Dienmern MM-01

Dienmern MM-01 Makeup Mirror with Lights User Manual

Model: MM-01 | Brand: Dienmern

1. PRODUCT OVERVIEW

The Dienmern MM-01 Makeup Mirror is a versatile lighted vanity mirror designed for detailed grooming and makeup application. It features double-sided magnification (1x and 20x), adjustable LED lighting with three color modes, and a rechargeable battery for cordless use.

2. PACKAGE CONTENTS

Upon unboxing, verify that all components are present:

- Dienmern MM-01 Makeup Mirror (with 1x and 20x magnification)
- Adjustable Stand
- Round Base
- USB Charging Cable (Type-C)
- User Manual (this document)

Your browser does not support the video tag.

3. SETUP INSTRUCTIONS

1. **Assemble the Stand:** Carefully screw the adjustable stand into the center of the round base until secure.

- Attach the Mirror:** Align the mirror's frame with the top of the adjustable stand and secure it using the provided screws or locking mechanism. Ensure the mirror is stable.
- Charge the Mirror:** Connect the provided USB Type-C charging cable to the charging port on the side of the mirror and plug the other end into a compatible USB power adapter (not included). The indicator light will show charging status. A full charge provides 8-12 hours of continuous wireless use.

WHY WE ARE BETTER

4. OPERATING INSTRUCTIONS

4.1 Power On/Off and Light Modes

The mirror features a touch-sensitive power button on the mirror surface.

- **Power On/Off:** Short press the power button to turn the lights on or off.
- **Change Light Color:** With the lights on, short press the power button repeatedly to cycle through the three available light color modes: Cool Light, Warm Light, and Natural Light.
- **Adjust Brightness:** With the lights on, long press the power button to continuously adjust the brightness level. Release the button when the desired brightness is reached.

Image 3: Visual representation of the three light color modes (Cool, Natural, Warm) and brightness adjustment.

4.2 Using Magnification

The mirror is double-sided, offering two magnification levels:

- **1x Magnification:** Provides a standard, true-to-life reflection for general makeup application and hair styling.
- **20x Magnification:** Offers high magnification for precise tasks such as eyeliner application, eyelash trimming, eyebrow plucking, or wearing contact lenses.

Important Note:

When using the 20x magnification side, keep your face approximately 4.5 inches (11.4 cm) from the mirror to avoid dizziness and ensure a clear, focused image.

4.3 Adjusting Height and Rotation

- **360° Rotation:** The mirror head can be rotated 360 degrees horizontally to switch between the 1x and 20x sides, and vertically to find your preferred viewing angle.
- **Adjustable Height:** The stand's height can be adjusted from 15 to 20 inches (38 to 50.8 cm) to suit different users and seating positions. Loosen the knob on the stand, adjust to the desired height, and then tighten the knob to secure.

5. MAINTENANCE

- **Cleaning:** To clean the mirror surface, gently wipe with a soft, lint-free cloth. For stubborn smudges, use a small amount of glass cleaner applied to the cloth, not directly to the mirror.
- **General Care:** Avoid dropping the mirror or subjecting it to strong impacts to prevent damage. Keep the mirror away from excessive moisture and direct sunlight.
- **Battery Care:** To prolong battery life, avoid fully discharging the mirror frequently. Recharge when the light intensity noticeably decreases.

6. TROUBLESHOOTING

Problem	Possible Cause	Solution
Mirror lights not turning on.	Low battery or power button not pressed correctly.	Charge the mirror using the USB cable. Ensure the power button is pressed firmly.
Dizziness when using 20x magnification.	Face is too far or too close to the 20x mirror.	Maintain a distance of approximately 4.5 inches (11.4 cm) from the 20x magnification side.
Mirror stand feels loose.	The adjustable knob is not tightened.	Tighten the knob on the adjustable stand to secure the height.
