

BYBARENOVA BBR-01PRO

BYBARENOVA Smart Toilet BBR-01PRO User Manual

Model: BBR-01PRO

1. INTRODUCTION

This manual provides detailed instructions for the installation, operation, and maintenance of your BYBARENOVA Smart Toilet, Model BBR-01PRO. Please read this manual thoroughly before installation and use to ensure proper function and safety.

The BYBARENOVA Smart Toilet BBR-01PRO is a one-piece, elongated smart toilet designed for modern bathrooms. It features an integrated bidet system, heated seat, warm air dryer, automatic flushing, and an LED display for enhanced comfort and hygiene.

2. SAFETY INFORMATION

Always follow basic safety precautions when using electrical appliances to reduce the risk of fire, electric shock, and injury.

- Ensure proper grounding.
- Do not immerse the product in water.
- Unplug before cleaning or servicing.
- Keep out of reach of children.
- Do not operate with a damaged cord or plug.

The BBR-01PRO incorporates several protection features:

8 Types of Protection

These features ensure safety, enhance durability, and provide reliable performance.

Figure 2.1: Overview of the 8 types of protection features integrated into the BYBARENOVA Smart Toilet BBR-01PRO, ensuring safety and durability.

- Prevent low temperature scald
- Overheating prevention
- Flame retardant protection
- Short-circuit protection
- Leakage protection
- Water pressure protection
- IPX4 waterproof
- Over-voltage Protection

3. PACKAGE CONTENTS

Verify that all components are present in the package before beginning installation.

Product Size and List

Installation Type	Floor Mounted
Shape	Oval
Flushing Volume	1.28 GPF (Gallons Per Flush)
Features	Heated Seat, Warm Air Dryer, Bidet (Front/Rear Cleansing), Auto Flush, LED Display, Remote Control

5. INSTALLATION (SETUP)

Professional installation is recommended. Ensure all local plumbing and electrical codes are followed. Before starting, turn off the main water supply to your bathroom.

5.1 Pre-Installation Checks

- Confirm rough-in measurement is 12 inches.
- Ensure adequate space for the toilet dimensions (26.77"D x 16.53"W x 19.29"H).
- Verify availability of a grounded electrical outlet near the installation area.

5.2 Installation Steps (General Overview)

1. **Prepare the Area:** Remove the old toilet if applicable. Clean the flange area thoroughly.
2. **Install Wax Ring:** Place the wax ring onto the flange, ensuring a proper seal.
3. **Position the Toilet:** Carefully lower the BYBARENOVA Smart Toilet onto the flange, aligning the bolts.
4. **Secure the Toilet:** Hand-tighten the bolts, then use a wrench to secure, being careful not to overtighten and crack the ceramic.
5. **Connect Water Supply:** Connect the angle valve and water supply line to the toilet. Ensure all connections are tight to prevent leaks.
6. **Connect Power:** Plug the toilet into a grounded electrical outlet.
7. **Test Functionality:** Turn on the water supply and check for leaks. Test all toilet functions as described in the Operating section.

For detailed, step-by-step instructions, refer to the included User Manual (physical copy) and consult a qualified plumber or electrician if unsure.

6. OPERATION

The BYBARENOVA Smart Toilet offers a range of intelligent features for a comfortable and hygienic experience. All functions can be controlled via the included remote control or integrated side buttons.

6.1 Heated Seat and Warm Air Dryer

The toilet features a heated seat with 4 adjustable temperature levels and a warm air dryer. These functions provide comfort and reduce the need for toilet paper.

