetic attachment and charging efficiency, use your device without a case or with a MagSafe-compatible case. Regular cases may hinder magnetic connection and charging performance.

Compatible With iPhone and AirPods

This image details device compatibility and the impact of different phone cases on magnetic charging.

MAINTENANCE

- **Cleaning:** Disconnect the charger from the power source before cleaning. Use a soft, dry cloth to wipe the surface of the charging pad and adapter. Avoid using harsh chemicals, abrasive cleaners, or excessive moisture.
- **Storage:** Store the charger in a cool, dry place away from direct sunlight and extreme temperatures. When traveling, ensure the cable is neatly coiled to prevent damage.
- **Handling:** Avoid dropping the charger or subjecting it to strong impacts. Do not attempt to disassemble or repair the device yourself, as this will void the warranty.

TROUBLESHOOTING

Problem	Possible Cause	Solution
Device not charging or charging slowly.	Improper alignment of device on the pad. Non-MagSafe compatible phone case. Power adapter not providing sufficient power. Cable connection issues. Device incompatibility (e.g., iPhone 11 or older).	Ensure the device is centered on the charging pad for magnetic alignment. Remove non-MagSafe cases or use a MagSafe-compatible case. Verify the 20W Power Adapter is used and properly plugged in. Check that the USB-C cable is securely connected to both the pad and the adapter. Confirm your device is MagSafe-compatible (iPhone 12 series or newer, AirPods Pro/3/2).
Charging pad LED not lighting up.	No power supply. Faulty cable or adapter.	Check if the power adapter is securely plugged into a working wall outlet. Try using a different USB-C cable or power adapter if available.

Problem	Possible Cause	Solution
Device or charger overheating.	Poor ventilation. Using the device while charging. Environmental factors.	Ensure the charger is placed on a flat, well-ventilated surface. Avoid heavy usage of the device (e.g., gaming, video streaming) during charging. If overheating persists, discontinue use and contact support.

SPECIFICATIONS

Feature	Detail
Brand	QUZUDN
Model	Z8 (B0DXVNKWB9)
Charging Power	15W (Max)
Input Voltage	9 Volts
Amperage	3 Amps
Output Current	2 Amps
Output Voltage	20 Volts
Connectivity Technology	MagSafe, Wireless
Connector Type	USB Type C
Cable Length	6ft
Color	White
Material	Metal, Plastic
Item Weight	4 Ounces
Power Source	Corded Electric
Special Features	15W Charging Power, Fast Charging, Magnetic, MagSafe Compatible
Compatible Devices	iPhones (16/15/14/13/12 Pro/Max/Plus/Mini) and AirPods (Pro 2/Pro/3/2)
