

DESLOC C100

DESLOC C100 Keyless Entry Smart Deadbolt Lock User Manual

Model: C100 | Brand: DESLOC

1. PRODUCT OVERVIEW

The DESLOC C100 is a keyless entry smart deadbolt lock designed for enhanced home security and convenience. It features a keypad for PIN entry, a LockVue display for visual operation, and mechanical key access. The lock is built with durable materials and includes various security and convenience features.

2. SETUP AND INSTALLATION

Installing the DESLOC C100 deadbolt lock is designed to be a straightforward process, typically requiring only a screwdriver. The lock features automatic door swing detection to simplify setup.

2.1 Tools Required

- Phillips head screwdriver

2.2 Installation Steps

1. Remove your existing deadbolt lock from the door.
2. Insert the new deadbolt latch into the door edge and secure it with screws. Ensure the correct orientation as indicated in the instructions.
3. Connect the cable from the exterior keypad unit to the interior unit.

4. Align and attach the exterior keypad unit and the interior unit to the door, ensuring the spindle passes through the deadbolt mechanism.
5. Secure the units with the provided mounting screws.
6. Install 4 AA batteries into the interior unit.

Smart Access for Guests

Create 4 sets of temporary passcodes at once—perfect for friends, sitters, or deliveries.

1. Add Admin
 2. Add User
 3. Del User
 4. Lock Settings
1. Add User FP
 2. Add User PIN
 3. Add Temp PIN
- 4 temp passwords generated, each valid once. Confidential!
- PIN1. 73840276
PIN2. 01284692
PIN3. 74266924
PIN4. 28947601

For a visual guide on the installation process, please refer to the official video:

Video 1: How to Install DESLOC C100. This video demonstrates the step-by-step installation of the DESLOC C100 lock.

2.3 Door Compatibility

The DESLOC C100 is designed to fit a variety of door configurations. Please check the following dimensions for compatibility:

- Door Thickness: 1-3/8" to 2" (35 to 50mm)
- Hole Diameter: 2-1/8" (54mm)
- Backset: 2-3/8" or 2-3/4" (60 or 70mm)

Keep Your Code Private

Tap random digits before or after your correct password digits—so no one can guess your code by watching.

3.2 PIN Code Management

The lock supports up to 100 permanent PIN codes and temporary one-time PINs for guests.

Figure 5: Flexible Passcode Access, illustrating the ability to add up to 100 codes for various users like family, renters, or guests.

3.2.1 Changing Initial PIN

It is recommended to change the initial administrator PIN (default is 123456) immediately after installation for security. The new PIN should be 6-8 digits.

Video 2: Change Initial PIN DESLOC C100. This video guides you through changing the default PIN.

3.2.2 Adding Admin and User PINs

You can add new administrator and regular user PINs through the lock's menu.

Video 3: Add Admin and User PIN DESLOC C100. This video demonstrates how to add new admin and user PINs.

3.2.3 Adding and Deleting Temporary PINs

Generate temporary PINs for visitors that expire after first use. You can also delete these temporary PINs.

Video 4: Add and Delete Temp PIN DESLOC C100. This video shows how to create and remove temporary access codes.

3.2.4 User Information and Deletion

Manage user information and delete existing users as needed.

Video 5: User Information and Delete User DESLOC C100. This video explains how to view and delete user data.

3.3 Auto-Lock and Passage Mode

Configure the lock to automatically secure itself after a set time (5-120 seconds) or enable Passage Mode to keep the door unlocked for easy access.

Easy Visible Setup & Operation

Manage users, set temporary passcodes, and configure settings effortlessly with an intuitive on-device interface—no guesswork, no surprises.

Figure 6: Auto-Lock feature ensures the door locks automatically after a set period (5-120 seconds).

Video 6: Open Direction, Passage Mode and Auto Lock. This video demonstrates how to set door opening direction, enable Passage Mode, and configure Auto Lock.

3.4 Anti-Peeping PIN Protection

Enhance security by entering random digits before or after your correct PIN. The total length of the entered digits must not exceed 16.

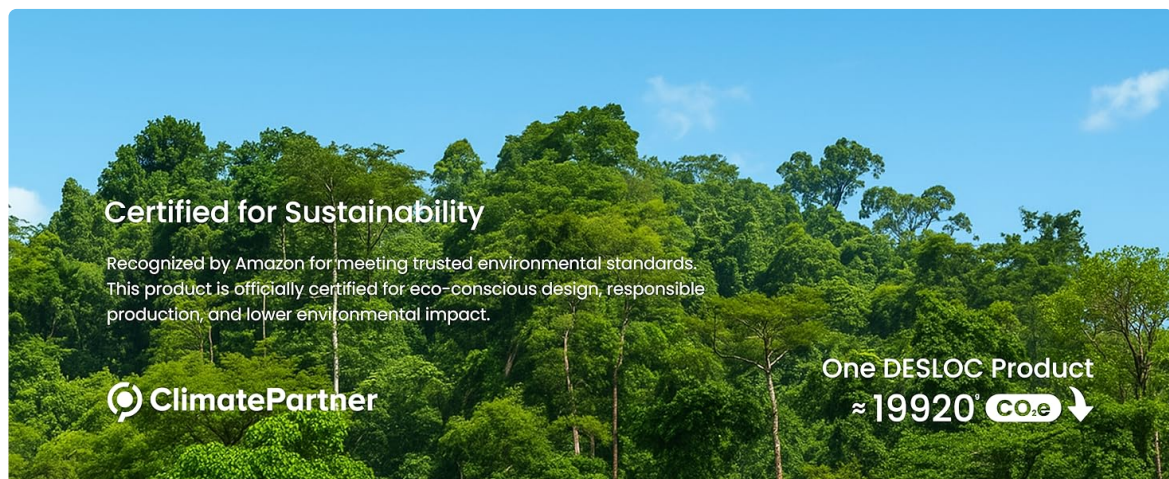

Figure 7: Anti-Peeping feature allows adding random digits before or after your correct password to prevent others from guessing your code.