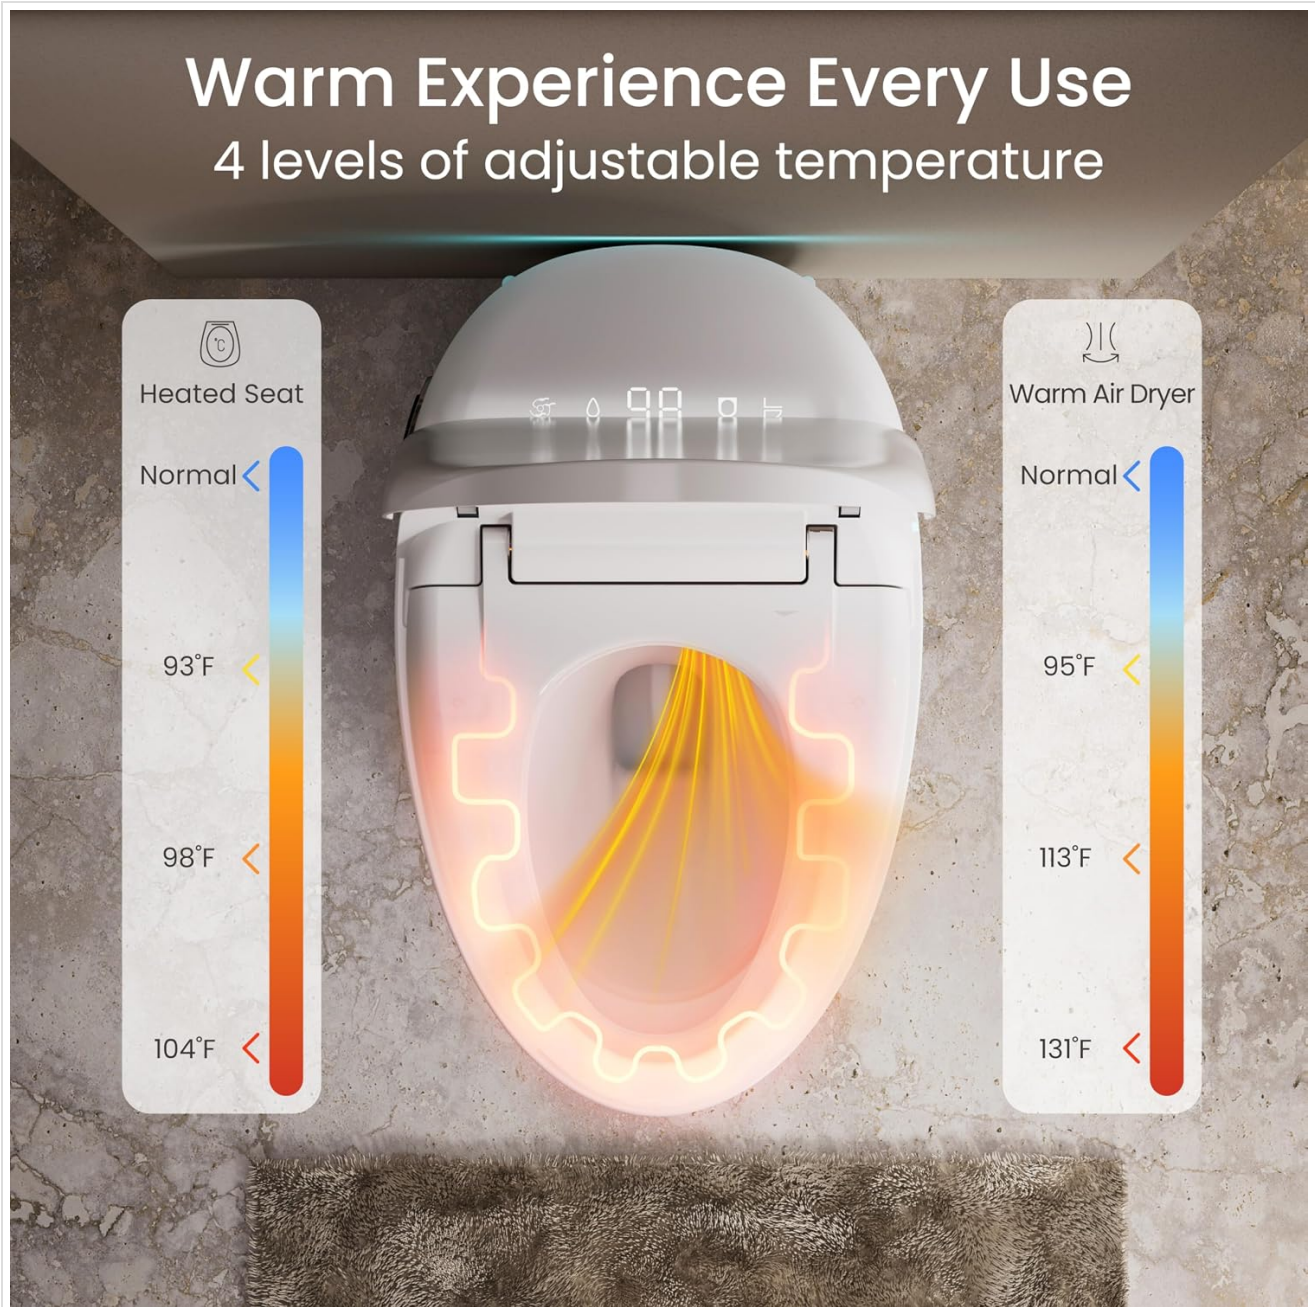

Figure 6.1: Heated seat and warm air dryer temperature settings.

