Agrestem 10x13 Ft Retractable Outdoor Pergola User Manual

Brand: Agrestem | **Model:** pMlgNYomAbSlya8eYcYEzA7F

1. Product Overview

The Agrestem 10x13 Ft Retractable Outdoor Pergola is designed to enhance your outdoor living space with its modern aesthetic and functional features. It provides customizable shade and protection, making it ideal for various outdoor environments such as patios, poolside areas, and porches. The pergola features a robust aluminum alloy frame and a retractable canopy, offering both durability and convenience.

2. Important Safety Information

Please read and understand all safety instructions before assembly and use. Failure to follow these instructions may result in injury or damage to the product.

- Ensure the pergola is securely anchored to a stable foundation.
- Exercise caution when assembling and disassembling the unit. It is recommended to have multiple people for assembly.
- Adhere to all weight limits for any items placed on or attached to the pergola structure.
- It is **not recommended** to use the canopy in extreme weather conditions such as strong winds or heavy rain. Retract the canopy to protect the product from damage during such conditions.

3. Components and Parts

All components required for assembly are included in the package and are clearly labeled for easy identification. Please verify all parts are present before beginning assembly. Refer to the included illustrations and step-by-step instructions for a detailed list of parts.

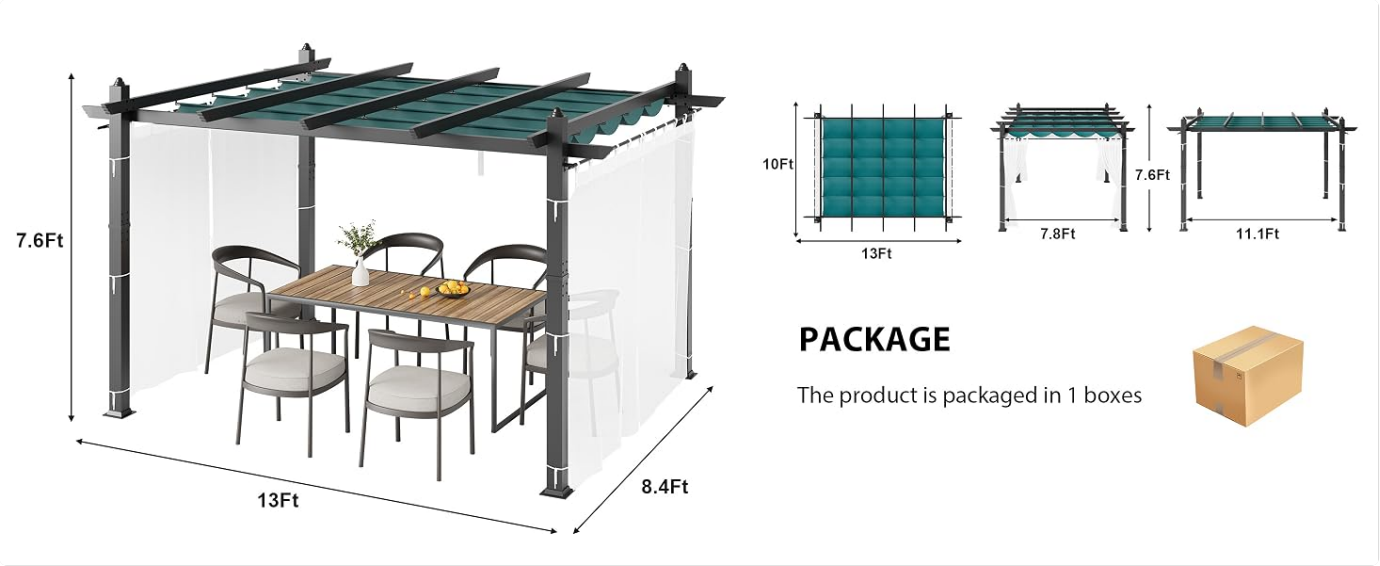

Figure 3.1: Package contents and overall dimensions.

4. Assembly Instructions

The pergola is designed for easy assembly. It is recommended to assemble the unit on flat ground with multiple people to ensure stability and safety during the process. Follow the numbered steps below and refer to the provided illustrations.

