SETUP AND ASSEMBLY

Follow these steps to assemble your UIXE Modular Sectional Sofa. It is recommended to have two people for assembly.

1. **Unpack Components:** Carefully remove all parts from the packaging. Lay them out on a soft, clean surface to prevent scratches.
2. **Attach Legs:** For each sofa module (corner, armless, ottoman), locate the pre-drilled holes on the underside. Screw the wooden legs into these holes. Ensure they are tightened securely.
3. **Connect Modules (Optional):** If you wish to create a fixed configuration, align the connecting brackets on the sides of the modules. Slide the brackets together until they lock. This allows for flexible arrangement or a stable, combined unit.
4. **Place Cushions:** Position the seat and back cushions onto their respective modules. The cushions are movable for easy adjustment.

MAINTENANCE

Proper care will extend the life and appearance of your UIXE Modular Sectional Sofa.

Fabric Care (Corduroy)

- **Regular Cleaning:** Vacuum the sofa regularly using an upholstery attachment to remove dust and loose debris.
- **Spot Cleaning:** For spills, blot immediately with a clean, dry cloth. Do not rub, as this can spread the stain. For stubborn stains, use a mild fabric cleaner specifically designed for corduroy, testing on an inconspicuous area first.
- **Removable Covers:** The cushion covers are removable. Refer to the care label on the inside of the cover for specific washing instructions. Typically, machine wash cold on a gentle cycle and air dry. Do not tumble dry.
- **Avoid Direct Sunlight:** Prolonged exposure to direct sunlight can cause fading. Position your sofa

away from direct sun or use curtains/blinds.

Frame and Legs Care

- Wipe wooden legs with a soft, damp cloth. Avoid harsh chemicals.
- Periodically check and tighten all leg and module connection bolts to ensure stability.

TROUBLESHOOTING

If you encounter any issues with your sofa, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Sofa feels wobbly or unstable.	Loose legs or connecting hardware.	Check and tighten all leg screws and module connectors. Ensure the sofa is on a level surface.
Cushions appear flattened.	Normal wear and compression.	Fluff and rotate cushions regularly to maintain their shape and extend their lifespan.
Fabric has a stain.	Spill or dirt accumulation.	Refer to the "Fabric Care" section for spot cleaning or washing removable covers.

If the problem persists or is not listed here, please contact UIXE customer support for assistance.
