Mega Construx FPM00-963L

Mega Construx Pokemon Series 20 Pokeball Collection Set Instruction Manual

Model: FPM00-963L

Introduction

Welcome to the exciting world of Mega Construx Pokemon! This instruction manual provides guidance for assembling and enjoying your Mega Construx Pokemon Series 20 Pokeball Collection Set. This set includes 6 different eye-catching Pokeball designs, each featuring a beloved Pokemon character such as Marill, Froakie, Teddiursa, Fennekin, Chespin, and Snubbull. Designed for trainers aged 6 and up, these buildable Pokeballs combine the thrill of Pokemon collecting with hands-on construction fun. The detailed building sets allow young builders to create their own Pokemon world while developing fine motor skills and creative thinking.

Setup and Assembly

Each Pokeball in this collection contains approximately 20 to 37 pieces of building blocks designed to create a specific Pokemon character and its unique Pokeball display case. Follow the steps below for assembly:

1. **Unboxing:** Carefully open the packaging for each individual Pokeball set. Ensure all pieces are present before beginning assembly.
2. **Identify Components:** Each set includes building blocks for one Pokemon character and parts for its corresponding Pokeball. Refer to the included visual instructions for piece identification.

3. **Assemble Pokemon Character:** Begin by assembling the Pokemon character according to the step-by-step diagrams provided in the individual instruction sheet. Pay close attention to the orientation and connection points of each block.
4. **Assemble Pokeball:** Once the character is complete, assemble the Pokeball. The Pokeball often serves as a base or display stand for the character.
5. **Display:** Place the assembled Pokemon character onto its completed Pokeball. The Pokeball is designed to hold and display the character securely.

Individual Set Examples:

Image: Chespin Pokeball set, consisting of 23 pieces, ready for assembly.

Image: Fennekin Pokeball set, containing 32 pieces, shown with its packaging.

Image: Froakie Pokeball set, featuring 29 pieces, displayed with its packaging.

Image: Igglybuff Pokeball set, comprising 18 pieces, presented with its packaging.

Image: Marill Pokeball set, including 37 pieces, shown alongside its packaging.

Image: Teddiursa Pokeball set, containing 24 pieces, displayed with its packaging.

Operating and Play

Once assembled, your Mega Construx Pokemon figures and Pokeballs are ready for display and imaginative play.

- **Display:** The completed builds can be showcased in their corresponding Pokeball cases. These cases are designed to hold the figures securely and make for an excellent collection display. Each Pokeball measures approximately 3 inches in diameter, making them ideal for collecting and displaying on shelves or desks.
- **Imaginative Play:** Use the assembled Pokemon characters and Pokeballs to recreate your favorite Pokemon battles, adventures, or create new stories. The figures are designed for interactive play.

Maintenance

Proper care will ensure the longevity of your Mega Construx Pokemon collection.

- **Cleaning:** To clean the building blocks and figures, gently wipe them with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the plastic and paint.
- **Storage:** Store the sets in a cool, dry place away from direct sunlight to prevent discoloration or warping of the plastic. Keeping them in their original Pokeball cases or a dedicated storage container can help prevent loss of small pieces.

Troubleshooting

If you encounter any issues during assembly or use, please refer to the following common solutions:

- **Missing Pieces:** If you find that a piece is missing from your set, first double-check the packaging and surrounding area. If a piece is genuinely missing, please contact the manufacturer's customer support for assistance.
- **Difficulty Assembling:** Review the instruction manual carefully, paying close attention to the diagrams and piece orientation. Sometimes, a piece may appear similar to another but has a slightly different connection point. Ensure pieces are firmly pressed together.
- **Loose Connections:** If parts feel loose, ensure they are fully engaged. Building blocks are designed to fit snugly. If a piece consistently remains loose, it may be damaged, and you should contact customer support.

Specifications

Product Dimensions	4 x 3.5 x 2.5 inches (individual set packaging)
Item Weight	2 pounds (total for the collection)
Item Model Number	FPM00-963L
Manufacturer	Mattel
Recommended Age	6 years and up
Number of Pieces	Approximately 20-37 pieces per Pokeball set
