## TRANSFORMATION INSTRUCTIONS

The LQPFBSM 2-in-1 Strange Cannibal Flower model is designed for dual form conversion. The head of the building block represents a carnivorous plant, while the body can be configured as a humanoid figure or transformed into a plant root structure.

### Switching Between Forms:

- To convert from the humanoid form to the plant root form, carefully detach the lower body sections (legs) and

reconfigure them according to the specific instructions in your printed manual to create the root base.

- To convert from the plant root form back to the humanoid form, reverse the process, reattaching the leg components to form the humanoid lower body.
- The head component remains consistent across both forms, representing the 'Cannibal Flower' aspect.

- **Cleaning:** Use a soft, dry cloth to gently wipe away dust. For more stubborn dirt, a slightly damp cloth can be used, but avoid excessive moisture.
- **Storage:** Store the assembled model or loose pieces in a cool, dry place away from direct sunlight to prevent discoloration or material degradation.
- **Handling:** Handle the model with care, especially when transforming between forms, to avoid accidental detachment of pieces.
