

FEARWIKY M-P2

FEARWIKY Mini Projector M-P2 Instruction Manual

Model: M-P2 (Item Model Number: 2025P2)

Brand: FEARWIKY

1. INTRODUCTION

Thank you for choosing the FEARWIKY Mini Projector M-P2. This portable projector is designed to deliver an immersive viewing experience with its advanced features, including 4K 1080P support, WiFi 6 and Bluetooth connectivity, and a unique 180° rotatable design. This manual provides detailed instructions to help you set up, operate, and maintain your projector for optimal performance.

2. WHAT'S IN THE BOX

Please check the contents of your package to ensure all items are present:

- FEARWIKY Mini Projector M-P2
- Remote Control (requires 2x AAA batteries, not included)
- Power Cord
- Instruction Manual (this document)

3. PRODUCT FEATURES

The FEARWIKY Mini Projector M-P2 comes equipped with several advanced features for an enhanced user experience:

3.1. 180° Rotatable Projector

The projector features a versatile 180° swivel bracket, allowing you to project images onto various surfaces, including walls and ceilings. This flexibility ensures a clear picture from any angle, supporting screen sizes from 40 to 130 inches.

Figure 2: Projector demonstrating its 180-degree rotation capability.

3.2. HD Quality Projection

Experience crisp and detailed visuals with support for 1080P and 4K resolution. The projector incorporates advanced color technology, including HDR10 and HLG, to produce vivid and lifelike colors, restoring the true visual effect. For optimal viewing, the best projection distance is approximately 5.51 feet for a 60-inch screen.

