## 1. Introduction

Welcome to the instruction manual for your Walfront Professional Beard Trimmer, Model WALFRONTizfnsqw80a-13. This electric barber clipper is designed for efficient and comfortable beard trimming, featuring a unique beehive mesh design and a portable, rechargeable form factor. Please read this manual thoroughly before using the device to ensure safe and optimal performance. Keep this manual for future reference.

## 2. Important Safety Instructions

- Read all instructions before using this appliance.
- Keep the appliance dry. Do not use it near water or in wet conditions.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Children should be supervised to ensure that they do not play with the appliance.
- Only use the appliance for its intended household use as described in this manual.
- Do not use attachments not recommended by the manufacturer.
- Never operate this appliance if it has a damaged cord or plug, if it is not working properly, or if it has been dropped or damaged.
- Keep the cord away from heated surfaces.
- Do not drop or insert any object into any opening.
- Do not use outdoors or operate where aerosol (spray) products are being used or where oxygen is being administered.
- Always attach plug to appliance first, then to outlet. To disconnect, turn all controls to OFF, then

remove plug from outlet.

- Do not use an extension cord with this appliance.
- Ensure the charging port is dry before connecting the USB cable.

### 3. Package Contents

---

Carefully unpack your Walfront Professional Beard Trimmer and check for the following items:

- 1 x Beard Trimmer
- 1 x USB Cable
- 1 x Cleaning Brush
- 1 x Storage Bag

If any items are missing or damaged, please contact customer support.

### 4. Product Overview

---

The Walfront Professional Beard Trimmer is designed for a comfortable and efficient shaving experience. Its compact and portable design makes it ideal for travel or on-the-go use.

- **Comfortable Experience:** Equipped with a powerful motor for quick and easy beard trimming, ensuring a comfortable shave.
- **Unique Beehive Mesh Design:** The shaver head features a beehive mesh design that effectively captures beard hairs, minimizing missed spots for a clean shave.
- **Lightweight and Portable:** Its compact size allows for easy carrying, making it suitable for travel or use in a car.
- **Rechargeable Design:** Features a convenient USB charging port, allowing you to charge it from various sources like computers or power banks.

- **Premium Material:** Constructed from durable ABS, stainless steel, and non-woven materials for long-lasting use.

## 5. Setup

### 5.1 Initial Charging

Before first use, fully charge your beard trimmer. The device is equipped with a built-in 500mAh lithium battery.

1. Connect the provided USB cable to the charging port on the trimmer.
2. Connect the other end of the USB cable to a compatible USB power source, such as a computer, power bank, or a USB wall adapter (not included).
3. Allow the trimmer to charge until the charging indicator (if present) shows a full charge, or for approximately 2-3 hours for a complete charge.

4. Disconnect the USB cable once charging is complete.

## 6. Operating Instructions

### 6.1 Powering On/Off

- To turn the trimmer **ON**, press the power button located on the front of the device.
- To turn the trimmer **OFF**, press the power button again.

### 6.2 Trimming Your Beard

For best results, ensure your beard is clean and dry before trimming.

1. Turn on the trimmer.
2. Gently place the beehive mesh shaver head against your skin.
3. Move the trimmer in small, circular motions or against the direction of hair growth for an effective shave.
4. Apply light pressure; excessive force is not necessary and may cause irritation.

5. After trimming, turn off the device.

## 7. Maintenance and Cleaning

Regular cleaning ensures optimal performance and extends the lifespan of your trimmer.

1. Ensure the trimmer is turned **OFF** and disconnected from any charging source before cleaning.

2. Gently twist or pull the shaver head to detach it from the main body (refer to product design for specific detachment method).
3. Use the provided cleaning brush to remove any accumulated hair from the shaver head and the internal cutting blades.
4. You may gently tap the shaver head to dislodge stubborn hairs.
5. Do not rinse the entire unit under water unless explicitly stated as waterproof. Clean only the detachable parts that are designed for water exposure, if applicable. For this model, keep the main body dry.
6. Once clean, reattach the shaver head securely to the trimmer body.
7. Store the trimmer in the provided storage bag to protect it from dust and damage.

## 8. Troubleshooting

If you encounter issues with your Walfront Professional Beard Trimmer, please refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Trimmer does not turn on.	Battery is depleted.	Charge the trimmer fully using the provided USB cable.
Trimmer runs slowly or cuts poorly.	Hair buildup in the shaver head or dull blades.	Clean the shaver head and blades thoroughly with the cleaning brush. If performance does not improve, consider replacing the shaver head if available.
Trimmer is not charging.	USB cable or power source issue; charging port obstruction.	Ensure the USB cable is securely connected. Try a different USB port or power adapter. Check the charging port for debris.
Skin irritation after use.	Incorrect shaving technique or sensitive skin.	Ensure you are using light pressure and moving the trimmer smoothly. Shave in the direction of hair growth if irritation persists. Ensure blades are clean and sharp.

If the problem persists after trying these solutions, please contact customer support.

## 9. Specifications
