Meenova Left A2931/A2968/A2699

Meenova OEM Left Earbud Replacement User Manual

Model: A2931, A2698, A2699 (for AirPods Pro 2nd Generation with Lighting Port)

Product Overview

This manual provides instructions for the Meenova OEM Left Earbud Replacement, designed for AirPods Pro (2nd Generation) with a Lighting charging case (Model A2700). This package includes **one left earbud only**. The right earbud and charging case are not included.

Image: The Meenova OEM Left Earbud Replacement for AirPods Pro 2nd Generation.

Image: Visual confirmation that only the left earbud is included. The image explicitly states "Only include the left earbud for Air Pod Pro 2nd Gen (A2700) with the Lighting port. Exclude right earbud and charging case."

Compatibility Check

Before proceeding with pairing, it is crucial to verify the compatibility of your existing AirPods Pro and charging case with this replacement earbud. This earbud is compatible with AirPods Pro (2nd Generation) models A2931, A2698, A2699, and the A2700 Lighting charging case.

Important: This earbud is **not compatible** with USB-C charging cases (A2968) or AirPods Pro (2nd Generation) earbuds models A3047, A3048, A3049, nor with AirPods Pro 1st Generation (A2084, A2083) or their charging case (A2190).

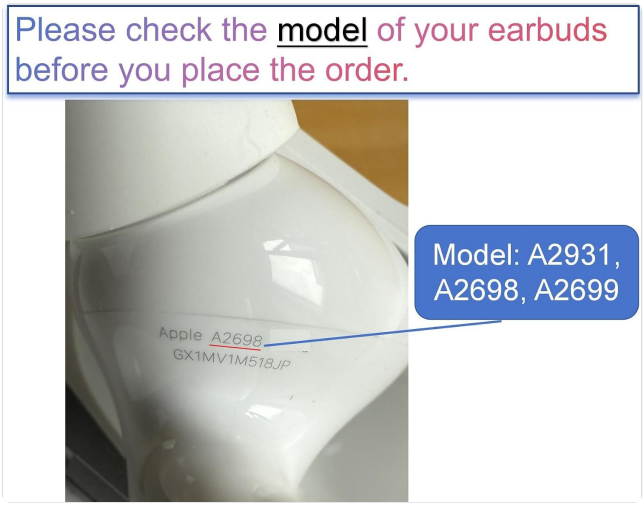

Image: A close-up showing where to find the model number on your earbud, indicating models A2931, A2698, A2699.

