## Meenova Right 3047/A3048/A3049

# Meenova Right Earbud Replacement User Manual

For AirPods Pro (2nd Generation) Models A3047, A3048, A3049

## 1. PRODUCT OVERVIEW

---

This manual provides essential information for the Meenova OEM Right Earbud Replacement, designed for AirPods Pro (2nd Generation) models A3047, A3048, and A3049. It covers compatibility, pairing instructions, and general usage guidelines to ensure optimal performance.

Image: The Meenova OEM Right Earbud Replacement for AirPods Pro (2nd Generation).

## 2. COMPATIBILITY

---

It is crucial to verify the compatibility of your existing earbuds and charging case before using this replacement earbud. This replacement is specifically designed for AirPods Pro (2nd Generation) models A3047, A3048, A3049, and is compatible with the A2968 USB-C charging case.

### 2.1 Identifying Your Earbud Model

## Match your earbuds

For Air Pods Pro 2  
(USB-C)

Model: A3047, A3048, A3049

NOT for Air Pod Pro 2  
(Lightning)

Model: A2931, A2968, A2969

NOT for Air Pod Pro 1

Model: A2084

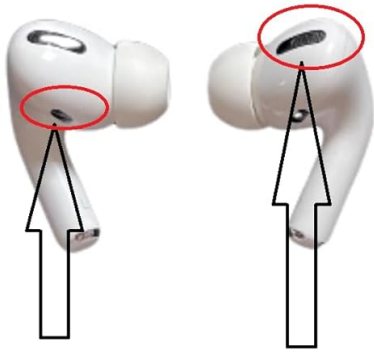

Model: A2083

Image: Visual guide on how to locate and verify your AirPods Pro model number in settings.

To ensure proper function, confirm your existing earbud model. You can typically find this information in your device's Bluetooth settings or printed on the earbud itself.

## 2.2 Earbud Model Compatibility Chart

## Air Pod Pro

**two holes**

## Air Pod Pro 2

**one hole**

**Model number:  
A2084, A2083 (L, R)**

**(USB-C) Case  
Model number: A3047,  
A3048, A3049  
(Lightning) Case  
Model number: A2931,  
A2699, A2698**

Image: A chart illustrating compatible (A3047, A3048, A3049) and incompatible (A2931, A2968, A2969, A2084, A2083) earbud models.

This replacement earbud is compatible with AirPod Pro 2 (USB-C) models A3047, A3048, A3049. It is NOT compatible with AirPod Pro 2 (Lightning) models A2931, A2968, A2969, nor with AirPod Pro 1 models A2084, A2083.

### **2.3 Physical Differences: AirPod Pro vs. AirPod Pro 2**

## Charging Case Models

**AirPod Pro 2nd Gen (A2700) with  
Lightning port**

**AirPod Pro 2nd Gen (A2968)  
with USB-C port**

**AirPod Pro 1st Gen (A2190)**

Image: A visual comparison highlighting the physical differences, such as the number of holes, between AirPod Pro and AirPod Pro 2 earbuds.

AirPod Pro (1st Gen) earbuds typically have two holes, while AirPod Pro (2nd Gen) earbuds have one hole. This replacement is for the 2nd Gen with one hole.

### 2.4 Charging Case Compatibility

# Model: A3047/ A3048/A3049

## **Right** earbuds for AirPods Pro 2 with the USB-C port, A2968

Image: A chart showing compatible and incompatible charging case models for the replacement earbud.

This earbud is compatible only with the AirPods Pro 2nd Gen (A2968) charging case with a USB-C port. It is NOT compatible with the AirPods Pro 2nd Gen (A2700) with a Lightning port, nor the AirPods Pro 1st Gen (A2190) charging case.

### **3. SETUP AND PAIRING INSTRUCTIONS**

---

Follow these steps carefully to pair your new replacement earbud with your existing AirPods Pro (2nd Generation) setup.

## Guideline for AirPods Pairing

**\*\*Please follow this guideline to pair your earbud with the replacement!!**

### ● Step 1# Forget your AirPods from the Bluetooth list

- Open setting.
- Forget your AirPods from the Bluetooth list.
- Click “Forget This Device” to delete your AirPods from your iOS device.

