

Giro Havoc Pant

Giro Havoc Pant User Manual

Model: Havoc Pant

1. PRODUCT OVERVIEW

The Giro Havoc Pant is designed for cycling in varying conditions, particularly during early and late seasons when trails may be damp or temperatures cooler. Constructed from a durable 4-way stretch Durablend fabric with a DWR (Durable Water Repellent) coating, these pants aim to provide comfort and temperature regulation during active use. This manual provides instructions for the proper use, care, and maintenance of your Giro Havoc Pant.

2. KEY FEATURES

- **Material:** 94% nylon, 6% elastane with DWR coating for water resistance and flexibility.
- **Fit:** Relaxed fit for comfort and freedom of movement during cycling.
- **Waist Adjustment:** Features belt loops, a zipper closure, and integrated waist adjustment for a secure and customizable fit.
- **Pockets:** Includes two hand pockets and one side zipper pocket for secure storage of small items.
- **Bluesign Approved:** Indicates responsible manufacturing processes and materials.

3. USAGE AND CARE

3.1. Wearing and Adjustment

To wear the Giro Havoc Pant, simply pull them on. Utilize the zipper closure and button for fastening. Adjust the waist using the integrated adjustment system or by adding a belt through the belt loops for a personalized and secure fit. Ensure the fit allows for full range of motion without restriction, especially when cycling.

Image 2: Side view illustrating the pant's profile and perforated areas for ventilation.

3.2. Intended Use

These pants are specifically designed for cycling, offering protection and comfort in various trail conditions. The DWR coating provides resistance against light moisture, making them suitable for damp environments. The flexible fabric supports dynamic movements required during mountain biking or trail riding.

3.3. Maintenance and Cleaning

Proper care will extend the life and performance of your Havoc Pant. Follow these general guidelines:

- **Washing:** Machine wash cold with like colors. Use a mild detergent. Do not use bleach or fabric softeners, as these can degrade the DWR coating and fabric performance.
- **Drying:** Tumble dry low or hang dry. Avoid high heat, which can damage the fabric and DWR.
- **Ironing:** Do not iron.
- **Dry Cleaning:** Do not dry clean.
- **DWR Reactivation:** Over time, the DWR coating may lose effectiveness. It can often be reactivated by tumble drying on low heat for a short period or by applying a DWR-restoring spray specifically designed for technical apparel.

Approx. Dimensions	11 x 11 x 3 inches (packaged)
Approx. Weight	12 ounces
Manufacturer	Giro
Origin	Made in the USA or Imported

5. TROUBLESHOOTING

This section addresses common concerns regarding apparel use and maintenance.

- Issue:** Pants feel too tight or too loose.
Solution: Utilize the integrated waist adjustment features or belt loops to achieve a comfortable and secure fit. Refer to sizing guides if available for future purchases.
- Issue:** Water repellency seems reduced.
Solution: The DWR coating can diminish over time. Reactivate it by tumble drying on low heat for a short period. If this is insufficient, consider applying a DWR-restoring spray designed for technical fabrics, following the product's instructions.
- Issue:** Fabric appears damaged after washing.
Solution: Ensure you are following the care instructions precisely, avoiding bleach, fabric softeners, and high heat during washing and drying. Harsh chemicals or excessive heat can damage synthetic fibers and coatings.

6. WARRANTY AND SUPPORT

For information regarding product warranty, returns, or technical support, please refer to the official Giro website or contact their customer service department directly. Keep your proof of purchase for any warranty claims.
