4. Choose a Water Source:

The power washer can draw water from various sources:

- **Portable Bucket:** Place the filtered end of the hose into a bucket of water.
- **Water Bottle:** Attach a standard water bottle directly to the unit using the appropriate connector.
- **Natural Sources:** The self-priming function allows drawing water from lakes or rivers.

OPERATING INSTRUCTIONS

1. Power On/Off and Gear Adjustment:

Press the power button to turn the unit on. The power washer features three adjustable gears to control water pressure. Press the gear button to cycle through the settings (1, 2, 3) to match your cleaning needs.

2. Adjusting the Spray Nozzle:

Rotate the nozzle to select the desired spray pattern: linear high-pressure injection for stubborn stains, fan-shaped jet for general cleaning, 0° water spray for precise cleaning in gaps, or attach the foam pot for foam application.

3. Cleaning Applications:

The HSHa power washer is suitable for a variety of tasks:

- **Car Washing:** Use the foam pot for soap application, then rinse with a fan-shaped or linear jet.
- **Home and Outdoor Cleaning:** Clean exterior walls, windows, driveways, and patios.
- **Gardening:** Use a gentle spray for watering plants and flowers.
- **Pet Bathing:** A soft spray setting can be used for bathing pets.
