Coziley G1

Coziley G1 Automatic Self-Cleaning Litter Box User Manual

Model: G1

INTRODUCTION

This manual provides comprehensive instructions for the setup, operation, maintenance, and troubleshooting of your Coziley G1 Automatic Self-Cleaning Litter Box. Please read this manual thoroughly before using the product to ensure proper function and safety.

SAFETY INFORMATION

The Coziley G1 litter box is designed with multiple safety features to protect your cat:

- **Dual Safety Protection:** Equipped with 4 infrared sensors and 4 weight sensors, the unit accurately detects cat activity. Operation immediately stops if a cat is detected during a cleaning cycle, eliminating any risk of trapping.
- **Open-Entry Design:** The wide, open entry ensures safe passage for your cat, preventing stress or trapping.
- **Weight Detection:** The machine pauses instantly if it senses a weight over 2.5 lbs inside the box during operation.

Important: Regularly clean the 4 infrared sensors to maintain accurate detection and ensure continuous safety.

SETUP INSTRUCTIONS

1. Assembly

1. Unpack all components from the box.
2. Attach the four support legs to the base of the litter box.
3. Ensure the ball compartment is correctly seated and secure the 4 outer latches. This is crucial for proper operation.
4. Place the litter mat in front of the litter box entrance.

2. Adding Litter

The Coziley G1 is compatible with various types of clumping cat litter, including mineral, bentonite, mixed, and plant-based litters.

- Pour clumping cat litter into the globe. Do not overfill.
- After adding fresh litter, press and hold the "Clean" button on the unit to calibrate the litter level for precise operation.

3. Power Connection

Connect the power adapter to the litter box and plug it into a standard electrical outlet. The unit will power on automatically.

4. Smart APP Connection

To utilize remote control and health monitoring features, connect your G1 litter box to the companion smartphone application:

1. Download the Coziley app from your device's app store.
2. Open the app and follow the on-screen instructions to add your G1 device. The litter box connects via 2.4G Wi-Fi.
3. Once connected, you can control the unit, receive real-time notifications, and monitor your cat's litter habits.

OPERATING INSTRUCTIONS

Automatic Cleaning Cycle

The Cozily G1 automatically initiates a cleaning cycle after your cat exits the litter box. The internal mechanism sifts the litter, separating clumps into the sealed waste bin below, leaving clean litter for the next use.

No More Litter Waste

Manual Cleaning

You can initiate a cleaning cycle manually using the dedicated button on the unit or through the Coziley app's "One-touch Cleaning" feature.

Smart APP Control Features

The Coziley app provides comprehensive control and monitoring capabilities:

- **Remote Control:** Start cleaning cycles, lock the device, and adjust settings from anywhere.
- **Real-time Notifications:** Receive alerts for waste bin full, litter level low, or any operational issues.
- **Health Monitoring:** Track your cat's litter habits, providing insights into their health.
- **Kitten Protect Mode:** A specially designed mode for gentle care of growing cats, ensuring their safety and comfort.
- **Sleep Mode:** Activates quiet operation (around 30dB) during specified hours to ensure peaceful rest for both you and your cat.
- **Child Lock:** Prevents accidental operation by children.
- **Sound and Light Settings:** Customize device sounds and indicator lights.

MAINTENANCE

1. Emptying the Waste Bin

The large-capacity waste bin reduces the frequency of emptying. When the waste bin is full, you will receive a notification via the app. Simply pull out the drawer, tie off the waste bag, and replace it with a new one. The sealed waste bin with a silicone gasket effectively locks in odors.

2. Deep Cleaning

The Coziley G1 features a simple and intuitive design for effortless disassembly, making deep cleaning straightforward:

1. Unplug the unit from the power source.
2. Disassemble the main components, including the globe and waste bin.
3. Wash detachable parts with mild soap and water. Ensure all parts are completely dry before reassembly.
4. Periodically clean the rollers to prevent debris buildup and ensure smooth functioning of the cleaning mechanism.
5. Regularly clean the 4 infrared sensors to maintain accurate detection.

TROUBLESHOOTING

If you encounter issues with your Coziley G1, please refer to the following common solutions:

- **Unit Not Operating:** Ensure the power adapter is securely connected and the unit is plugged into a working outlet. Check if the 4 outer latches of the ball compartment are properly secured.
- **Cleaning Cycle Stops Mid-Way:** This can occur if a cat is detected inside the unit. Ensure no cat is present. Also, check if the waste bin is full or if the infrared sensors are obstructed and require cleaning.
- **Inaccurate Sensor Detection:** Regularly clean the 4 infrared sensors to ensure they are free from dust or debris.
- **Odor Issues:** Ensure the waste bin is emptied regularly and the silicone gasket is properly sealed. Consider using high-quality clumping litter.
- **App Connectivity Issues:** Verify your Wi-Fi network is 2.4G and stable. Restart the litter box and your router, then attempt to reconnect via the app.

If problems persist, please contact customer support for assistance.

SPECIFICATIONS

Feature	Specification
Model Number	G1
Dimensions (LxWxH)	21 x 20 x 26 inches
Item Weight	27.6 pounds
Suitable for Cats	2.5 - 18 lbs
Entrance Width	12 inches (30 cm)