Smart Projector with built-in APP Store

No need for Firestick, download apps directly from TV Store

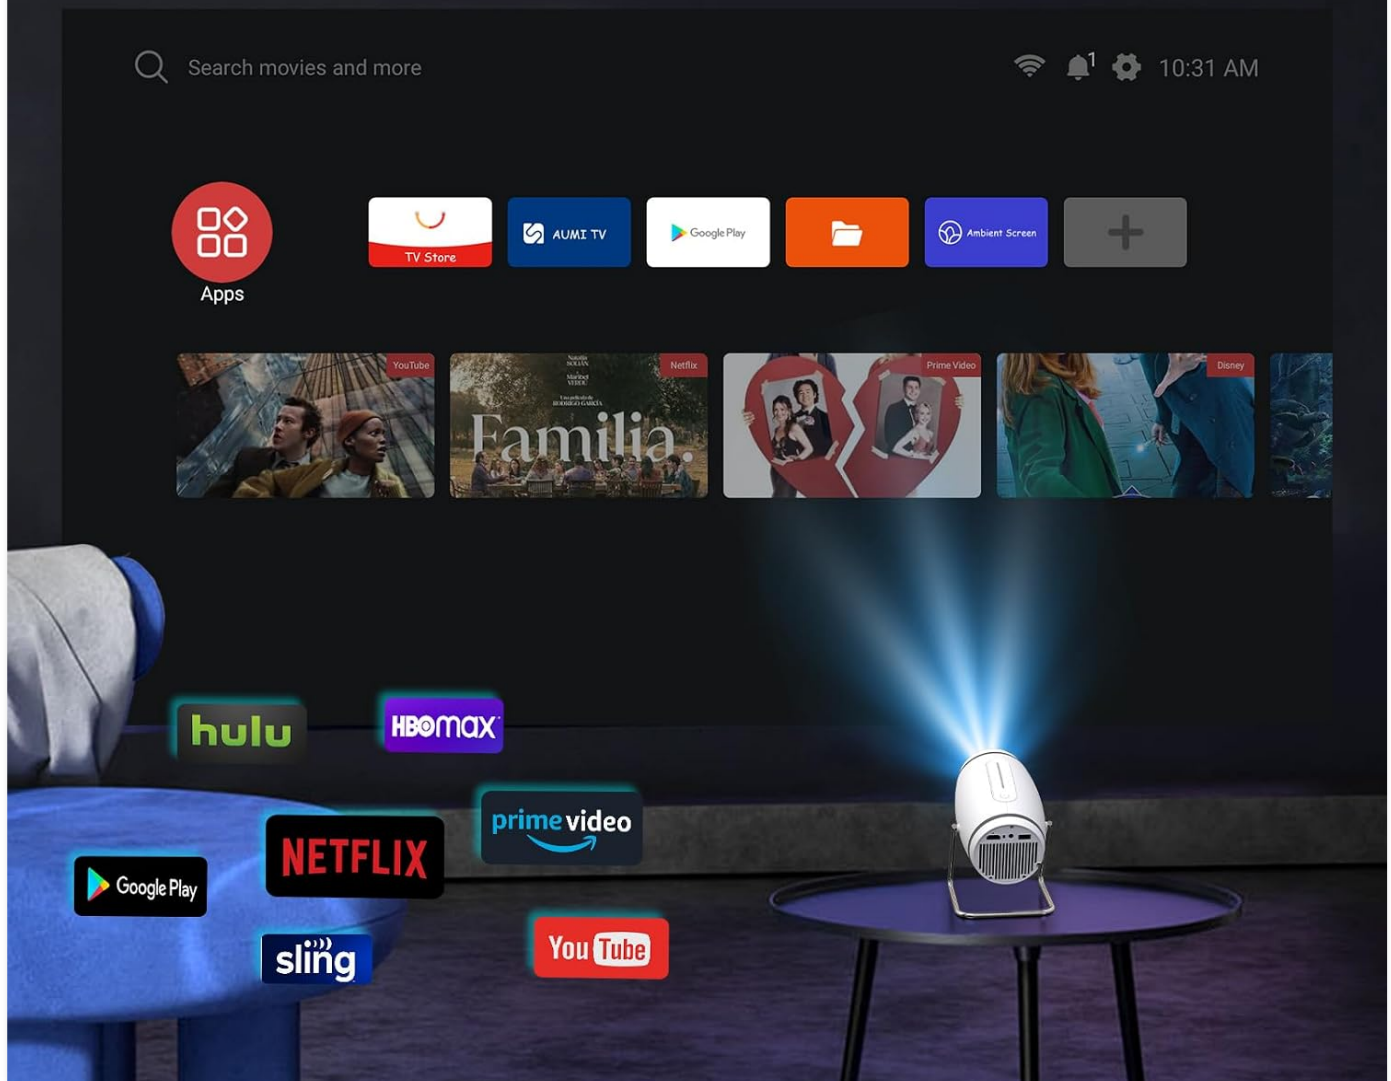

Figure 3: Visual representation of the projector's clear and detailed image quality with high color reproduction.

3.3. Smart Projector with Built-in Apps

The FEARWIKY M-P2 features a built-in TV Store, allowing direct download of popular streaming applications such as Netflix, YouTube, and Prime Video. This provides a seamless and smooth video playback experience without the need for external devices.

