

ZHENMI ZMGJ-J15

ZHENMI Portable Blender ZMGJ-J15 User Manual

Model: ZMGJ-J15

IMPORTANT SAFETY INSTRUCTIONS

Please read all instructions carefully before using your ZHENMI Portable Blender. Retain this manual for future reference.

- **Blades are Sharp:** Handle the blade assembly with extreme care to avoid injury.
- **Children:** Keep the blender and its components out of reach of children.
- **Motor Base:** Never immerse the motor base in water or any other liquid. Wipe clean with a damp cloth only.
- **Secure Assembly:** Ensure the blender cup and blade assembly are securely locked before operating.
- **Empty Operation:** Do not operate the blender when empty.
- **Overfilling:** Do not overfill the blender cup beyond the maximum mixing capacity mark (500ml).
- **Hot Liquids:** Do not blend liquids hotter than 60°C (140°F). Hot liquids can create pressure and cause injury.
- **Charging:** Use only the provided USB charging cable. Do not attempt to charge with damaged cables or adapters.
- **Dishwasher:** Do not use a dishwasher dryer for any part of the blender.

CAUTION

1. Water temperature must be below 60°C.
2. Dishwasher dryer is prohibited.

Image: Caution warning indicating water temperature must be below 60°C and dishwasher drying is prohibited. Hand washing with warm water is recommended.

PRODUCT OVERVIEW

The ZHENMI Portable Blender is designed for convenient blending on the go. Familiarize yourself with its components:

- **Motor Base:** Contains the motor, battery, control button, and LED digital display.
- **Blade Assembly:** Features a 12-blade stainless steel system for efficient blending.
- **Blender Cup:** 1000ml total capacity, with a 500ml mixing capacity line.
- **Sip Lid:** For direct drinking and includes a straw opening.
- **Blade Lid:** The lid that houses the blade assembly, used during blending.
- **USB Charging Cable:** For recharging the blender's internal battery.

GETTING STARTED

1. **Unpack:** Carefully remove all components from the packaging.
2. **Clean:** Before first use, wash the blender cup, sip lid, and blade assembly with warm, soapy water. Rinse thoroughly and dry completely. *Do not wash the motor base.*
3. **Charge:** Fully charge the blender before its initial use. Refer to the 'Charging the Blender' section for details.

Charging the Blender

The blender is equipped with a rechargeable battery and a digital display to show the battery level.

- Connect the provided USB charging cable to the charging port on the motor base.
- Plug the other end of the USB cable into a compatible USB power adapter (not included) or a computer USB port.
- The LED display will show the current battery percentage. A full charge is indicated by 100%.

Blending Instructions

1. **Prepare Ingredients:** Cut fruits and vegetables into small pieces (approximately 1 inch or 2.5 cm) for optimal blending. Add liquids first, then softer ingredients, followed by harder ingredients and ice. Do not exceed the 500ml mixing capacity line.
2. **Assemble:** Place the prepared ingredients into the blender cup. Align the blade assembly with the cup and screw it on tightly until you hear a distinct "click" sound, indicating it is securely locked.
3. **Blend:** Invert the blender so the motor base is at the bottom. Double-press the power button to start the blending cycle. For best results and to prevent ingredients from sticking, gently shake the blender during operation.
4. **Monitor:** The digital display will show the blending progress or remaining battery. The blender will automatically stop after a preset blending cycle.
5. **Serve:** Once blending is complete, unscrew the blade assembly. You can then attach the sip lid for direct drinking or insert a straw.

Mode Of Use

1. LOAD

Add ingredients (cut large items into smaller pieces for smoother drinks).

2. LOCK & SECURE

Screw on the blade lid until you hear a "click" sound – the safety lock.

3. BLEND

Turn the blender upside down, double-press the power button to start the countdown. Gently shake during blending to accelerate mixing

4. ENJOY

Swap to the sip lid, insert straw, and take your drink on the go

Image: Step-by-step guide illustrating the blending process: 1. Load ingredients, 2. Lock & Secure the lid, 3. Double-press to Blend, 4. Enjoy with the sip lid.

CLEANING AND MAINTENANCE

Proper cleaning and maintenance will ensure the longevity and optimal performance of your blender.

1. **Immediate Cleaning:** Clean the blender immediately after each use to prevent food residue from drying and becoming difficult to remove.
2. **Disassembly:** Separate the motor base, blender cup, blade assembly, and lids.
3. **Washing Components:** Hand wash the blender cup, blade assembly, and lids with warm water and mild dish soap. Rinse thoroughly. *Caution: The blades are very sharp. Handle the blade assembly with*

extreme care.

4. **Cleaning Motor Base:** Wipe the exterior of the motor base with a damp cloth. **Do not immerse the motor base in water or any other liquid.**
5. **Water Temperature:** Do not use water hotter than 60°C (140°F) for cleaning any part of the blender.
6. **Drying:** Dry all components thoroughly before reassembling or storing. Ensure no moisture remains, especially around the charging port and blade assembly.
7. **Dishwasher:** Do not place any part of the blender in a dishwasher dryer.
8. **Storage:** Store the blender in a clean, dry place, away from direct sunlight and extreme temperatures.

TROUBLESHOOTING

If you encounter issues with your blender, refer to the following common problems and solutions:

- **Blender Does Not Start:**

- Ensure the blender cup is securely attached to the motor base and locked into place.
- Check the battery level on the digital display. Recharge the blender if the battery is low.
- Confirm you are double-pressing the power button to activate the blending cycle.

- **Ingredients Not Blending Smoothly:**

- Ensure ingredients are cut into small, manageable pieces (approx. 1 inch).
- Add sufficient liquid to facilitate blending.
- Do not overfill the cup; stay below the 500ml mixing capacity line.
- Gently shake the blender during operation to help move ingredients towards the blades.

- **Blender Stops Unexpectedly During Operation:**

- This may indicate a low battery. Recharge the blender.
- The blender may have detected an overload. Reduce the amount of ingredients or add more liquid.
- Check for any hard objects (e.g., fruit pits, large ice chunks) that might be jamming the blades.

- **Leaking from the Blender Cup:**

- Ensure the blade assembly and any attached lids are screwed on tightly and correctly aligned with the cup threads.
- Inspect the silicone seals for any damage or improper placement.

SPECIFICATIONS

Feature	Detail
Brand	ZHENMI
Model Name	Portable Juicer (ZMGJ-J15)
Total Capacity	1000ml
Mixing Capacity	500ml
Motor Speed	18000 RPM

Blade System	12-blade, Stainless Steel
Power Source	Battery Powered (USB Rechargeable)
Maximum Power	70 Watts
Voltage	7.4 Volts
Product Dimensions	4.53"D x 4.7"W x 10.91"H
Item Weight	1.92 pounds
Material	Plastic, Stainless Steel
Special Features	Ice Crushing, Portable, Digital Display