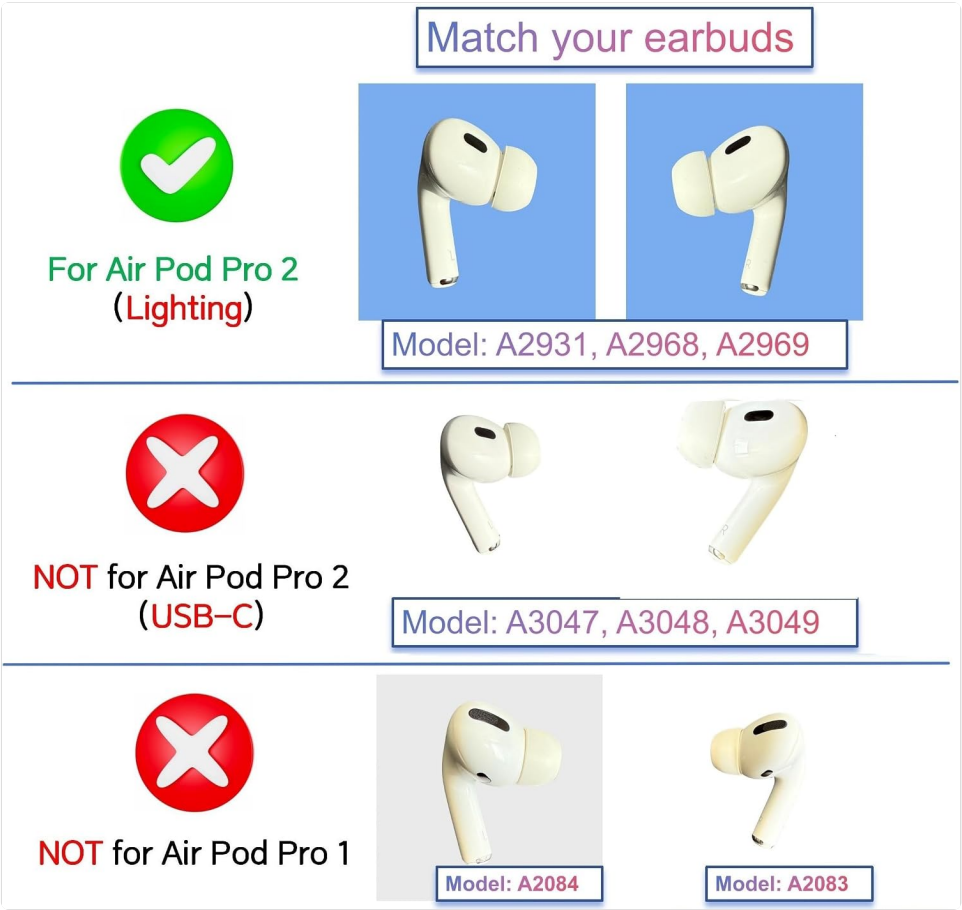

Image: A visual chart illustrating compatibility. It shows that models A2931, A2698, A2699 are compatible with AirPod Pro 2 (Lighting), while A3047, A3048, A3049 (USB-C) and A2084 (AirPod Pro 1) are not compatible.

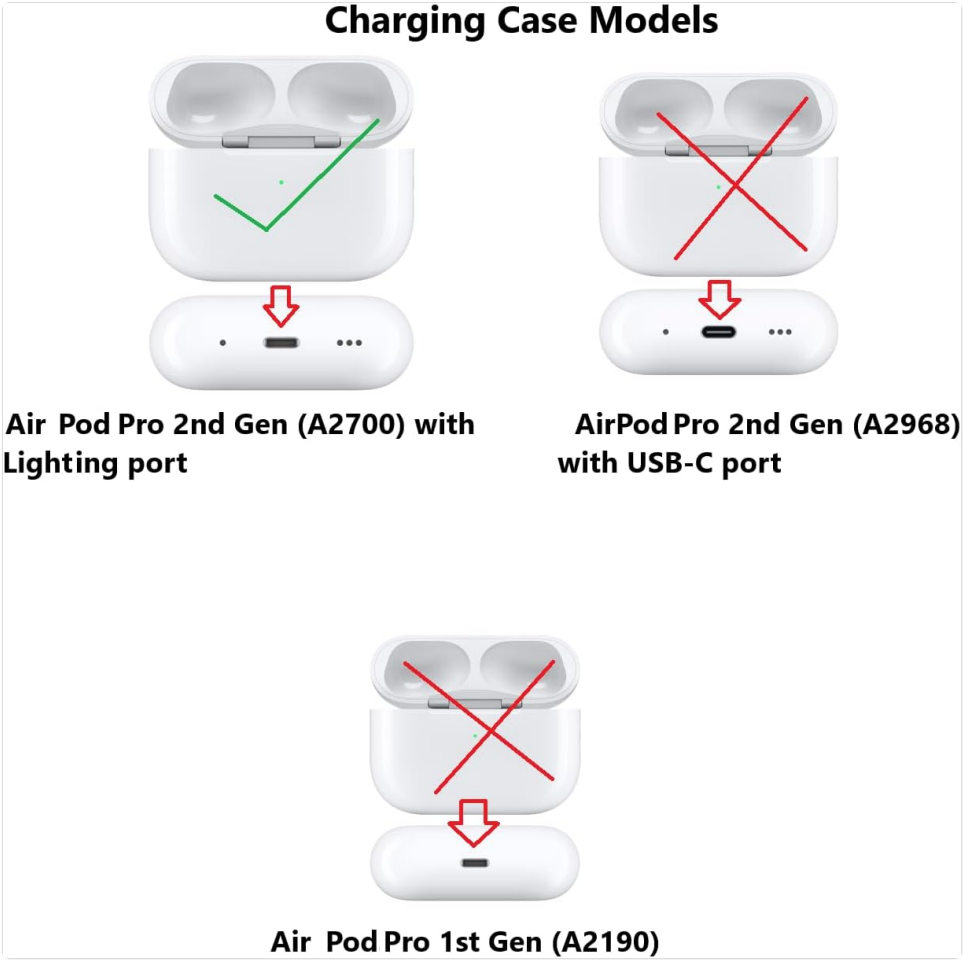

Image: A visual chart for charging case compatibility. It indicates compatibility with AirPod Pro 2nd Gen (A2700) with Lighting port, and incompatibility with AirPod Pro 2nd Gen (A2968) with USB-C port and AirPod Pro 1st Gen (A2190).

Setup and Pairing

Follow these steps carefully to pair your new left earbud with your existing AirPods Pro (2nd Generation) and charging case.

