Baseus PPKPC-1027G

Baseus Picogo Magsafe Portable Charger User Manual

Model: PPKPC-1027G | Brand: Baseus

1. Introduction

The Baseus Picogo Magsafe Portable Charger is an ultra-slim, Qi2 certified 15W wireless power bank designed for convenient on-the-go charging. With a 10,000mAh capacity and 27W fast charging via its USB-C port, it provides reliable power for your iPhone 12-16 series and other compatible devices. Its strong magnetic attachment ensures a stable connection for wireless charging, making it an ideal companion for daily use and travel.

2. Safety Information

Please read all safety instructions carefully before using this product to ensure proper operation and to prevent damage or injury.

- Do not expose the power bank to extreme temperatures (above 60°C/140°F) or direct sunlight.
- Avoid dropping, disassembling, or attempting to repair the device yourself.
- Keep away from water, moisture, and flammable materials.
- Use only the provided USB-C cable or certified cables for charging and recharging.
- Keep out of reach of children.
- Dispose of the product responsibly according to local regulations.

3. Package Contents

Verify that all items are present in your package:

- 1x Baseus PicoGo 10,000mAh Ultra-Slim Magsafe Power Bank
- 1x 60W Nylon Braided USB-C Cable
- 1x User Manual (this document)

4. Product Overview

The Baseus Picogo Magsafe Portable Charger features a sleek design with essential components for efficient charging.

Physical Features

- **USB-C Port:** For both charging the power bank and wired charging of devices.
- **LED Indicators:** Display the remaining battery level and charging status.
- **Magnetic Surface:** For secure attachment and wireless charging of MagSafe-compatible devices.

5. Setup

Charging the Power Bank

Before first use, fully charge your Baseus Picogo Portable Charger.

1. Connect the provided USB-C cable to the power bank's USB-C port.
2. Connect the other end of the USB-C cable to a compatible USB wall charger (not included).
3. The LED indicators will illuminate to show charging progress. All four LEDs will be solid when fully charged.

The power bank can be fully recharged in approximately 2 hours and 35 minutes with a 20W input.

6. Operating Instructions

Wireless Charging (MagSafe)

The power bank supports 15W Qi2 certified magnetic wireless charging for iPhone 12-16 series and other MagSafe-compatible devices (magnetic case recommended).

1. Align the power bank with the back of your MagSafe-compatible iPhone.
2. The strong magnets will securely attach the power bank to your device.
3. Wireless charging will begin automatically. The LED indicators on the power bank will show charging activity.

Video: Demonstrates the 27W fast charging capability of the power bank, highlighting its efficiency in a compact, credit-card sized form factor.

Wired Charging

The power bank features a 27W max USB-C port for fast wired charging.

1. Connect one end of the USB-C cable to the power bank's USB-C port.
2. Connect the other end of the USB-C cable to your device's charging port.
3. Charging will begin automatically.

Charging Multiple Devices

You can charge two devices simultaneously using both the wireless charging pad and the USB-C

port.

Image: A visual guide to the wide compatibility of the power bank, including iPhone 12-16 series, AirPods, iPads,

and various Android phones.

LED Indicator Status

The LED lights on the power bank indicate the remaining battery capacity:

- **4 LEDs solid:** 75-100% charged
- **3 LEDs solid:** 50-75% charged
- **2 LEDs solid:** 25-50% charged
- **1 LED solid:** 0-25% charged

During magnetic charging, a specific LED indicator may light up to confirm the connection.

Image: Explains the meaning of the LED indicators for battery level and addresses why charging might slow down when your device reaches 80% battery.

7. Maintenance

- Clean the power bank with a soft, dry cloth. Do not use harsh chemicals or abrasive materials.
- Store the power bank in a cool, dry place away from direct sunlight and extreme temperatures.
- For optimal battery health, fully charge the power bank at least once every three months if not in regular use.

8. Troubleshooting

Device not charging / Slow charging

- Ensure the power bank is sufficiently charged.
- Check that the USB-C cable is securely connected to both the power bank and your device.
- For wireless charging, ensure your device is MagSafe-compatible and properly aligned. A magnetic case is recommended for optimal connection.
- If your phone's charging slows at 80%, this is a feature to protect the battery, especially if it gets

too warm. Charging will resume once the device cools down. Move to a cooler area if necessary.

- Try using a different USB-C cable or wall adapter to rule out cable/adapter issues.

Power bank not recharging

- Ensure the USB-C cable and wall adapter are functioning correctly.
- Check the power source (wall outlet).

9. Specifications

Feature	Detail
Capacity	10000mAh 3.6V/36Wh
Magnetic Force	11N
Material	Silicone, Aluminium alloy
Color	Space Grey
USB-C Input	5V = 3A; 9V = 2.22A
USB-C Output	5V = 2.4A; 9V = 3A; 12V = 1.5A
Wireless Charging Power	5W / 7.5W / 15W
Total Output	5V = 2.4A
Dimensions	4.0 x 2.6 x 0.5 inches
Weight	0.37 LB (7.8 ounces)
Model Number	PPKPC-1027G

10. Warranty and Support

Baseus offers a **24-month warranty** for worry-free ownership of your Picogo Magsafe Portable Charger. We are committed to providing lifelong 24/7 professional support and free returns and exchanges.