### ● Step 2# Charge your AirPods

- Put both your earbuds into the charging case.
- Plug the cable into your AirPods for charging.
- Make sure your AirPods is close (side by side) to your iPhone/iPad when charging. (This is an important step!!)
- Wait for more than 30 minutes or more. It depends on what firmware version number your AirPods is. If the firmware version of your AirPods is old, it might take 2 ~ 3 hours or more for charging to sync the firmware version for the left and right sides.

### ● Step 3# Reset your AirPods

- Unplug the cable.
- Open the lid of the charging case.
- Press and hold the setup button on the back of the case for about 15 seconds, until the status light on the front of the case flashes amber, then white.
- Connect AirPods to your iPhone/iPad.

**\*\*Please repeat Step 2# and wait for more times in case you can't reset it in Step 3#.**

### ● Step 4# Connect your AirPods

- Connect your AirPods: With your AirPods in their charging case and the lid open, place your AirPods close to your iPhone or iPad. Follow the steps on your device's screen.

**\*\*Please contact us if you have any other issues via Amazon or email to: [support@audiospare.com](mailto:support@audiospare.com).**

**Note: Please follow the manual above to pair both earbuds. Then the error message “Mismatched AirPods Pro” below will be fixed. The error message is a bug in AirPods.**

Image: A comprehensive guide detailing the steps for pairing the replacement earbud, including forgetting the device, charging, resetting, and connecting.

#### 1. Forget Your Earbuds from the Bluetooth List:

- Open your device's Bluetooth settings.
- Locate your AirPod Pro in the list.
- Select "Forget This Device" to remove your AirPods from your iOS device.

## 2. Charge Your Earbuds:

- Plug the charging case into a power source.
- Place the new earbud into the charging case.
- Close the lid of the charging case.
- Allow the earbud to charge for **30-60 minutes**. For older firmware versions, it might take 2-3 hours or more for charging to sync the firmware.

## 3. Reset Your AirPods:

- Unplug the charging cable from the case.
- Open the lid of the charging case.
- Press and hold the setup button on the back of the case for about 15 seconds, until the status light on the front of the case flashes amber, then white.

## 4. Connect Your AirPods:

- With your AirPods in their charging case and the lid open, place your AirPods close to your iPhone or iPad.
- Follow the on-screen prompts on your device to connect.

**Important Note:** *If pairing does not work immediately, please try charging the earbud for a longer period, even overnight. Ensure that the models of both the left and right earbuds match for proper pairing. Patience is key, as the pairing process can sometimes take longer than expected.*

## 4. OPERATION

---

Once successfully paired, your replacement earbud will function identically to an original AirPods Pro (2nd Generation) earbud. Simply place it in your ear to begin audio playback. Controls for volume, track skipping, and call management are typically handled through your connected device or by tapping/squeezing the stem of the earbud, depending on your device's settings.

## 5. MAINTENANCE

---

To ensure the longevity and optimal performance of your earbud, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the earbud with a soft, dry, lint-free cloth. Do not use abrasive materials or harsh chemicals.
- **Storage:** Always store the earbud in its charging case when not in use to protect it from dust and damage.
- **Avoid Moisture:** Keep the earbud away from water and excessive moisture. While AirPods Pro (2nd Gen) has some water resistance, it is not waterproof.
- **Charging:** Charge the earbud regularly to maintain battery health.

## 6. TROUBLESHOOTING

---

If you encounter issues with your replacement earbud, consider the following troubleshooting steps:

- **Earbud Not Pairing:**
  - Re-attempt the pairing instructions (Section 3) carefully.
  - Ensure both the replacement earbud and your existing earbud (if applicable) are the correct

compatible models (A3047/A3048/A3049).

- Confirm your charging case is model A2968 (USB-C).
- Charge the earbud for an extended period (e.g., overnight) as firmware syncing can take time.

- **Sound Issues (No Sound/Low Volume):**

- Check your device's volume settings.
- Ensure the earbud is clean and free of debris.
- Reconnect the earbud by placing it in the case, closing the lid, and then reopening it.

- **Intermittent Connection:**

- Ensure your device is within Bluetooth range.
- Minimize interference from other wireless devices.
- Try resetting your device's network settings.

If problems persist after following these steps, please contact customer support.

## 7. SPECIFICATIONS

---