3.5 Sound Setup

Adjust the sound settings of your lock, including turning sounds on or off.

Video 7: Sound Setup DESLOC C100. This video demonstrates how to configure the sound settings of the lock.

4. MAINTENANCE

4.1 Battery Life and Replacement

The DESLOC C100 is powered by 4 AA batteries, offering up to 12 months of battery life. The lock provides proactive low-battery warnings. When replacing batteries, ensure correct polarity.

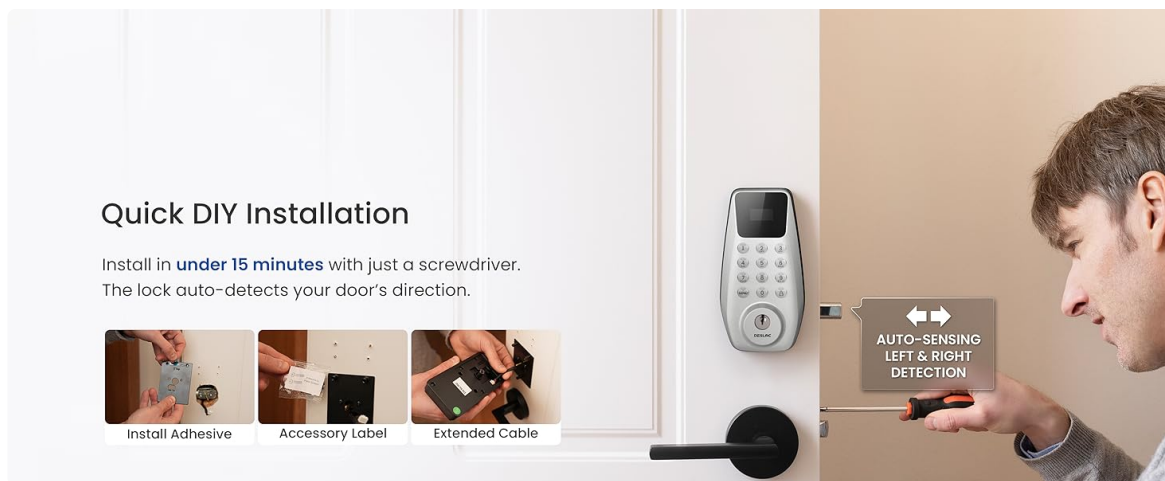

Figure 8: The lock offers up to 12 months of battery life with 4 AA batteries (not included).

4.2 Emergency Power

In case the batteries run out, an emergency Type-C port allows you to use a power bank to temporarily restore power and unlock the door.

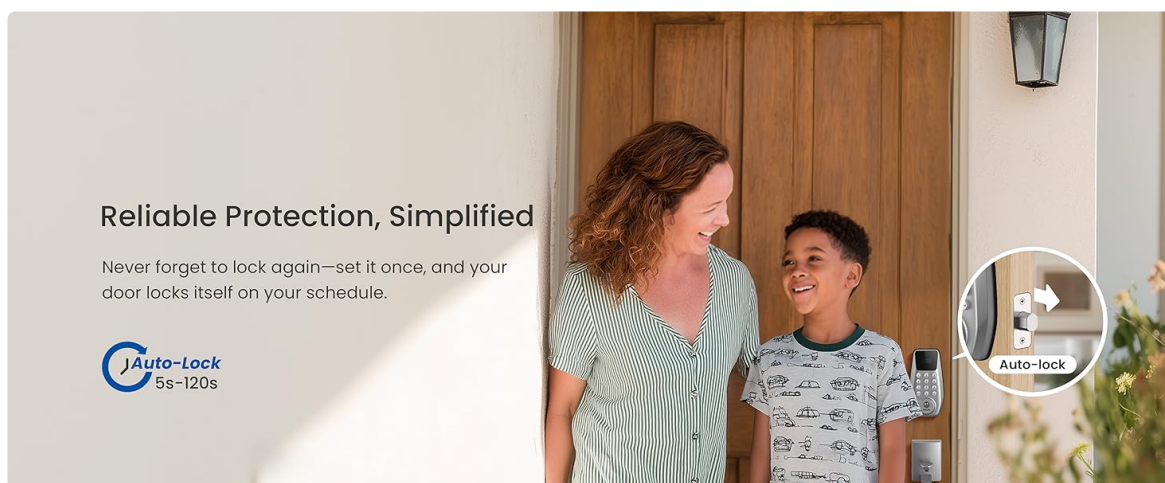

Figure 9: Emergency Type-C port for temporary power when batteries are depleted.

5. TROUBLESHOOTING

5.1 Factory Reset

If you encounter persistent issues or need to clear all user data, you can perform a factory reset. This will restore the lock to its default settings.

Video 8: Factory Reset DESLOC C100. This video demonstrates the steps to perform a factory reset on your lock.
