MIMOFPET X3

MIMOFPET Wireless Dog Fence Receiver (Model X3/X3 Pro) Instruction Manual

This manual provides detailed instructions for the safe and effective use of your MIMOFPET Wireless Dog Fence Receiver. Please read thoroughly before operation.

1. Product Overview

The MIMOFPET Wireless Dog Fence Receiver is designed to work with the MIMOFPET NEW X3 or X3 Pro Wireless Dog Fence systems. It functions as a single training collar, providing a waterproof and rechargeable solution for your pet's containment and training needs.

This image displays the MIMOFPET Wireless Dog Fence Receiver. It features a light grey receiver unit with a green indicator light and the 'MimofPet' logo, attached to a black and white patterned adjustable collar with a black buckle.

2. Setup

- 1. Charging the Receiver:** Before first use, fully charge the receiver. Connect the charging cable to the receiver's charging port and a suitable power source. The indicator light will show charging status (refer to the specific light patterns in your main fence system manual).
- 2. Attaching the Collar:** The receiver unit is integrated with the collar strap. Ensure the contact points are securely attached if they are removable.
- 3. Pairing with Base Unit:** This receiver is designed to pair with the MIMOFPET NEW X3 or X3 Pro Wireless Dog Fence system. Follow the pairing instructions provided in the main user manual for your specific X3 or X3 Pro base unit to establish a connection.
- 4. Fitting the Collar:** Place the collar around your dog's neck, ensuring the contact points touch the skin. The collar should be snug enough that only one finger can fit between the strap and your dog's neck. Avoid overtightening.

3. Operating Instructions

- **Power On/Off:** Refer to your main X3/X3 Pro Wireless Dog Fence system manual for specific power on/off procedures for the receiver, as it typically activates when paired with the base unit.
- **Indicator Light:** The green indicator light on the receiver unit signifies its operational status. Consult your main system manual for detailed explanations of different light patterns (e.g., solid green for active, flashing for low battery).
- **Waterproof Design:** The receiver is waterproof, allowing your dog to wear it in various weather conditions or during water activities. Ensure the charging port cover is securely closed to maintain waterproofing.
- **Rechargeable Battery:** The receiver is equipped with a rechargeable Lithium Polymer battery. Recharge as needed when the low battery indicator is displayed.

4. Maintenance

- **Cleaning:** Regularly clean the receiver unit and collar strap with a damp cloth. Avoid using harsh chemicals or abrasive materials.
- **Contact Points:** Periodically check the contact points for dirt or debris. Clean them gently to ensure proper function.
- **Battery Care:** To prolong battery life, avoid fully discharging the battery frequently. Store the receiver in a cool, dry place when not in use for extended periods.
- **Collar Inspection:** Inspect the collar strap for any signs of wear or damage. Replace if necessary to ensure secure fitment.

5. Troubleshooting

- **Receiver Not Responding:** Ensure the receiver is charged and properly paired with the X3/X3 Pro base unit. Check the base unit's power and operational status.
- **No Correction/Stimulation:** Verify that the contact points are making proper contact with your dog's skin. Ensure the collar is snug but not too tight. Check the settings on your X3/X3 Pro remote or base unit.
- **Charging Issues:** Confirm the charging cable is correctly connected and the power source is active. If the issue persists, try a different charging cable or adapter.
- **Inconsistent Operation:** Ensure there are no large metal objects or strong electromagnetic interference near the wireless fence boundary. Refer to your X3/X3 Pro manual for optimal base unit placement.

6. Specifications

Feature	Detail
Brand Name	MIMOFPET
Model Name	X3
Item Model Number	X3
Item Weight	5.8 ounces
Item Package Dimensions (L x W x H)	4.3 x 3.5 x 1.9 inches
Batteries	1 Lithium Polymer battery (included)
Color	Light Grey
Included Components	Collar
Specific Uses for Product	Behavior Training
Manufacturer	Shenzhen Saiku Electronic Co.,Ltd.

7. Warranty Information

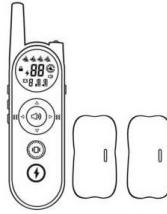

This MIMOFPET Wireless Dog Fence Receiver is covered by a **1-Year Manufacturer's Warranty** from the date of purchase. This warranty covers defects in materials and workmanship under normal use. It does not cover damage caused by misuse, accident, unauthorized modification, or normal wear and tear.

Please retain your proof of purchase for warranty claims.

8. Support

For further assistance, troubleshooting, or warranty inquiries, please refer to the contact information provided with your original purchase or visit the official MIMOFPET store page on the platform where you purchased the product.