- **Heated Seat:** Adjustable to 93°F, 98°F, or 104°F.
- **Warm Air Dryer:** Adjustable to 95°F, 113°F, or 131°F.

6.2 Bidet Cleaning Modes

The integrated bidet offers multiple cleaning modes with adjustable water temperature and pressure.

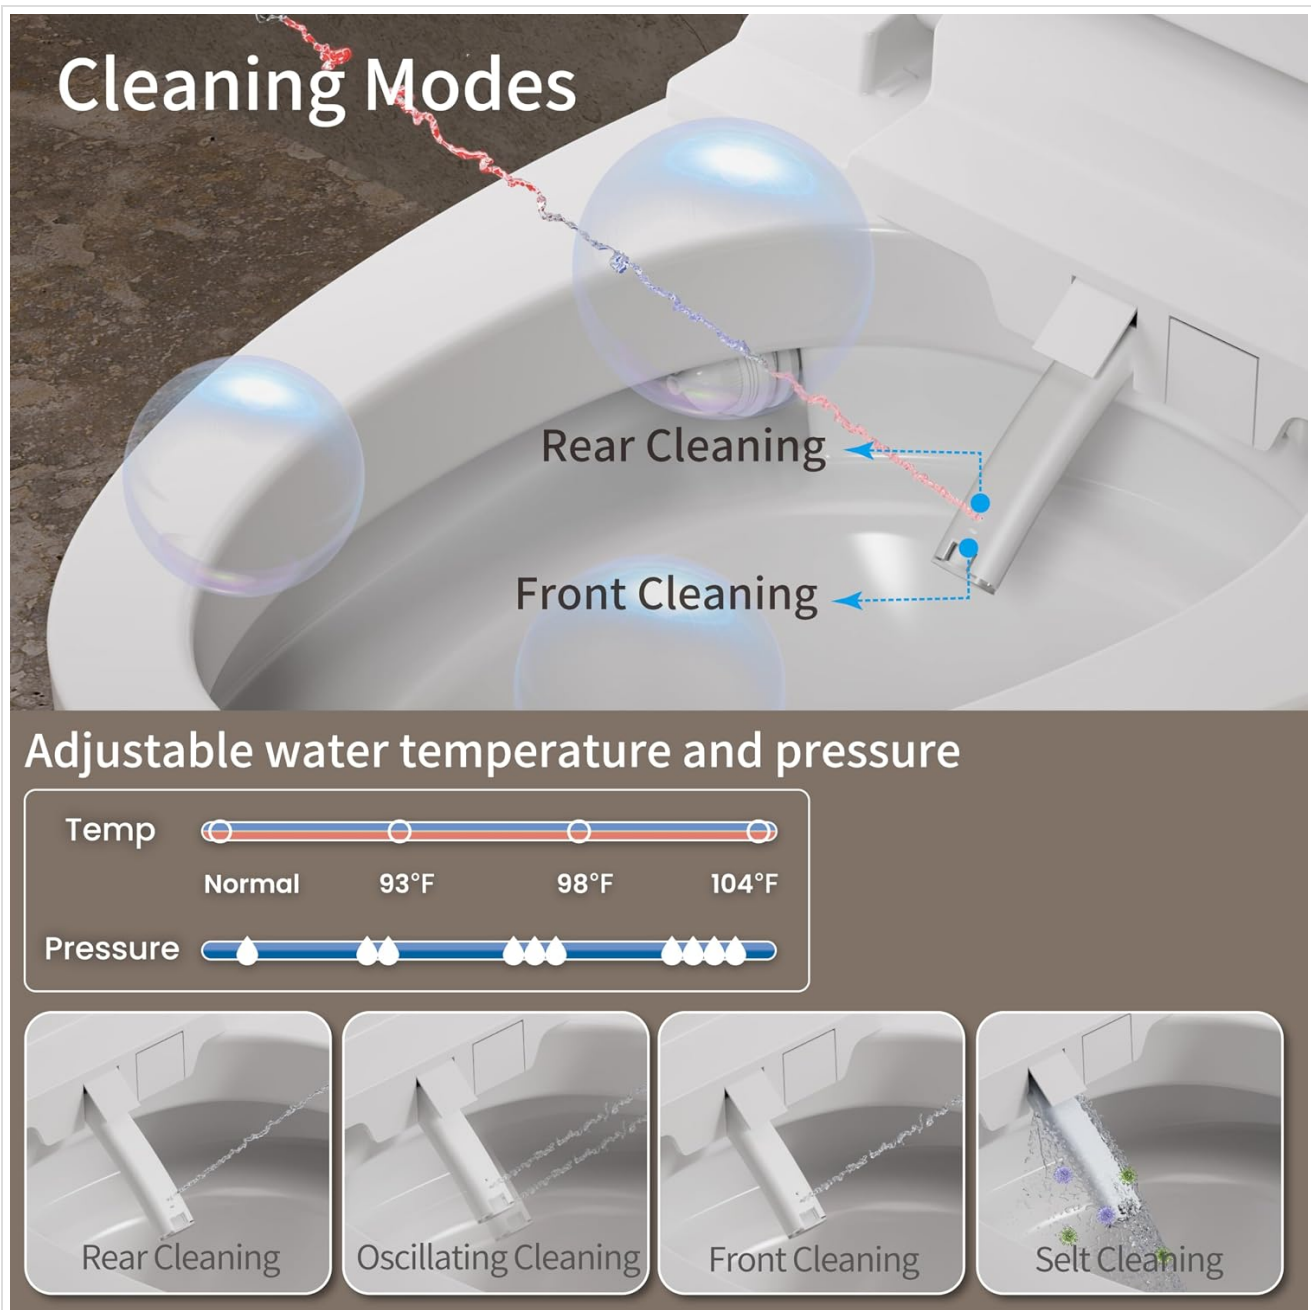

Figure 6.2: Bidet cleaning modes and water adjustment options.

- **Rear Cleaning:** For posterior cleansing.
- **Front Cleaning:** For feminine cleansing.
- **Oscillating Cleaning:** Nozzle moves back and forth for wider cleaning.
- **Self Cleaning:** The nozzle automatically cleans itself before and after use.
- **Adjustable Water Temperature:** Normal, 93°F, 98°F, 104°F.
- **Adjustable Water Pressure:** Multiple levels available.

6.3 Flushing Operations

The BBR-01PRO offers multiple convenient flushing methods, including a powerful double pump assisted flushing system (1.28 GPF).

4 Flushing Operations

Suitable for home use

Figure 6.3: Various methods for activating the flushing mechanism.

- **Off-seat Flushing:** Automatically flushes when the user stands up.
- **Foot-sensor Activation:** A sensor at the base allows for touchless flushing by a foot gesture.
- **Remote-controlled Operation:** Use the remote control to activate flushing.
- **Side Button Flush:** Manual flush button located on the side of the toilet.

