6. MAINTENANCE

To ensure the longevity and optimal performance of your Bluedee SK200Li speaker, follow these maintenance guidelines:

- **Cleaning:** Use a soft, dry cloth to clean the speaker's surface. Avoid abrasive cleaners or solvents.
- **Liquid Exposure:** Do not expose the speaker to water or other liquids, as it is not waterproof.
- **Environment:** Keep the speaker away from extreme temperatures, direct sunlight, and high humidity.
- **Ventilation:** Ensure proper airflow around the speaker to prevent overheating.

7. TROUBLESHOOTING

If you encounter any issues with your Bluedee SK200Li speaker, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
No sound from speaker	- Speaker not powered on. - Incorrect mode selected (wired/Bluetooth). - Volume too low on speaker or connected device. - Loose USB connection.	- Long-press power button to turn on. - Press 'M' button to switch modes. - Increase volume on both speaker and device. - Ensure USB cable is securely connected.
Bluetooth not connecting	- Speaker not in Bluetooth pairing mode. - Bluetooth disabled on device. - Speaker too far from device.	- Press 'M' button to enter Bluetooth mode. - Enable Bluetooth on your device. - Move device closer to the speaker (within 10 meters). - Remove "SK200" from your device's Bluetooth list and re-pair.
RGB lights not working	- Lights are turned off. - Speaker is off.	- Double-click the Power button to turn lights on. - Ensure the speaker is powered on.
