## Maintenance

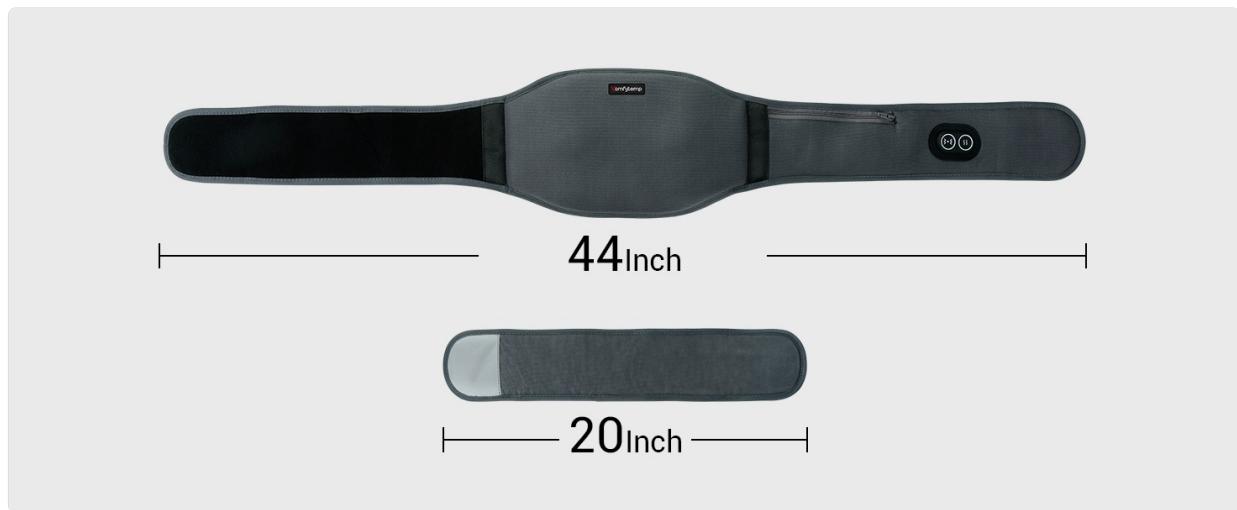

- Cleaning:** Disconnect the power bank before cleaning. Wipe the surface of the heating belt with a damp cloth. Do not machine wash or submerge in water.
- Storage:** Store the device in a cool, dry place away from direct sunlight when not in use. Ensure the power bank is disconnected.
- Battery Care:** To prolong battery life, charge the power bank regularly, even if not in frequent use.

## Troubleshooting

Problem	Possible Cause	Solution
Device does not turn on.	Power bank is not charged or not connected properly.	Ensure the power bank is fully charged and securely connected to the belt's internal cable.
Heat is not felt or is too low.	Incorrect heat setting selected; device recently auto-shut off.	Cycle through heat settings to a higher level. If auto-shut off occurred, allow the device to cool before restarting.
Massage function is not working.	Incorrect massage mode selected or power issue.	Cycle through massage modes. Check power bank connection and charge level.
Belt feels too loose or too tight.	Improper adjustment.	Adjust the Velcro straps. Use or remove the extension strap as needed for a comfortable fit.
