- **DW Series:** DW-5600E, D5600, DW-5610, DW-5700, DW-8900, DW-9050, DW-9051, DW-9052, DW-5000, DW-5025, DW-5030, DW-5035, DW-5305, DW-5300-1, DW-5300G-9, DW-5300C-1, DW-5300C-9, DW-6000CJ-1, DW-6000GJ-1, DW-6200-1, DW-6200G-1, DW-6600-1, DW-6600C-1, DW-6600G-9, DW-6695 (All Models), DW-6695D (All Models), DW-6900 (All Models), DW-6900B (All Models), DW-8700-1
- **G Series:** G-5600, G-5700, G-6900, G-8900, G-2310R, G-G7700, G-G7710
- **GW Series:** GW-S5600, GW-5600, GW-B5600, GW-M5600, GW-M5610, GW-5610, GW-M5630, GW-6900, GW-5000, GW-5035, GW-8900, GW-9400, GW-2310
- **Other Models:** GM-5610, GWX-5600, GB-5600, GBA-400, W-S220, GR-8900, GLX-8900, GL-7200, GDF-100, CDX-100, GBX-100, MCW-100H, MCW-110H, BA-110, GMA-S110, HDD-S100, GBD-800, AWG-M100, AWR-M100, AW590, AW591, GAS-100, GAS-5255, GAS-5600, GD-100, GD-110, GD-120, GD-350, GLS-100, GLS-5600, GLS-6900, GLS-8900

PRODUCT FEATURES AND DESIGN

The DAVILANE watch strap is engineered for comfort and durability, combining premium materials with a functional design.

- **Breathable Hole Mesh Design:** Features a ventilated honeycomb pattern to maximize airflow, reducing sweat and odor buildup during physical activity or prolonged wear.
- **Grade Nylon + Top Grain Leather:** Constructed from hypoallergenic, lightweight materials. The top grain leather provides a soft feel, while the nylon net layer ensures excellent breathability. This combination offers a more comfortable alternative to traditional silicone or resin straps.
- **Adjustable Length:** The hole mesh design allows for more precise length adjustments compared to traditional perforated straps, ensuring a comfortable fit for wrist sizes between 6.3-7.9 inches (160-200mm).
- **Premium Release Spring Connectors:** Designed for quick and easy installation and removal.
- **Stainless Steel Fasteners:** Equipped with durable stainless steel buckles for secure fastening.

SETUP AND INSTALLATION

Follow these steps to correctly install your new DAVILANE watch strap.

1. **Verify Watch Model:** Ensure your Casio watch model is listed in the compatibility section.
2. **Measure Lug Size:** Accurately measure the lug width of your watch. This strap is designed for a 16mm lug width.
3. **Remove Old Strap:** Use a spring bar tool (often included with watch straps) to carefully remove the existing watch strap from your Casio watch. Insert the fork end of the tool into the gap between the strap and the watch lug, compress the spring bar, and gently pull the strap away.
4. **Install New Strap:**
 - Insert one end of the new strap's spring bar into one of the watch lug holes.
 - Using the spring bar tool, compress the other end of the spring bar.
 - Guide the compressed end into the opposite lug hole. Release the spring bar tool to allow the spring bar to snap into place.
 - Gently tug on the strap to ensure it is securely attached.
5. **Adjust Length:** The perforated mesh design allows for fine-tuning the strap length. Adjust the buckle to achieve a comfortable and secure fit on your wrist.

SHOPPING GUIDELINE

Step 1: determine whether our watch bands size fits your wrist.

Suitable for Casio watch

Step 2: accurately measure and select the appropriate watch lug size.

*Manual measurements, there may be an error of 1 cm.

Image: A visual guide demonstrating how to measure the watch lug size (16mm) and how the strap's design allows for adjustable length to fit wrist sizes from 6.3 to 7.9 inches (160-200mm).

OPERATING INSTRUCTIONS

Once installed, the DAVILANE watch strap operates like any standard watch band. Ensure the buckle is securely fastened to prevent accidental detachment.

- **Wearing:** Place the watch on your wrist and thread the strap through the buckle. Adjust the length until the watch is snug but comfortable.
- **Security:** Always ensure the buckle pin is fully engaged in one of the strap's holes to prevent the watch from falling off.

MAINTENANCE AND CARE

Proper care will extend the life and appearance of your watch strap.

- **Cleaning:** For general cleaning, wipe the strap with a soft, damp cloth. Avoid harsh chemicals or abrasive cleaners, as these can damage the leather and nylon materials.
- **Drying:** If the strap becomes wet, allow it to air dry completely before wearing. Do not expose it to direct heat or sunlight, which can cause the leather to crack or fade.
- **Water Exposure:** While the strap is designed for durability, prolonged exposure to water, especially saltwater, should be avoided to preserve the integrity of the leather. If exposed to water, clean and dry as instructed above.
- **Storage:** Store the strap in a cool, dry place away from direct sunlight when not in use.

TROUBLESHOOTING

If you encounter issues with your watch strap, consider the following:

- **Strap Not Fitting Securely:**
 - Ensure the spring bars are correctly seated in the watch lug holes. A gentle tug should confirm security.
 - Verify that the lug width of your watch is 16mm. Incorrect lug width will prevent proper installation.
 - If the included pins seem too small, try using the original pins from your watch if they are compatible and in

good condition.

- **Discomfort or Irritation:**

- Adjust the strap length to ensure it is not too tight or too loose.
- Clean the strap regularly to prevent buildup of sweat or debris that could cause irritation.

- **Material Wear:**

- Leather is a natural material and may show signs of wear over time. Follow maintenance guidelines to prolong its life.
- Avoid exposing the strap to harsh chemicals or excessive moisture, which can accelerate wear.

SPECIFICATIONS

Attribute	Detail
Brand	DAVILANE
Model Number	HGS152-26-16