Auto Keystone & Zoom Function

Auto keystone

100%-50% Zoom

Aspect Ratio 16:9 & 4:3

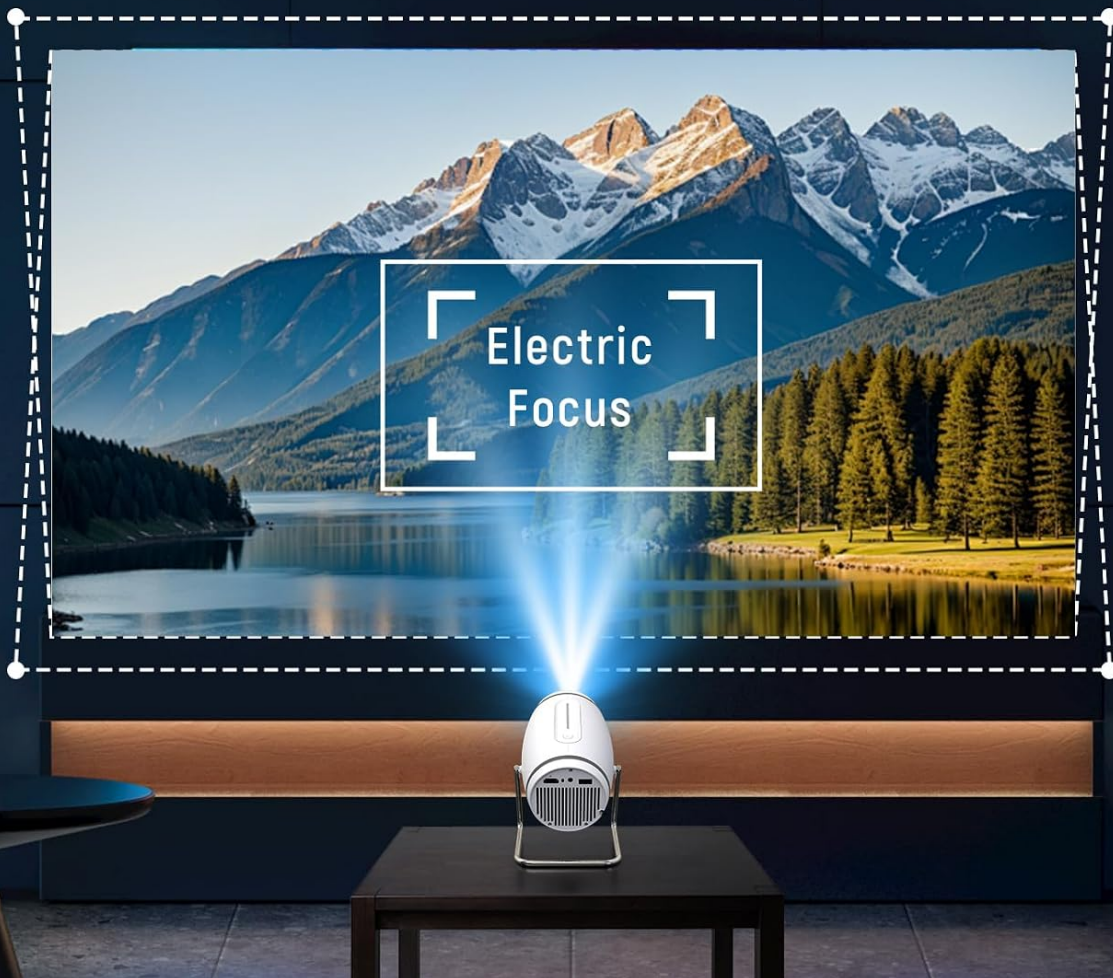

Figure 4: The projector's smart interface showing various built-in applications.

3.4. Convenient WiFi6 and Multiple Device Connectivity

The projector supports Wi-Fi 6 for fast and stable wireless connections. It also supports Bluetooth, Miracast, AirPlay, and DLNA protocols for easy screen mirroring from smartphones, tablets, and computers. Additionally, it is equipped with HDMI, USB, and audio output ports, ensuring high compatibility with various devices.

Compatible with Multiple Devices

Smart Phone

Laptop/PC

TV Stick

USB Driver

PS4

3.5. 0.9:1 High Projection Ratio

Achieve a cinematic experience even in compact spaces. The 0.9:1 high projection ratio allows the projector to cast a larger image from a shorter distance, making it ideal for smaller rooms such as bedrooms or living rooms.

Fast and Stable WIFI6 Connection

Seamless WIFI connection, setup in less than 5 seconds

Figure 6: Examples of screen sizes (40", 100", 130") at different projection distances (5.5ft, 6.5ft, 13.2ft).

3.6. Auto Keystone & 50% Zoom Function

The projector automatically corrects trapezoidal distortion caused by incorrect projection angles, ensuring a perfectly rectangular image. The 100%-50% zoom function allows flexible adjustment of the picture size. You can also manually rotate the lens ring or use the remote control to fine-tune the focus for a clearer image.

