## 5. MAINTENANCE

Proper care will ensure the longevity of your diecast car.

### Cleaning:

- Wipe the car gently with a soft, dry cloth to remove dust and dirt.
- Avoid using harsh chemicals or abrasive materials, as these can damage the paint finish.

## Storage:

- Store the diecast car in a cool, dry place away from direct sunlight to prevent fading.
- For collectors, consider storing in display cases or protective containers to preserve its condition.

## 6. TROUBLESHOOTING

Most issues with diecast cars are minor and easily resolved.

### Common Issues:

- **Wheels not rolling smoothly:** Check for any debris (e.g., hair, lint) caught in the axles. Carefully remove any obstructions.
- **Scratches or paint chips:** These are typically cosmetic and occur with normal play. For collectors, handle with care to minimize such occurrences.
- **Loose parts:** If any small parts become loose, ensure they are not ingested by young children. If the part is essential for function, contact customer support.
