

JONR ED12 Lite

JONR ED12 Lite Wet and Dry Cordless Vacuum Cleaner User Manual

Model: ED12 Lite

1. INTRODUCTION

Thank you for choosing the JONR ED12 Lite Wet and Dry Cordless Vacuum Cleaner. This appliance is designed to provide efficient and convenient cleaning for various hard floor surfaces. Its advanced features, including edge cleaning, self-cleaning, and dual cleaning modes, ensure a thorough and hygienic cleaning experience. Please read this manual carefully before operating the appliance to ensure safe and optimal performance.

2. SAFETY INSTRUCTIONS

To reduce the risk of fire, electric shock, or injury, always follow basic safety precautions when using electrical appliances. This includes, but is not limited to, the following:

- Read all instructions thoroughly before using the appliance.
- Do not immerse the appliance, charging base, or power adapter in water or other liquids.
- This appliance is not intended for use by persons (including children) with reduced physical, sensory, or mental capabilities, or lack of experience and knowledge, unless they have been given supervision or instruction concerning use of the appliance by a person responsible for their safety.
- Keep the appliance and its cord out of reach of children.
- Use only the power adapter supplied by the manufacturer.
- Do not use the appliance to pick up flammable or combustible liquids, such as gasoline, or use in areas where they may be present.
- Do not pick up anything that is burning or smoking, such as cigarettes, matches, or hot ashes.
- Always turn off the appliance before performing any maintenance or cleaning.
- Store the appliance indoors in a dry place.

3. PACKAGE CONTENTS

Verify that all components are present in the package:

- JONR ED12 Lite Wet and Dry Cordless Vacuum Cleaner (Main Unit)
- Charging Base
- Power Adapter
- Cleaning Brush
- Scraper
- Comb
- User Manual

4. PRODUCT OVERVIEW AND COMPONENTS

Familiarize yourself with the main parts of your JONR ED12 Lite vacuum cleaner:

- **Handle:** For guiding the vacuum cleaner.
- **Clean Water Tank:** Holds fresh water for cleaning. (Capacity: 750 ml)
- **Dirty Water Tank:** Collects dirty water and debris. (Capacity: 450 ml)
- **Brush Roll:** Actively scrubs and cleans floor surfaces.
- **Main Body:** Contains the motor, battery, and control panel.
- **Charging Base:** Used for charging and self-cleaning.

5. SETUP

5.1 Assembly

1. Insert the handle into the main body until it clicks securely into place.
2. Ensure the clean water tank and dirty water tank are correctly installed in their respective positions.

5.2 Charging the Battery

1. Place the vacuum cleaner onto the charging base.
2. Connect the power adapter to the charging base and plug it into a wall outlet.
3. The indicator lights on the vacuum cleaner will show the charging status. A full charge typically takes approximately 4-5 hours.

5.3 Filling the Clean Water Tank

1. Press the release button to detach the clean water tank from the main body.
2. Open the tank cap and fill it with clean tap water. For enhanced cleaning, a small amount of non-foaming floor cleaning solution can be added (refer to solution manufacturer's instructions).
3. Close the cap securely and reattach the clean water tank to the main body until it clicks.

6. OPERATING INSTRUCTIONS

6.1 Power On/Off

Press the Power button on the handle to turn the vacuum cleaner on or off.

6.2 Selecting Cleaning Modes

The JONR ED12 Lite offers two cleaning modes:

- **Auto Mode:** Suitable for general cleaning of everyday spills and light dirt. The vacuum automatically adjusts suction and water flow.
- **Max/Turbo Mode:** Provides maximum suction and water flow for tackling stubborn stains and heavily soiled areas.

Press the Mode button on the handle to switch between Auto and Max/Turbo modes.