130" Screen Projection Display

5.51ft optimal projection distance for 60" screen

4. SETUP GUIDE

1. **Unpack the Projector:** Carefully remove all components from the packaging.
2. **Insert Remote Batteries:** Open the battery compartment on the back of the remote control and insert two AAA batteries (not included), ensuring correct polarity.
3. **Power Connection:** Connect the power cord to the projector's power input port and then plug the other end into a standard electrical outlet.
4. **Initial Placement:** Place the projector on a stable, flat surface. Utilize the 180° rotatable stand to adjust the projection angle as needed.
5. **Power On:** Press the power button on the projector or the remote control to turn on the device.

6. **Focus Adjustment:** Once powered on, adjust the focus by rotating the lens ring on the front of the projector until the image appears clear and sharp.

5. OPERATING INSTRUCTIONS

5.1. Basic Navigation

Use the remote control to navigate the projector's interface. The directional buttons (up, down, left, right) allow you to move between options, and the "OK" button confirms your selection. The "Back" button returns to the previous screen.

5.2. Connecting to Wi-Fi

1. From the home screen, navigate to the "Settings" menu.
2. Select "Network" or "Wi-Fi Settings".
3. Turn on Wi-Fi and select your desired network from the list.
4. Enter the Wi-Fi password using the on-screen keyboard and confirm.

5.3. Bluetooth Pairing

1. Go to "Settings" and select "Bluetooth".
2. Turn on Bluetooth. The projector will begin searching for nearby devices.
3. Select your Bluetooth speaker or headphones from the list to pair.

5.4. External Device Connection

- **HDMI:** Connect a laptop, gaming console, or TV stick to the HDMI port. Select the HDMI input source from the projector's menu.
- **USB:** Insert a USB drive into the USB port to play media files directly.
- **Audio Output:** Connect external speakers or headphones via the audio output jack for enhanced sound.
- **Wireless Screen Mirroring:** Use Miracast (for Android/Windows) or AirPlay (for iOS) to wirelessly mirror your device's screen. Ensure both devices are on the same Wi-Fi network.

6. IMAGE ADJUSTMENT

- **Auto Keystone Correction:** The projector is equipped with automatic keystone correction to adjust the image shape if it appears distorted (trapezoidal). This function typically activates automatically.
- **Digital Zoom (50%-100%):** Use the remote control to access the zoom function. You can reduce the image size from 100% down to 50% without moving the projector.
- **Manual Focus:** For precise image clarity, rotate the focus ring located around the projector lens until the projected image is sharp.

7. MAINTENANCE

Proper maintenance ensures the longevity and optimal performance of your projector:

- **Cleaning the Lens:** Use a soft, lint-free cloth specifically designed for optical lenses. Do not use abrasive cleaners or cloths that could scratch the lens.
- **Cleaning the Exterior:** Wipe the projector's exterior with a soft, dry cloth. For stubborn marks, a slightly damp cloth can be used, but ensure no moisture enters the device.
- **Ventilation:** Ensure the projector's ventilation vents are clear and unobstructed to prevent overheating. Do not place the projector on soft surfaces that could block airflow.
- **Storage:** When not in use for extended periods, store the projector in a cool, dry place, away from direct sunlight and extreme temperatures.

8. TROUBLESHOOTING

Problem	Possible Cause	Solution
No Power	Power cord not connected; Power outlet issue.	Ensure power cord is securely plugged in. Try a different outlet.
Blurry Image	Out of focus; Incorrect projection distance.	Adjust the manual focus ring. Ensure projector is within optimal projection distance.
Image is Trapezoidal	Projector not perpendicular to screen.	Auto keystone correction should activate. If not, adjust projector position.
No Sound	Volume too low; Incorrect audio output selected; External device issue.	Increase volume. Check audio settings and ensure correct output. Test with another device.
Wi-Fi/Bluetooth Connectivity Issues	Incorrect password; Device too far; Interference.	Re-enter password. Move devices closer. Reduce interference from other electronics.

9. SPECIFICATIONS

- **Brand:** FEARWIKY
