RAMPAGE GEAR RADIANT M1

Rampage Radiant M1 Gaming Mouse User Manual

Model: RADIANT M1

INTRODUCTION

Thank you for choosing the Rampage Radiant M1 Gaming Mouse. This precision-engineered peripheral is designed to enhance your gaming experience with its high-performance features and customizable options. This manual will guide you through the setup, operation, maintenance, and troubleshooting of your new gaming mouse, ensuring you get the most out of its capabilities.

WHAT'S IN THE BOX

Please check the contents of your package. If any items are missing or damaged, please contact your retailer or Rampage customer support.

- Rampage Radiant M1 Wired Gaming Mouse

SETUP

1. **Connect the Mouse:** Plug the USB connector of the Rampage Radiant M1 Gaming Mouse into an available USB port on your computer.
2. **Driver Installation:** The mouse is plug-and-play and should be automatically recognized by your operating system. No additional drivers are typically required for basic functionality.
3. **Software Installation (Optional):** For advanced customization, including macro programming and

detailed RGB lighting control, download the official Rampage software from the manufacturer's website. Follow the on-screen instructions to complete the installation.

OPERATING INSTRUCTIONS

Button Functions

The Rampage Radiant M1 features 6 programmable buttons:

- **Left Click Button:** Standard primary click function.
- **Right Click Button:** Standard secondary click function.
- **Scroll Wheel (Clickable):** Scrolls content up/down; functions as a middle click button.
- **DPI Cycle Button:** Cycles through preset DPI levels.
- **Side Buttons (2):** Typically function as 'Forward' and 'Backward' in web browsers or can be programmed for in-game actions.

DPI Adjustment

The mouse features an adjustable sensitivity up to 12800 DPI. Press the **DPI Cycle Button** (located behind the scroll wheel) to switch between different DPI settings. Each press will cycle to the next preset level, allowing you to quickly adjust cursor speed and precision for various tasks or gaming scenarios.

RGB Lighting Modes

The Rampage Radiant M1 Gaming Mouse features vibrant RGB backlighting with 12 different lighting modes. These modes can typically be cycled through using a combination of buttons (often the DPI button and a side button, or via the software). Refer to the software for full control over lighting effects, colors, and brightness.

Software Customization (Macro Programming)

For full customization of the 6 programmable buttons and advanced RGB lighting control, install the dedicated macro software from the Rampage website. The software allows you to:

- Assign custom functions to each button.
- Create and assign complex macros for in-game commands.
- Adjust DPI levels and polling rate.
- Customize RGB lighting effects, colors, and patterns.
- Save multiple profiles for different games or applications.

MAINTENANCE

To ensure the longevity and optimal performance of your Rampage Radiant M1 Gaming Mouse, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to wipe the surface of the mouse. For stubborn dirt, slightly dampen the cloth with water or a mild cleaning solution. Avoid using harsh chemicals or abrasive materials.
- **Sensor Cleaning:** Occasionally, dust or debris may accumulate around the optical sensor. Use a cotton swab or compressed air to gently clean the sensor area.
- **Cable Care:** Avoid sharp bends or excessive pulling on the braided cable to prevent damage.
- **Storage:** When not in use, store the mouse in a clean, dry environment away from extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your Rampage Radiant M1 Gaming Mouse, please refer to the following common solutions:

Problem	Possible Solution
Mouse not responding	Ensure the USB cable is securely plugged into a working USB port. Try a different USB port on your computer. Restart your computer. Test the mouse on another computer to rule out a system issue.
Cursor movement is erratic or jumpy	Clean the optical sensor on the bottom of the mouse. Ensure you are using the mouse on a clean, non-reflective, and uniform surface (e.g., a mouse pad). Adjust DPI settings to a lower value.
RGB lighting is not working	Ensure the mouse is properly connected. Check the lighting settings in the Rampage software. Try cycling through lighting modes using the mouse buttons (if applicable).
Buttons are not responding or programming fails	Ensure the Rampage software is installed and up-to-date. Run the software as an administrator. Reset the mouse to factory defaults via the software (if available).

SPECIFICATIONS

Product Dimensions	4.8 x 2.5 x 0.1 inches
Item Weight	5.5 ounces

ASIN	B0DY143KP7
Item Model Number	RADIANT M1
Batteries	1 AAA batteries required. (Note: This appears to be an error in the source data as it's a wired mouse. The mouse is powered via USB.)
Date First Available	February 21, 2025
Manufacturer	Rampage
Brand	RAMPAGE GEAR
Color	Black
Connectivity Technology	USB
Special Feature	Portable
Movement Detection Technology	Optical
