SETUP AND ASSEMBLY

Assembly is required. Follow these steps carefully for proper setup. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches.
2. **Attach Legs:** Securely attach the legs to the bottom of both the chair and the ottoman using the provided hardware. Ensure they are tightened firmly.
3. **Assemble Chair Base:** Connect the chair frame components as per the detailed instructions included in your package.
4. **Place Cushions:** Position the seat cushions, back cushion, and lumbar pillow onto the chair. Place the ottoman cushion on the ottoman base.
5. **Allow for Recovery:** After unpacking, gently pat the cushions and allow them to recover their full shape for approximately 72 hours. This helps the high-resilience foam and cotton fill expand completely.