Double Pump Assisted Flushing System

Powerful flush in 1.28GPF

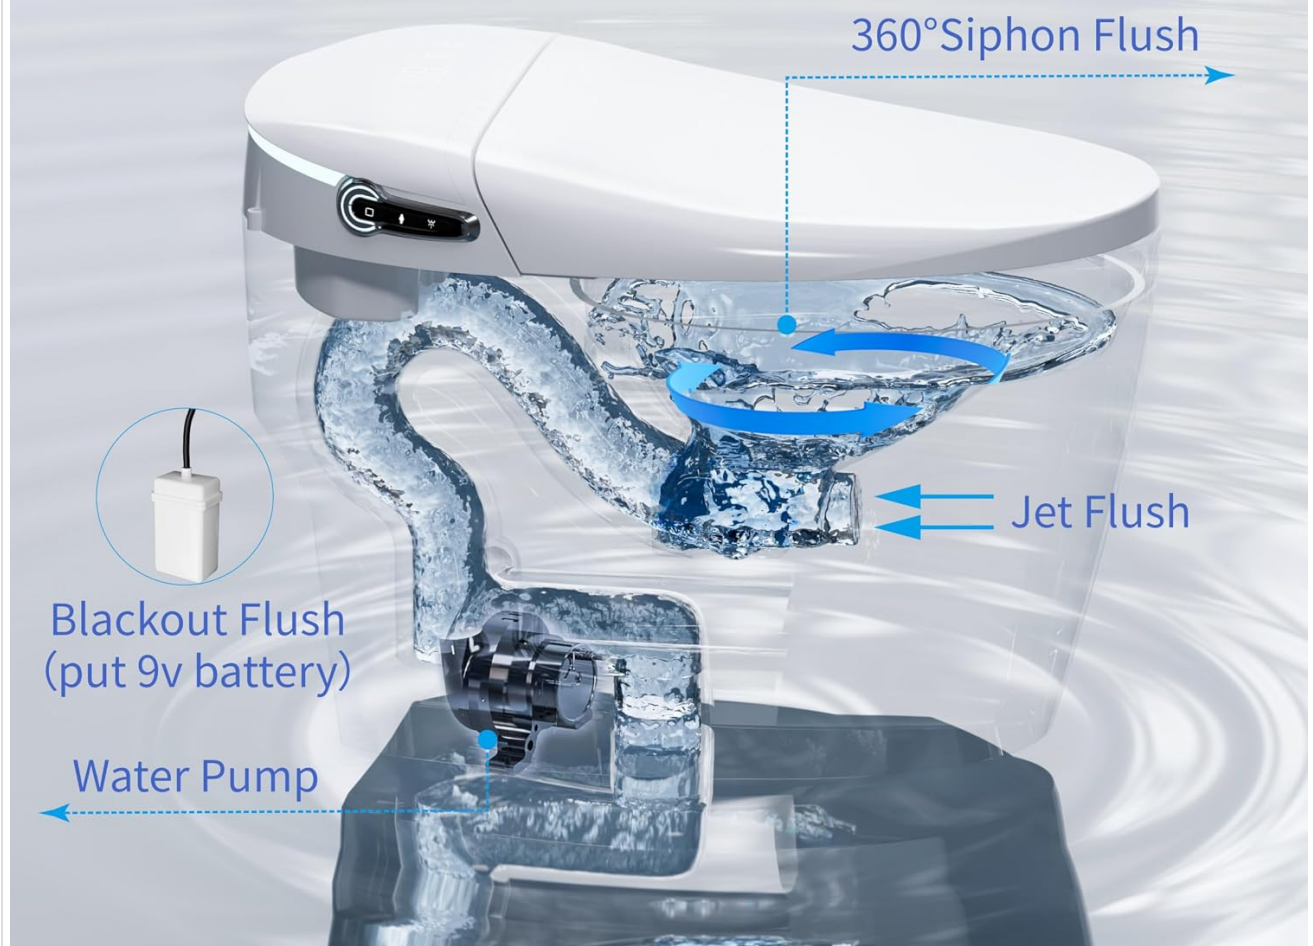

Figure 6.4: Internal view of the double pump assisted flushing system.

The flushing system includes a 360° Siphon Flush and Jet Flush for efficient waste removal. A 9V battery can be installed for a "Blackout Flush" function, allowing flushing during power outages.

6.4 LED Display and Night Light

The toilet features a minimalist LED display that shows current settings such as seat temperature, water temperature, and dryer temperature. A soothing LED night light is also integrated.

Intelligence makes life more convenient

7. MAINTENANCE

Regular cleaning and maintenance will ensure the longevity and optimal performance of your BYBARENOVA Smart Toilet.

7.1 General Cleaning

- Always unplug the toilet from the power outlet before cleaning.
- Use a soft cloth and mild, non-abrasive cleaners. Avoid harsh chemicals, abrasive pads, or strong detergents, as these can damage the surface.
- Wipe down the exterior surfaces, seat, and lid regularly.

7.2 Nozzle Cleaning

The bidet nozzle has a self-cleaning function. For additional cleaning:

- Activate the self-cleaning mode via the remote control.

- If manual cleaning is required, gently pull out the nozzle and wipe it with a soft cloth and mild cleaner. Do not use excessive force.

7.3 Water Filter Maintenance

Periodically check and clean or replace the water filter (if applicable) to ensure optimal bidet performance and water quality. Refer to the detailed manual for specific instructions on filter access and replacement.

8. TROUBLESHOOTING

If you encounter any issues with your BYBARENOVA Smart Toilet, refer to the following common troubleshooting steps. If the problem persists, contact customer support.

Problem	Possible Cause	Solution
Toilet does not flush.	No power; water supply off; remote control battery low; sensor obstruction.	Check power connection; ensure water supply is on; replace remote batteries; clear sensor area.
Bidet spray is weak or inconsistent.	Water pressure low; nozzle clogged; water filter dirty.	Check household water pressure; clean bidet nozzle; clean or replace water filter.
Heated seat or dryer not working.	Power issue; settings incorrect.	Verify power connection; check temperature settings on remote/display.
Leakage detected.	Loose connections; damaged wax ring.	Tighten water supply connections; inspect wax ring and re-install if necessary (professional assistance recommended).

9. WARRANTY AND CUSTOMER SUPPORT

BYBARENOVA provides a one-year assurance for smart toilets from the date of purchase. Our professional after-sales team is available to assist you with product installation solutions and provide the best service. For any questions, concerns, or warranty claims, please contact us through Amazon message.

Contact Information:

- Via Amazon message (recommended for prompt assistance).
- Refer to your purchase documentation for additional contact methods.

Please have your model number (BBR-01PRO) and purchase date ready when contacting support.
