CUTEBEE Count Cat's Study DIY Book Nook Kit

Instruction Manual

INTRODUCTION

Welcome to the world of miniature crafting with your CUTEBEE Count Cat's Study DIY Book Nook Kit. This kit allows you to construct a detailed miniature library scene, designed to fit seamlessly into your bookshelf. It features pre-cut wooden pieces, intricate details, and a sensor-activated LED light to bring your creation to life. This manual provides comprehensive instructions to guide you through the assembly process, ensuring a rewarding and enjoyable experience.

Image: The assembled CUTEBEE Count Cat's Study Book Nook, highlighting its compact dimensions (17.1cm height, 11.8cm width, 10cm depth) and key features like assembly time (1-2 hours), 108 wooden pieces, and moderate assembly difficulty.

SAFETY INFORMATION

- **Age Recommendation:** This kit is recommended for individuals aged 14 years and older.
- **Small Parts:** The kit contains small parts that may pose a choking hazard. Keep out of reach of young children.
- **Tools:** Exercise caution when using any tools (e.g., tweezers, glue applicators) during assembly.
- **Ventilation:** Ensure adequate ventilation if using adhesives.
- **Batteries:** Handle batteries according to manufacturer's instructions. Do not mix old and new batteries, or different types of batteries.

PACKAGE CONTENTS

Your CUTEBEE Count Cat's Study DIY Book Nook Kit includes the following components:

- Pre-cut wooden pieces for the miniature structure and furniture.

- Paper accessories for decorative elements.
- LED light components with sensor.
- Detailed instruction manual.

Note: Silicone liquid glue and two AAA batteries are required for assembly and operation, but are **not included** in the kit. Please prepare these items separately.

SETUP AND ASSEMBLY INSTRUCTIONS

Follow these steps carefully to assemble your CUTEBEE Count Cat's Study Book Nook. Refer to the included instruction manual for detailed diagrams and specific part numbers.

1. Prepare Your Workspace

- Clear a well-lit, flat, and stable surface.
- Gather necessary tools: silicone liquid glue, two AAA batteries, tweezers (recommended for small parts).
- Organize the wooden sheets and paper accessories.

2. Detach and Identify Parts

- Carefully detach each wooden piece from its sheet. Use a craft knife if necessary for clean edges.
- Identify each piece using the numbering system provided in the instruction manual.
- Match paper accessories to their corresponding wooden parts.

3. Assemble the Main Structure

- Begin by assembling the base and side walls according to the manual's diagrams.
- Apply a small amount of silicone liquid glue to the tabs and slots for a secure fit. Allow glue to dry as instructed.
- Continue building the internal shelves and decorative elements.

OPERATING INSTRUCTIONS

LED Light Operation

- The CUTEBEE Count Cat's Study Book Nook features a sensor-activated LED light.
- To activate the light, ensure batteries are correctly installed.
- The light will turn on automatically when motion is detected or when the designated touch switch (if present) is activated. Refer to your specific kit's manual for exact switch location.
- The light will turn off after a period of inactivity to conserve battery life.

MAINTENANCE

- **Cleaning:** Use a soft, dry cloth or a small brush to gently remove dust from the miniature. Avoid using liquid cleaners.
- **Battery Replacement:** Replace AAA batteries when the LED light dims or stops working. Ensure correct polarity.
- **Storage:** Store the book nook in a dry place away from direct sunlight and extreme temperatures to prevent warping or fading.
- **Repairs:** For minor repairs, use silicone liquid glue to reattach any detached pieces.

TROUBLESHOOTING

Problem	Possible Cause	Solution
LED light does not turn on.	<ul style="list-style-type: none"> ◦ Batteries are dead or incorrectly installed. ◦ Sensor is obstructed or faulty. ◦ Wiring issue. 	<ul style="list-style-type: none"> ◦ Replace batteries with new AAA batteries, ensuring correct polarity. ◦ Check that the sensor is clear and unobstructed. ◦ Verify all wiring connections are secure as per the manual.
Pieces do not fit together.	<ul style="list-style-type: none"> ◦ Incorrect piece orientation. ◦ Excess material from detachment. 	<ul style="list-style-type: none"> ◦ Double-check the instruction manual for correct orientation and part numbers. ◦ Gently sand or trim any excess material from the edges of the pieces.
Assembled structure is unstable.	<ul style="list-style-type: none"> ◦ Insufficient glue or drying time. ◦ Loose connections. 	<ul style="list-style-type: none"> ◦ Apply more glue to critical joints and allow ample drying time. ◦ Ensure all tabs are fully inserted into their slots.
