## TELESIN 4-in-1 Floating Selfie Stick Tripod

# TELESIN 4-in-1 Floating Selfie Stick Tripod Instruction Manual

Model: 4-in-1 Floating Selfie Stick Tripod

## PRODUCT OVERVIEW

---

The TELESIN 4-in-1 Floating Selfie Stick Tripod is a versatile accessory designed for action cameras. It functions as a floating buoyancy stick, an extendable selfie stick, a stable tripod, and a comfortable hand grip. Constructed from durable aluminum alloy, it is suitable for both land and water activities.

### What's in the Box:

- TELESIN Floating Tripod Selfie Stick x1
- Hanging Rope (Wrist Strap) x1
- Thumb Screw x1
- Instruction Manual x1

## COMPATIBILITY

---

This accessory is compatible with a wide range of action cameras, including:

- GoPro Hero 13, 12, 11, 10, 9, 8, 7, 6, 5, 4, 3, 3+
- DJI OSMO Action series
- Insta360 cameras
- Most other action cameras with a standard 1/4-inch screw interface.

### Important Note:

- Action camera adapters may need to be purchased separately.
- For optimal buoyancy and to prevent the device from being too heavy, it is recommended to use plastic adapters or a waterproof case that matches your camera model.

## SETUP INSTRUCTIONS

---

### 1. Attaching Your Action Camera

1. Locate the thumb screw on the mounting head of the selfie stick.
2. Loosen the thumb screw by turning it counter-clockwise.
3. Align your action camera's mounting bracket with the selfie stick's mount.
4. Insert the camera into the mount.
5. Tighten the thumb screw clockwise until the camera is securely fastened. Do not overtighten.

### 2. Attaching the Wrist Strap

The wrist strap provides an extra layer of security, preventing accidental loss, especially during water activities.

1. Identify the three small holes on the orange tripod base of the selfie stick.
2. Thread the thin loop of the lanyard through one of the side holes from below.
3. Pull the lanyard loop through the top hole.
4. Pass the main wrist strap through the lanyard loop and pull it tight to secure.
5. Adjust the wrist strap to comfortably fit your wrist before use.

## OPERATING INSTRUCTIONS

---

### Extending and Folding the Selfie Stick

1. To extend the stick, rotate the rod counter-clockwise to unlock the telescopic sections.
2. Pull the sections outwards to your desired length (up to 24 inches / 61 cm).
3. To lock the stick at the desired length, rotate the rod clockwise until it is secure.
4. To fold the stick, rotate counter-clockwise to unlock, push the sections back in, and then rotate clockwise to lock it in its compact 8.6-inch (22 cm) form.

### Using the 4-in-1 Functions

- **Selfie Stick:** Extend the pole to capture wider shots or self-portraits.
- **Hand Grip:** Use the compact form as a stable hand grip for steady footage.
- **Floating Buoyancy Stick:** The design allows the stick to float on water, preventing your camera from sinking. Ensure the tripod legs are folded for optimal buoyancy.
- **Tripod:** The base features a magnetic attachment for the tripod legs. Extend the legs to create a stable tripod for hands-free shooting on flat surfaces or in shallow water.

## MAINTENANCE

---

### Post-Use Care for Saltwater Environments:

1. After use in seawater, shake out any seawater from inside the selfie stick.
2. Immerse the entire product in fresh water for 10 minutes to dissolve salt residues.
3. After soaking, remove the product from the fresh water.
4. Rinse the product thoroughly with running tap water for 5 minutes, ensuring all parts are flushed.
5. Use a dry, soft towel to wipe off any remaining water droplets from the product's surface.
6. Place the product in a dry, well-ventilated area to air dry completely.

**Caution: Do not use a dryer, stove, or any external heat source for drying, as this may damage the product.**
