Coolfiqu Coolfiqu

Coolfiqu 6L Humidifier Instruction Manual

Model: Coolfiqu

Introduction

The Coolfiqu 6L Humidifier is designed to enhance your indoor environment by providing both cool and warm mist options. This device features a large water tank capacity, adjustable mist levels, and an integrated essential oil diffuser to improve air quality and comfort in various rooms.

Safety Instructions

To ensure safe operation, please observe the following:

- **Anti-Dry Burn Function:** The humidifier includes an anti-dry burn function. If the water level drops too low, a red indicator light activates, and the device automatically shuts off to prevent damage.
- **Water Level:** Do not inject water beyond the maximum water level line.
- **Base Chamber:** Do not add water directly into the base chamber or mist tube.
- **Essential Oils:** Do not add essential oils or supplemental water treatment liquids directly into the humidifier's water tank to avoid damage. Use the designated essential oil diffuser tray.
- **Foam Removal:** Remove the white foam from the base before initial use.

Setup Instructions

1. Tear off any protective tape from the unit.
2. Remove the white foam from the base of the humidifier.
3. Align the nozzle cap with the humidifier cup lid and press to assemble. Ensure correct installation to avoid leakage.
4. Fill the water tank with purified or distilled water. Do not exceed the MAX 6L line.
5. Place the filled water tank onto the lower base, ensuring it is securely seated.
6. Plug the humidifier into a 120V AC power outlet.

Operating Instructions

The Coolfiqu Humidifier offers various settings for personalized comfort:

- **Power On/Off:** Press the power button on the touch-sensitive control panel to turn the unit on or off.
- **Mist Level Adjustment:** Select from 3 levels of mist output to suit your preference, from a light mist for small rooms to a heavy mist for larger areas.
- **Cool and Warm Mist:** Easily switch between cool and warm mist options with a single touch.
- **Adjustable Humidity Control:** The smart sensor automatically regulates humidity to your desired level.
- **Sleep Mode:** Activate sleep mode to turn off the LED screen for undisturbed rest while the humidifier continues to operate.
- **Timer:** Set the timer for automatic shut-off, allowing for continuous operation for up to 60 hours per fill.
- **Essential Oil Diffuser:** Use the dedicated essential oil diffuser tray to add your favorite essential oils, enhancing your space's ambiance.

Maintenance and Cleaning

Regular cleaning ensures optimal performance and longevity of your humidifier:

1. Unplug the humidifier before cleaning or refilling.
2. Flush the water tank and base chamber with water.
3. Clean corners and gaps with the provided cleaning brush.
4. Lift the filter clockwise upward to remove and clean.
5. To prevent leakage due to clogged gaskets, clean the gaskets once a week.
6. Use a soft brush for the atomizing sheet.

Troubleshooting

If you encounter issues, refer to the following common problems and solutions:

- **Low Water Level (E2 Error):** When the water level in the tank is too low, the red water shortage indicator on the screen flashes or the screen displays "E2". This indicates the anti-dry burn device is activating. Please refill the water tank and restart the device.
- **Leakage:** Ensure the water valve is not flat or the tank leaks water when refilling. Your water tank may also have leakage due to prolonged use of essential oils.