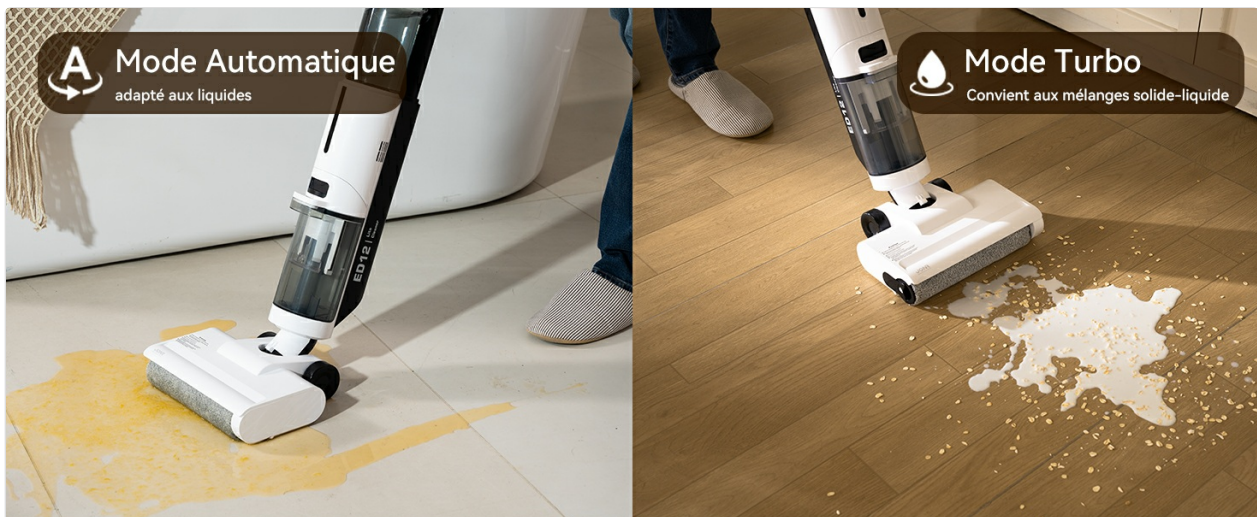

Image: A split image demonstrating the vacuum cleaner's 'Automatic Mode' effectively cleaning liquid spills and 'Turbo Mode' handling more substantial solid-liquid mixtures on a hard floor.

6.3 Cleaning Operation

1. Tilt the vacuum cleaner back to activate the brush roll and water spray.
2. Move the vacuum cleaner slowly forward and backward over the area to be cleaned.
3. The ED12 Lite features an optimized ultra-thin edge design, allowing it to clean close to baseboards and deep into corners.

7. MAINTENANCE

7.1 Self-Cleaning Function

After each use, it is recommended to activate the self-cleaning function:

1. Place the vacuum cleaner on its charging base.
2. Ensure there is sufficient clean water in the clean water tank.
3. Press the self-cleaning button (usually indicated by a water drop icon). The vacuum cleaner will perform a cleaning cycle for the brush roll and internal pathways.
4. Once the cycle is complete, empty the dirty water tank.

Image: A diagram showing the internal mechanism of the JONR ED12 Lite's self-cleaning function, with arrows indicating the flow of clean water and the evacuation of impurities from the brush roll.

7.2 Emptying and Cleaning the Dirty Water Tank

Empty the dirty water tank after each use to prevent odors and maintain hygiene:

1. Press the release button to detach the dirty water tank.
2. Carefully pour out the dirty water and debris.

3. Rinse the tank thoroughly with clean water. Use the provided cleaning brush if necessary to remove any residue.
4. Allow the tank to air dry completely before reattaching it.

7.3 Cleaning the Brush Roll

Even with self-cleaning, occasional manual cleaning of the brush roll is recommended:

1. Turn off the vacuum cleaner and remove the dirty water tank.
2. Open the brush roll cover and remove the brush roll.
3. Use the provided scraper and comb to remove any tangled hair or debris from the brush roll.
4. Rinse the brush roll under running water until clean.
5. Allow the brush roll to air dry completely before reinstalling it.

Zwei Modi für unterschiedliche Einsätze

8. TROUBLESHOOTING

If you encounter any issues with your JONR ED12 Lite, please refer to the following table before contacting customer support:

Problem	Possible Cause	Solution
Vacuum does not turn on	Battery is low or depleted. Not properly charged.	Charge the battery fully. Ensure the power adapter is correctly connected.
Poor suction or cleaning performance	Dirty water tank is full. Clean water tank is empty. Brush roll is tangled or dirty. Air filter is clogged.	Empty the dirty water tank. Refill the clean water tank. Clean the brush roll. Clean or replace the air filter.
Water leakage	Water tanks not properly installed. Tank caps not sealed.	Ensure both clean and dirty water tanks are securely attached. Check that tank caps are tightly closed.
Self-cleaning function not working	Insufficient water in the clean water tank. Dirty water tank is full.	Refill the clean water tank. Empty the dirty water tank.