1. **Prepare the Area:** Choose a flat, stable surface for assembly. Ensure adequate space around the assembly area.
2. **Assemble the Frame:** Connect the main aluminum alloy frame components according to the labeled parts and diagrams. The frame features a thickened design for enhanced structural stability.
3. **Install Anchoring Stands:** Attach the stable anchoring stands to the base of each post. For additional stability, especially in windy conditions, add weights such as gravel to the lower posts. Stakes are included for installation on dirt ground, while the design is also applicable for cement, wood deck, and concrete surfaces.
4. **Attach Canopy Tracks:** Secure the sliding tracks for the canopy and side mesh screens to the frame.
5. **Mount Canopy and Side Mesh:** Carefully attach the retractable canopy and side mesh screens to their respective tracks. Ensure they slide smoothly.
6. **Final Checks:** Double-check all connections and ensure the pergola is stable and securely anchored before use.

Figure 4.2: Detail of the stable anchoring stand, designed for secure placement.

5. Operating Instructions

The Agrestem pergola features a retractable canopy and movable side mesh screens, allowing you to easily adjust your outdoor shade.

- **Canopy Operation:** To adjust the canopy, simply use the built-in sliding track. Pull the towing rope to extend or retract the canopy to your desired position. The canopy is designed with a carabiner system to snap onto snaps

when fully deployed, preventing swaying in the wind.

- **Side Mesh Screens:** The side mesh screens also operate on a sliding track, allowing you to open or close them for privacy or additional shade as needed.

Figure 5.1: The retractable canopy shown in both open and closed configurations.

Figure 5.2: Detailed view of the sliding track mechanism for the adjustable canopy.

6. Care and Maintenance

Proper care and maintenance will extend the life and appearance of your pergola.

- **Frame Cleaning:** The aluminum alloy frame has a powder-coated finish for rust and corrosion resistance. Clean the frame periodically with a mild soap and water solution. Rinse thoroughly and dry to prevent water spots.

- **Canopy and Mesh Cleaning:** The polyester fabric canopy and mesh screens are waterproof and UV-resistant. Clean them with a soft brush and mild soap. Do not use harsh chemicals or abrasive cleaners. Allow to air dry completely before retracting for storage.
- **Weather Protection:** As noted in the safety section, retract the canopy during strong winds, heavy rain, or snowfall to prevent damage. For prolonged periods of non-use or during severe weather seasons, consider disassembling and storing the canopy and mesh indoors.
- **Anchoring:** Regularly check the anchoring points to ensure they remain secure, especially after strong winds.

7. Troubleshooting

If you encounter any issues with your Agrestem pergola, please refer to the following common solutions:

Problem	Possible Cause	Solution
Canopy difficult to retract/extend	Track obstruction, misaligned fabric, or dirt buildup.	Inspect the sliding track for debris. Ensure the fabric is properly aligned. Clean the track if necessary.
Pergola feels unstable	Improper anchoring, loose connections, or uneven ground.	Verify all bolts and screws are tightened. Ensure the base is securely anchored to a level surface. Consider adding additional weights to the posts.
Water pooling on canopy	Canopy not fully extended or slight sag.	Ensure the canopy is fully extended and taut. The canopy is equipped with drainage holes to prevent accumulation. If pooling persists, check for proper installation.

For issues not listed above, or if the problem persists, please contact Agrestem customer support.

8. Product Specifications

Feature	Detail
Brand	Agrestem
Model Number	pMlgNYomAbSlya8eYcYEzA7F
Product Dimensions (L x W x H)	58.66" x 19.21" x 7.87" (Package) / Approx. 13' x 10' x 7.6' (Assembled)
Item Weight	93.3 Pounds
Frame Material	Aluminum Alloy (Powder-coated)
Canopy Material	PA-coated Polyester Fabric
Water Resistance Level	Waterproof
Ultraviolet Light Protection	Yes
Assembly Required	Yes
Color	Blue+White
Floor Area	130 Square Feet
