## 5. MAINTENANCE

To ensure the longevity and appearance of your AKORD S100 Corner Wardrobe, follow these maintenance tips:

- **Cleaning:** Wipe surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the laminated finish. Dry immediately with a clean cloth.
- **Hardware Check:** Periodically check all screws, bolts, and fittings to ensure they remain tight. Re-tighten if necessary to maintain structural integrity.

- **Avoid Overloading:** Do not exceed the weight capacity of the shelves or hanging rail. Distribute weight evenly to prevent warping or damage.
- **Sunlight Exposure:** Avoid prolonged direct exposure to sunlight, which can cause fading or discoloration of the finish over time.

## 6. TROUBLESHOOTING

If you encounter any issues with your wardrobe, consider the following common solutions:

- **Wobbly Structure:** This often indicates loose connections. Re-check all assembly points and tighten screws. Ensure the wardrobe is placed on a level surface. If applicable, verify wall anchoring.
- **Doors Not Closing Properly:** Check the hinges. They may need adjustment. Most hinges allow for minor adjustments to align the doors. Ensure no items inside the wardrobe are obstructing the doors.
- **Missing or Unmarked Parts:** If you find parts are missing or difficult to identify during assembly, refer to the assembly manual's parts list and diagrams. If issues persist, contact customer support for replacement parts or clarification.
- **Surface Damage:** For minor scratches or chips, touch-up pens or furniture repair kits matching the Craft Oak finish may be used.
