SETUP

1. Connect the provided 3.3ft USB-C to C cable to the USB-C port on the back of the charging stand.
2. Plug the other end of the USB-C cable into the included Baseus Foldable 45W USB C Charger.
3. Insert the 45W USB C Charger into a wall outlet. The indicator light on the stand will illuminate, indicating it is powered on.
4. Place your iPhone (iPhone 12-16 series) onto the magnetic charging pad. Ensure it aligns correctly for optimal 15W Qi2 wireless charging.
5. Place your Apple Watch onto the dedicated Apple Watch charging module.
6. Place your AirPods (or other compatible earbuds) onto the flat wireless charging pad on the base.

OPERATING INSTRUCTIONS

Wireless Charging

The stand supports Qi2 15W wireless charging for compatible iPhones (iPhone 12-16 series), 2.5W for Apple Watch, and 5W for AirPods (2-4 / Pro) or other compatible earbuds. Ensure your devices are MagSafe-compatible for the phone charging pad.

CryoCore Cooling System

The integrated CryoCore cooling technology features a semiconductor heat absorption and an assisted quiet cooling fan to maintain optimal device temperatures during charging, extending battery lifespan. The fan operates at less than 35dB.

MAINTENANCE

- Keep the charging stand clean by wiping it with a soft, dry cloth.
- Avoid using abrasive cleaners or solvents.
- Ensure the cooling fan vents are clear of dust and debris for optimal performance.

TROUBLESHOOTING

Problem	Possible Cause / Solution
Device not charging	Ensure the power adapter and cable are securely connected. Verify device compatibility (MagSafe for iPhone). Reposition the device on the charging pad to ensure proper alignment. Remove any thick phone cases that might interfere with wireless charging.
Fan is noisy or not working	Check if the fan control button has been pressed to turn it off. Ensure the fan vents are not obstructed. If the noise is a high-pitched whine, consider turning the fan off if not needed for heavy usage.
Phone overheating during charging	Ensure the CryoCore cooling fan is active. Avoid using the phone for intensive tasks (e.g., gaming, video streaming) while charging, especially if the fan is off.
