LUTHXAY 40IN

LUTHXAY 40-Inch Freestanding Bath Vanity with Smart LED Defog Mirror - Instruction Manual

INTRODUCTION

This manual provides detailed instructions for the installation, operation, maintenance, and troubleshooting of your LUTHXAY 40-inch freestanding bath vanity. Please read this manual thoroughly before assembly and use to ensure proper function and longevity of your product. Keep this manual for future reference.

SAFETY INFORMATION

- Always ensure the vanity is installed on a level and stable surface.
- Exercise caution when handling glass components, such as the mirror and sink.
- For electrical connections (LED mirror), ensure power is disconnected at the main circuit breaker before installation. Consult a qualified electrician if you are unsure.
- Do not overload drawers or shelves to prevent tipping or damage.
- Keep small parts away from children during assembly.

PACKAGE CONTENTS

Your LUTHXAY 40-inch freestanding bath vanity set includes the following components:

- Freestanding bathroom vanity cabinet
- Integrated sink (slate top)
- Intelligent defogging mirror with LED lighting
- Faucet accessories (faucet not included, but accessories for installation are)
- Assembly hardware and instructions

SETUP & INSTALLATION

1. Unpacking and Inspection

Carefully unpack all components and inspect for any damage. Report any damage to customer service immediately. Ensure all parts listed in the package contents are present.

2. Required Tools (Not Included)

- Phillips head screwdriver
- Adjustable wrench
- Level
- Drill (if wall mounting mirror)
- Sealant/Caulk (for sink installation)

3. Assembly Steps

Follow the detailed assembly instructions provided with your vanity. General steps include:

1. Assemble the vanity cabinet frame.
2. Install drawers and cabinet doors, ensuring soft-closing mechanisms function correctly.
3. Place the integrated sink top onto the vanity cabinet. Secure with appropriate sealant as per sink manufacturer guidelines.
4. Install the faucet and drain assembly (faucet not included).
5. Mount the intelligent defogging mirror to the wall. Ensure it is level and securely fastened.

4. Electrical Wiring for LED Mirror

The LED mirror requires an electrical connection. There are two common wiring methods:

- **Solution A:** Connect the mirror's reserved light cord directly to your bathroom's reserved electrical wiring. This typically requires hardwiring.
- **Solution B:** If no reserved wiring is available, purchase a power cord with a plug. Connect this power cord to the mirror's reserved light cord, then plug it into a nearby electrical socket. Ensure the socket is suitable for bathroom use and protected from moisture.

It is recommended to install power outlets behind mirrors or under bathroom cabinets for a clean setup.

5. Dimensions and Space Planning

Before installation, confirm the dimensions of your vanity and mirror to ensure it fits your bathroom space. The 40-

inch model has specific measurements for depth, width, and height.

Image: Detailed dimensions of the LUTHXAY 40-inch bath vanity and mirror. The vanity measures 40 inches wide, 22 inches deep, and 28 inches high. The mirror is 40 inches wide and 28 inches high.

OPERATING INSTRUCTIONS

1. Smart LED Defog Mirror

The integrated smart mirror features LED lighting, a defogging function, and a time display. These functions are typically controlled via touch sensors on the mirror surface.

- **Power/Light:** Touch the designated sensor to turn the LED lights on or off.
- **Defogging:** Touch the defogging sensor to activate the anti-fog heating element. This will clear condensation from the mirror surface.
- **Time Display:** The mirror includes a digital time display for convenience.

MIRROR ONE-TOUCH DEFOGGING

Say goodbye to foggy troubles

Image: The smart LED mirror demonstrating its one-touch defogging capability. The image shows the mirror with condensation (before defogging) and clear (after defogging), highlighting smart touch controls, defogging, LED lights, and time display.

2. Storage Features

The vanity offers ample storage solutions to keep your bathroom organized.

- **Oversized Mirror Cabinet:** Provides enclosed storage for toiletries, keeping them out of sight and protected.
- **Open Storage Area:** Located beneath the mirror cabinet, ideal for frequently used items or decorative pieces.
- **Storage Drawers:** Multiple drawers offer organized storage for smaller items. These drawers are equipped with cushioned damping slides for smooth and quiet operation.
- **Oversized Storage Cabinets:** Located beneath the sink, these cabinets provide larger storage space for bulkier items. The doors feature soft-closing hinges.

POWERFUL STORAGE AND ORGANIZATION

Closed and open storage design with scientific division of access and storage to keep life organized.

MAINTENANCE & CARE

Proper care will ensure the longevity and appearance of your LUTHXAY bath vanity.

1. Cleaning the Vanity Cabinet

The vanity cabinet is constructed from high-quality oak wood panels, treated to be waterproof and moisture-proof. For daily cleaning, wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the finish. Promptly wipe up any spills to prevent water damage.

WATERPROOF AND MOISTURE-PROOF

The main board is made of oak wood, which is not easy to deform, sturdy, thick and durable.

Image: The vanity cabinet demonstrating its waterproof and moisture-proof properties, highlighting the durable oak wood construction.

2. Cleaning the Sink

The integrated sink is made of slate. Clean with mild soap and water. Avoid using acidic or abrasive cleaners that can etch or scratch the surface. Rinse thoroughly after cleaning.

3. Cleaning the LED Mirror

Use a soft, lint-free cloth and a non-ammonia glass cleaner to clean the mirror surface. Do not spray cleaner directly onto the mirror; instead, apply it to the cloth. Avoid getting moisture into the electrical components around the edges of the mirror.

TROUBLESHOOTING

Refer to the following common issues and solutions before contacting customer service.

Problem	Possible Cause	Solution
LED mirror lights not working	No power connection; loose wiring; faulty LED driver.	Check power supply and connections. Ensure the circuit breaker is on. If issues persist, contact customer service.
Mirror defogging not working	Defogger not activated; electrical issue.	Ensure the defogging touch sensor is pressed. Verify power connection.
Drawers or doors do not close smoothly	Obstruction in slides/hinges; misaligned installation.	Check for obstructions. Adjust drawer slides or door hinges as per assembly instructions.
Water leakage from sink/faucet	Loose connections; improper sealant application.	Tighten all plumbing connections. Reapply sealant around the sink if necessary. Consult a plumber if unsure.

SPECIFICATIONS
