## IMPORTANT SAFETY INFORMATION

---

When using electrical appliances, especially when children are present, basic safety precautions should always be followed, including the following:

- **DANGER** – As with most electrical appliances, electrical parts are electrically live even when the switch is off. To reduce the risk of death by electric shock:
  - Always unplug the appliance immediately after using.
  - Do not use while bathing or in a shower.
  - Do not place or store appliance where it can fall or be pulled into a tub or sink.
  - Do not place in or drop into water or other liquid.
  - If an appliance falls into water, unplug it immediately. Do not reach into the water.
- **WARNING** – To reduce the risk of burns, electrocution, fire, or injury to persons:
  - An appliance should never be left unattended when plugged in.
  - Do not pull, twist, or wrap line cord around appliance.
  - This appliance should not be used by, on, or near children or individuals with certain disabilities.
  - Use this appliance only for its intended use as described in this manual. Do not use attachments not recommended by the manufacturer.
  - Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged, or dropped into water. Return the appliance to an authorized service center for examination and repair.
  - Keep the cord away from heated surfaces.
  - Never block the air openings of the appliance or place it on a soft surface, such as a bed or couch, where the air openings may be blocked. Keep the air openings free of lint, hair, and the like.
  - Never use while sleeping.
  - Never drop or insert any object into any opening.
  - Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
  - Do not use an extension cord with this appliance.
  - Do not direct hot air toward eyes or other heat-sensitive areas.
  - The brush attachment may be hot during use. Allow to cool before handling.
  - Do not place appliance on any surface while it is operating.
  - While using the appliance, keep your hair out of the air inlets.

- Do not use with a voltage converter.

## OPERATING INSTRUCTIONS

The Tayshia 2-in-1 Double Ceramic Hot Air Brush is designed for use on towel-dried, damp hair. For best results, ensure hair is not dripping wet.

1. **Select Heat Setting:** Turn the switch to the desired heat setting. Use 'LOW' for fine or delicate hair, and 'HIGH' for thicker or coarser hair. Allow a few moments for the brush to heat up.
2. **Section Hair:** Divide your hair into manageable sections.
3. **Styling Technique:**
  - Place the brush near the roots of a hair section and gently glide it down towards the ends.
  - For volume, lift the section at the roots while drying.
  - To create curls or waves, wrap a section of hair around the barrel of the brush, hold for a few seconds, then gently unroll.
  - For straightening, pull the brush through the hair section slowly and smoothly.
4. **Utilize Cool Tip:** Use the cool tip at the end of the brush for safe and easy handling during styling.
5. **Finish Styling:** Continue styling section by section until your desired look is achieved.
6. **Power Off:** Once finished, turn the switch to the 'OFF' position and unplug the appliance from the electrical outlet.

## MAINTENANCE AND CARE

Proper maintenance ensures the longevity and optimal performance of your hot air brush.

- **Cleaning:** Ensure the appliance is unplugged and completely cool before cleaning. Wipe the exterior with a damp cloth. Do not immerse the appliance in water or any other liquid. Periodically clean any hair or lint from the air inlet and brush bristles to maintain airflow.
- **Storage:** Allow the appliance to cool completely before storing. Store it in a dry location, out of reach of children. Do not wrap the power cord around the appliance, as this can cause damage to the cord.
- **Cord Care:** Regularly inspect the power cord for any signs of damage. If the cord becomes twisted during use, straighten it before storage.

## TROUBLESHOOTING

If you encounter issues with your hot air brush, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Appliance does not turn on.	Not plugged in correctly or no power from outlet.	Ensure the plug is fully inserted into a working electrical outlet. Check the circuit breaker if necessary.
Appliance is not heating up.	Incorrect heat setting selected or internal malfunction.	Ensure the switch is set to 'LOW' or 'HIGH'. If still no heat, discontinue use and contact customer support.
Brush feels too hot.	High heat setting selected for sensitive hair or prolonged use on one section.	Switch to the 'LOW' heat setting. Avoid holding the brush in one place for too long. Ensure hair is damp, not dry, when styling.
Hair is not wrapping around the brush effectively.	Hair section too large or bristles are not gripping.	Ensure hair is towel-dried and detangled. Work with smaller sections of hair.
Appliance suddenly stops working.	Overheating protection activated.	Unplug the appliance and allow it to cool down for several minutes. Check air inlets for blockages. Plug back in and try again.
