KIIROO 21014

KIIROO Feel Rachel Starr Stroker Instruction Manual

Model: 21014

Introduction

The KIIROO Feel Rachel Starr Stroker is a personal pleasure device designed to provide realistic sensations. It is crafted from body-safe, skin-like material with a unique internal texture. This device is compatible with KIIROO's KEON and PowerBlow systems for enhanced interactive experiences.

Setup

1. **Unpack:** Carefully remove the Feel Rachel Starr Stroker from its packaging.
2. **Inspect:** Examine the device for any visible damage or defects. If any are found, do not use the product and contact customer support.
3. **Initial Cleaning:** Before first use, clean the device thoroughly according to the maintenance instructions provided in this manual.
4. **Lubrication:** Apply a generous amount of water-based lubricant to the entrance and internal texture of the stroker. Ensure the lubricant is compatible with TPE materials.
5. **Optional KEON/PowerBlow Connection:** If using with a KIIROO KEON or PowerBlow device, refer to the respective manual for those devices for proper attachment and synchronization.

Operating Instructions

1. **Preparation:** Ensure the device is clean and adequately lubricated with a water-based lubricant.
2. **Usage:** Gently insert and use the stroker as desired.
3. **Interactive Use (with KEON/PowerBlow):**
   - Connect the Feel Rachel Starr Stroker to your KEON or PowerBlow device as per their instructions.
   - Utilize the FeelMe AI application or compatible interactive content to synchronize the experience.
   - Ensure both the stroker and the interactive device are securely connected and powered on.
4. **Post-Use:** After each use, proceed with the cleaning and maintenance steps.

Maintenance

Proper cleaning and maintenance are essential for hygiene and to prolong the lifespan of your Feel Rachel Starr Stroker.

1. **Immediate Cleaning:** Clean the device immediately after each use.
2. **Washing:** Use warm water and a mild, toy-safe soap. Gently clean both the exterior and interior of the stroker. Avoid harsh chemicals or abrasive cleaners.
3. **Rinsing:** Rinse the device thoroughly under running water to remove all soap residue.
4. **Drying:** Allow the device to air dry completely. You may gently pat the exterior with a lint-free cloth. Ensure the interior is fully dry to prevent bacterial growth.

5. **Storage:** Store the dry device in a clean, dust-free environment, away from direct sunlight and extreme temperatures. Avoid storing with other toys made of different materials, especially silicone, to prevent material degradation.

Troubleshooting

- **Issue: Device feels too tight or difficult to insert.**
  Solution: Ensure ample water-based lubricant is applied to both the device and yourself. Some users find the device to be very tight initially and may require more lubricant.
- **Issue: Device material shows signs of tearing or damage.**
  Solution: Inspect the device regularly for wear. Avoid excessive force during use or cleaning. This product is made from Thermoplastic Elastomer (TPE), which can be susceptible to tearing if not handled carefully or if exposed to oil-based lubricants. Discontinue use if significant damage occurs.
- **Issue: Sleeve retracts into the case during use.**
  Solution: Ensure the sleeve is properly seated within its casing. If using with an external device like KEON or PowerBlow, ensure it is correctly attached according to their instructions.
- **Issue: Device does not feel as realistic as expected.**
  Solution: Experiment with different amounts and types of water-based lubricant. Ensure the device is at a comfortable temperature for use.

Specifications

Feature	Detail
Model Number	21014
Brand	KIIROO
Style	Rachel Starr
Material	Acrylonitrile Butadiene Styrene (ABS), PC, Thermoplastic Elastomer (TPE)
Color	Vanilla
Water Resistance Level	Waterproof
Package Dimensions	10.28 x 3.66 x 3.66 inches
Item Weight	1.76 Pounds
Optimal Diameter	0.7 inch to 1.7 inch (2 cm to 4.5 cm)
Total Length	8.6 inch (22 cm)
Tightest Diameter	0.2 inch (0.6 cm)
Largest Diameter	0.9 inch (2.4 cm)
Opening Slit Height	1.06 inch (2.7 cm)