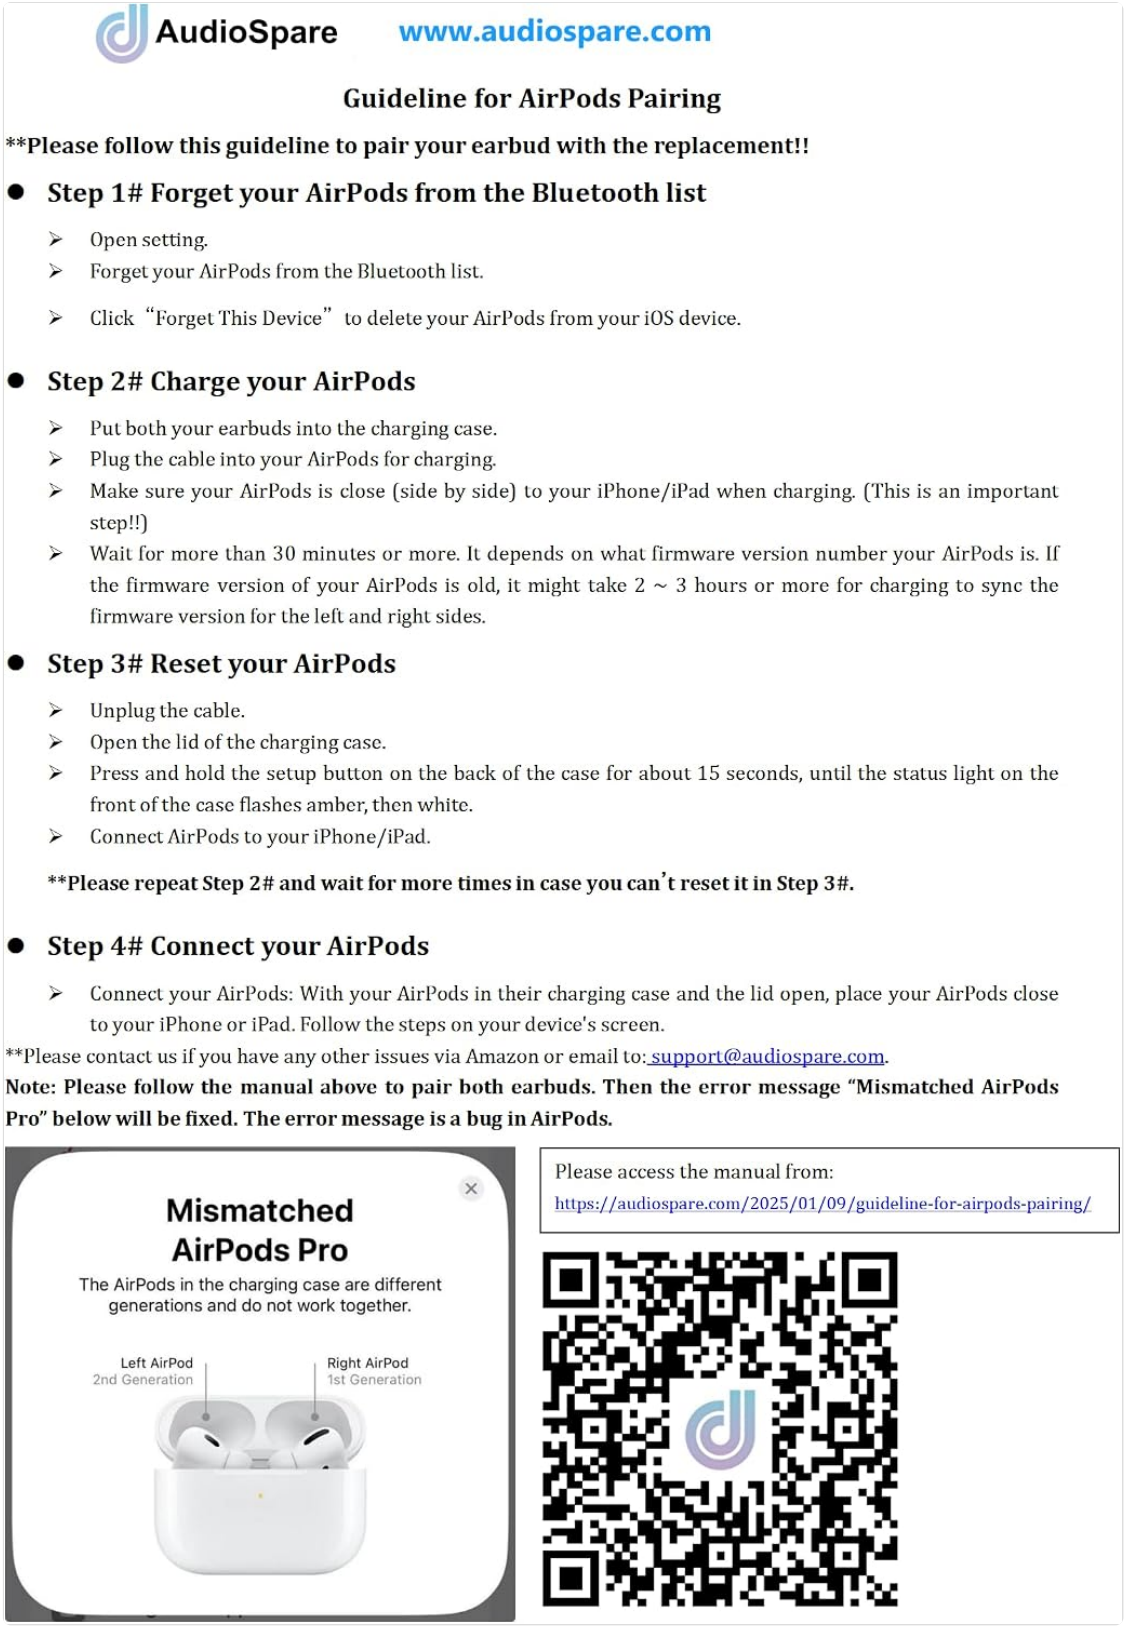

Image: A detailed guideline for pairing AirPods, provided by AudioSpare. It outlines four steps: Forget AirPods from Bluetooth, Charge AirPods, Reset AirPods, and Connect AirPods.

Detailed Pairing Instructions:

1. **Step 1: Forget your Earbuds from the Bluetooth list**
   - Open settings on your device.
   - Navigate to the Bluetooth list.
   - Find your AirPods and select "Forget This Device" to remove them from your iOS device.
2. **Step 2: Charge your Earbuds**

- Plug the charging case into a power source.
- Place the new earbud into the charging case.
- Ensure your iPhone/iPad is close to your earbuds (side by side) when charging.
- Allow the earbuds to charge for at least 30 minutes. For older AirPods or if firmware versions differ, it may take 2-3 hours or more for proper synchronization.

3. **Step 3: Reset your Earbuds**

   - Unplug the charging cable from the case.
   - Open the lid of the charging case.
   - Press and hold the setup button on the back of the case for approximately 15 seconds, until the status light on the front of the case flashes amber, then white.
   - Close the lid of the charging case.
   - **Note:** If the reset does not work, repeat Step 2 and wait for more time before attempting Step 3 again.

4. **Step 4: Connect your Earbuds**

   - With your AirPods in their charging case and the lid open, place your AirPods close to your iPhone or iPad.
   - Follow the on-screen prompts on your device to connect.

Important Note: If you encounter a "Mismatched AirPods Pro" error, this is a known bug. Ensure both the left and right earbuds are compatible models. If the issue persists, please refer to the troubleshooting section or contact support.

Operating the Earbud

Once successfully paired, your Meenova left earbud will function identically to an original AirPod Pro (2nd Generation) earbud. Place it in your ear for audio playback and calls. The earbud will automatically connect to your paired device when removed from the charging case and within range.

Charging:

To charge the earbud, place it inside your compatible AirPods Pro (2nd Generation) Lighting charging case. Ensure the charging case itself is charged. If you charge the charging case in advance, you can use it to charge the earbud when you are away from a power supply.

