1. INTRODUCTION

This manual provides essential information for the safe and effective use of your ELEMARA Ride on Car. This 2-seater electric off-road UTV is designed for children aged 3 years and up, offering a fun and engaging driving experience. Key features include a protective sun shade, a functional lifting dump bed, and an included shovel, enhancing imaginative play. The vehicle is powered by a robust 12V 10AH battery, features 4-wheel drive, and offers three distinct speed settings for varied play environments. It also includes LED lights and a Bluetooth music player for added enjoyment.

2. SAFETY INFORMATION

WARNING: Adult supervision is required at all times during operation.

- **Age and Weight Limits:** This product is suitable for children aged 3 years and up. The maximum load capacity is 150 lbs (68 kg). Do not exceed this weight limit.
- **General Safety:** For external use only. Avoid contact with eyes. Keep away from naked flame or direct heat sources.
- **Protective Gear:** Always ensure the child wears appropriate safety gear, including a helmet, knee pads, and elbow pads, when operating the vehicle.
- **Seating and Belts:** Ensure children are properly seated and the safety belt is securely fastened before operation. The vehicle features lockable doors for added security.
- **Operating Environment:** Operate the vehicle on flat, dry surfaces away from traffic, swimming pools, or other

hazards. Avoid steep inclines or uneven terrain that could cause tipping.

- **Soft Start Feature:** The vehicle is equipped with a soft start feature for smooth acceleration, reducing sudden jolts.
- **Battery Safety:** Do not attempt to modify the battery or charging system. Use only the provided charger.

3. WHAT'S IN THE BOX

Upon opening the package, please verify that all components are present and undamaged:

- Ride on Car (1 unit)
- Instruction Manual (1 unit)
- Shovel (1 unit)
- Sun Shade (1 unit)
- Charger (1 unit)
- Remote Control (1 unit)

4. SETUP

4.1 Initial Charging

Before first use, fully charge the vehicle's 12V 10AH battery. The initial charging time is approximately 8-12 hours. Do not overcharge the battery. A low battery reminder feature is integrated to indicate when charging is needed.

Image: Information regarding the 12V 10AH battery, charging, and play times.

4.2 Assembly

Follow the detailed instructions in the included Instruction Manual for assembly. Key steps typically include:

1. Attaching the wheels securely.
2. Connecting the battery terminals.
3. Installing the steering wheel and seats.
4. Mounting the sun shade.
5. Ensuring all connections are firm and secure.

5. OPERATING INSTRUCTIONS

5.1 Driving Modes

The ELEMARA Ride on Car offers dual control options:

- **Manual Steering:** The child can operate the vehicle using the steering wheel and foot pedal.
- **Remote Control Riding:** An adult can control the vehicle using the included remote control, providing an extra layer of safety and assistance for younger riders.

Dual Driving Modes

5.3 Terrain Capability

Equipped with high-quality tires and double shock absorbers, this ride-on truck is designed for various terrains,

including:

- Concrete roads
- Gravel paths
- Sandy areas
- Muddy roads
- Grassland
- Board roads
- Rubber roads

6. MAINTENANCE

6.1 Battery Care

- Always recharge the battery after each use, even if only for a short period.
- If the vehicle is not used for an extended period, charge the battery at least once a month to prolong its lifespan.
- Do not allow the battery to completely drain, as this can damage it.
- Use only the charger supplied with the product.

6.2 Cleaning and Storage

- Clean the vehicle with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- Store the vehicle in a dry, cool place, away from direct sunlight and moisture.
- Protect the vehicle from extreme temperatures.

6.3 General Inspection

- Regularly check all screws, nuts, and fasteners to ensure they are tight.
- Inspect the wheels and tires for wear and tear.
- Ensure the electrical connections are secure and free from corrosion.

7. TROUBLESHOOTING

Problem	Possible Cause	Solution
Vehicle does not move	Low battery; Loose battery connection; Blown fuse; Motor malfunction.	Charge battery; Check battery terminals; Replace fuse; Contact customer support.
Vehicle runs slowly	Undercharged battery; Overloaded vehicle; Operating on unsuitable terrain.	Fully charge battery; Reduce load; Move to a smoother surface.
Remote control not working	Remote batteries dead; Remote not paired; Interference.	Replace remote batteries; Re-pair remote (refer to manual); Move away from other electronic devices.
Lights or music not working	Loose wiring; Component malfunction.	Check connections; Contact customer support.
