Roku Streaming Stick Plus 2025 User Manual

Brand: Roku | Model: 3830R

1. INTRODUCTION

The Roku Streaming Stick Plus 2025 is designed to transform any 4K TV into a powerful streaming hub. Enjoy crystal-clear 4K picture quality and vibrant HDR colors. Its compact design ensures it remains discreetly hidden behind your TV, powered directly from a USB port, eliminating the need for an external power outlet. The included voice remote simplifies navigation and control of your TV and streaming experience.

3. SETUP GUIDE

Follow these steps to set up your Roku Streaming Stick Plus:

- 1. Step 1: Plug it in.** Connect the Roku Streaming Stick Plus directly into an available HDMI port on your TV. For power, connect the included USB power cable from the stick to a USB port on your TV. If your TV does not have a USB port, use a USB power adapter (not included) and plug it into a wall outlet.
- 2. Step 2: Select TV input.** Use your TV remote to select the HDMI input where your Roku Streaming Stick Plus is connected.
- 3. Step 3: Pull tab to pair remote.** Remove the battery tab from the back of your voice remote to activate the pre-installed batteries. The remote should automatically pair with your Roku device.
- 4. Step 4: Follow on-screen setup.** Your TV will display the Roku setup screen. Follow the prompts to connect to your Wi-Fi network, create or log in to a Roku account, and install desired streaming channels.

Streaming in a snap

Start streaming popular apps in just a tap with convenient pre-set shortcut buttons.

6. MAINTENANCE

The Roku Streaming Stick Plus requires minimal maintenance. Keep the device and remote clean by wiping them with a soft, dry cloth. Avoid using liquid cleaners or abrasive materials. Ensure the device has adequate ventilation and is not covered, as this can lead to overheating. Periodically check for software updates through the Roku settings menu to ensure optimal performance.

7. TROUBLESHOOTING

No Picture on TV

- Ensure the Roku Streaming Stick Plus is securely plugged into an HDMI port.
- Verify that your TV is set to the correct HDMI input.
- Check that the power cable is properly connected and the device is receiving power (some devices have an indicator light).
- Try plugging the Roku device into a different HDMI port or using a different power source.

Remote Not Responding

- Ensure the batteries are correctly inserted and have sufficient charge. Replace if necessary.
- Re-pair the remote by pressing the pairing button inside the battery compartment (if available) or following the on-screen instructions in the Roku settings menu.
- Ensure there are no obstructions between the remote and the Roku device.

Buffering or Poor Streaming Quality

- Check your internet connection speed. A stable and fast Wi-Fi connection is crucial for 4K streaming.
- Move your Wi-Fi router closer to the Roku device or consider using a Wi-Fi extender.
- Restart your Roku device by unplugging it from power for a few seconds and plugging it back in.
- Restart your Wi-Fi router.
