2. SAFETY INFORMATION

- Ensure all components are present and undamaged before assembly. Do not use if any parts are missing or broken.
- Assemble the armchair on a soft, clean surface to prevent scratches.
- Tighten all screws and bolts securely. Periodically check and re-tighten as needed.
- Do not exceed the maximum weight capacity of 330 pounds (150 kg).
- Keep small parts away from children during assembly to prevent choking hazards.
- Avoid standing on the armchair or using it as a step stool.

3. PACKAGE CONTENTS

Before beginning assembly, verify that all the following components are included in your package:

- Armchair Base with Swivel Mechanism
- Seat Cushion

- Back Cushion
- Two (2) Side Cushions/Pillows
- Assembly Hardware (screws, bolts, Allen wrench)
- Instruction Manual

Note: An ottoman is listed as an included component in some product specifications. Please check your specific packaging for confirmation.

4. SETUP AND ASSEMBLY

Assembly is designed to be straightforward. It is recommended to have two people for easier assembly, especially when attaching the backrest.

Tools Required:

- Allen wrench (included)

Assembly Steps:

1. **Unpack Components:** Carefully remove all parts from the packaging. Place them on a soft, clean surface to prevent damage.
2. **Attach Swivel Base:** Ensure the swivel mechanism is securely attached to the main chair frame. This part is usually pre-assembled.
3. **Connect Backrest:** Align the backrest with the slots on the main chair frame. Gently push down and slide the backrest into place until it locks securely. This step may require some force and is easier with two people to align both sides simultaneously.
4. **Secure Connections:** Use the provided hardware (screws/bolts) and Allen wrench to firmly secure the backrest to the frame. Do not overtighten.
5. **Place Cushions:** Position the seat cushion, back cushion, and two side pillows onto the armchair.
6. **Final Check:** Verify that all connections are tight and the armchair is stable before use.

6. MAINTENANCE

Proper care will extend the life and appearance of your armchair.

- **Regular Cleaning:** Vacuum the corduroy fabric regularly using a soft brush attachment to remove dust and debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. For stubborn stains, use a mild fabric cleaner specifically designed for corduroy, testing on an inconspicuous area first. Avoid harsh chemicals.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fabric fading. Position the armchair away from direct sun exposure when possible.
- **Check Connections:** Periodically inspect all screws and bolts and re-tighten them if they have loosened over time.

7. TROUBLESHOOTING

- **Difficulty during assembly:** If you encounter difficulty sliding the backrest into the rails, ensure both sides are aligned correctly. Having a second person to assist with simultaneous alignment can make this step

easier.

- **Missing or unclear instructions:** If the included instructions are unclear or parts are mislabeled, refer to the diagrams carefully. Contact customer support for clarification if needed.
- **Armchair feels unstable:** Check all assembly connections. Ensure all screws and bolts are fully tightened.
- **Swivel mechanism is stiff or noisy:** Ensure the base is clean and free of obstructions. If the issue persists, contact customer support.
