OPERATING INSTRUCTIONS

Translation Modes

The ERAZER XF31 earbuds support multiple translation modes to suit different communication scenarios:

- **AI Dialogue Mode:** Communicate directly with the AI for instant answers and information. This mode is ideal for quick queries or conversational practice.
- **Translation Machine Mode:** Speak into your phone, and the translation will be delivered through your earbuds in real-time. This is useful for one-on-one conversations where one person uses the phone and the other listens via the earbuds.
- **Binaural Mode (Dual-Ear Click Mode):** Click or double-click the earbuds to initiate real-time translation. Both users wear an earbud, allowing for natural, bidirectional conversation.
- **Phone + Headphones Mode:** Enter the app to translate text or audio files, and synchronize the audio output with the headphones. This mode is suitable for translating pre-recorded content or text.