Maintenance

To ensure the longevity and optimal performance of your earbud, follow these maintenance guidelines:

- **Cleaning:** Gently wipe the earbud with a soft, dry, lint-free cloth. Do not use abrasive materials, alcohol, or other harsh chemicals.
- **Storage:** When not in use, store the earbud in its charging case to protect it from dust and damage.
- **Avoid Moisture:** Keep the earbud dry. Avoid exposure to water, sweat, or excessive humidity.
- **Handle with Care:** Avoid dropping the earbud or subjecting it to strong impacts.

Troubleshooting

If you experience issues with your Meenova left earbud, try the following troubleshooting steps:

- **Earbud Not Pairing/Connecting:**
  - Ensure you have followed all steps in the Setup and Pairing section, especially forgetting the device from Bluetooth and performing a full reset.
  - Charge the earbud and case for an extended period (e.g., overnight) to ensure sufficient power and firmware

synchronization.

- Verify that the model numbers of your existing earbud (if any) and charging case are compatible with the replacement earbud (A2931, A2698, A2699 earbud; A2700 Lighting case).
- Ensure your iPhone/iPad is physically close to the charging case during the pairing process.

- **"Mismatched AirPods Pro" Error:**
  - This error can occur if the firmware versions of the left and right earbuds are not synchronized or if there's a compatibility issue. Re-attempt the full pairing process, including extended charging.
  - Double-check that both your original earbud (if applicable) and the replacement earbud are indeed AirPods Pro 2nd Generation (Lighting port compatible models).
- **Earbud Not Charging:**
  - Ensure the charging case has sufficient power.
  - Check that the earbud is properly seated in the charging case.
  - Clean the charging contacts on both the earbud and inside the case with a dry cotton swab.

Specifications

Brand	Meenova
Model Number	Left A2931/A2968/A2699
Compatible Devices	AirPods Pro (2nd Generation) with Lighting Charging Case (Model A2700)
Material	Silicone (for eartips, earbud body is plastic/metal)
Manufacturer	Meenova
