

ACHTFACH SC-05 Attachment suit

ACHTFACH Extension Tube for SC-05 Steam Mop User Manual

Model: SC-05 Attachment Suit

INTRODUCTION

This manual provides essential instructions for the proper setup, operation, and maintenance of your ACHTFACH Extension Tube for the SC-05 Steam Mop. Please read this manual thoroughly before use to ensure safe and effective operation.

SETUP

The ACHTFACH Extension Tube is designed to increase the reach of your SC-05 Steam Mop, allowing access to higher or more distant areas. Follow these steps for proper assembly:

1. **Identify Connection Points:** Locate the connection points on your SC-05 Steam Mop and on the extension tube. One end of the extension tube will connect to the main unit, and the other end will connect to an accessory or another extension tube.
2. **Attach to Steam Mop:** Align the male end of the extension tube with the corresponding female receptacle on your SC-05 Steam Mop. Push firmly until it clicks securely into place. Ensure the connection is stable and does not wobble.
3. **Extend Reach (Optional):** If additional length is required, connect another extension tube to the first one using the same firm push-and-click method. You can connect multiple tubes as needed, ensuring each connection is secure.
4. **Attach Accessories:** Once the desired length is achieved, attach your chosen SC-05 Steam Mop accessory (e.g., nozzle, brush) to the free end of the last extension tube. Ensure this connection is also secure.

This image displays three individual ACHTFACH extension tubes. Each tube is white, cylindrical, and features connection points at both ends, designed for secure attachment to the SC-05 Steam Mop and its accessories. The tubes are shown at an angle, highlighting their length and design for extending reach.

OPERATING

Once the extension tube(s) and desired accessory are securely attached, operate your SC-05 Steam Mop as per its original instruction manual. The extension tube simply extends the reach of the steam output. Always ensure all connections are firm before activating the steam function.

- **Safety First:** Always ensure the steam mop is unplugged and cooled before attaching or detaching any accessories or extension tubes.
- **Secure Connections:** Verify that all connections are tight to prevent steam leakage or accidental detachment during operation.
- **Handle with Care:** When using the extension tubes, be mindful of the increased length and leverage. Support the mop head and handle to maintain control.

MAINTENANCE

Proper maintenance ensures the longevity and performance of your extension tube.

- **Cleaning:** After each use, wipe down the exterior of the extension tube with a damp cloth to remove any dirt or residue. Do not submerge the tube in water.
- **Drying:** Ensure the tube is completely dry before storing to prevent moisture buildup.
- **Storage:** Store the extension tube in a cool, dry place, away from direct sunlight and extreme temperatures. Avoid placing heavy objects on top of it to prevent deformation.
- **Inspect Connections:** Periodically inspect the connection points for any signs of wear, cracks, or damage. Replace the tube if any damage is observed to ensure safe operation.

TROUBLESHOOTING

If you encounter issues with your ACHTFACH Extension Tube, refer to the following common problems and solutions:

- **Problem:** Extension tube does not attach securely to the steam mop or accessory.
Solution: Ensure proper alignment of the connection points. Apply firm, even pressure until a click is heard or felt. Check for any obstructions or debris in the connection points.
- **Problem:** Steam leakage from connection points.
Solution: This indicates an improper or loose connection. Detach and reattach the tube, ensuring it is fully seated and locked. Inspect the rubber seals (if present) for damage or wear.
- **Problem:** Difficulty detaching the extension tube.
Solution: Ensure the steam mop is completely cooled down. Press any release buttons or tabs firmly while gently twisting and pulling the tube apart. Do not force the connection.

SPECIFICATIONS

Item Model Number	SC-05 Attachment suit
Manufacturer	ACHTFACH
Package Dimensions	15.33 x 2.13 x 1.73 inches
Item Weight	4.6 ounces
Batteries Required	No

WARRANTY INFORMATION

Specific warranty details for the ACHTFACH Extension Tube are not provided in this manual. For information regarding warranty coverage, terms, and conditions, please refer to the product packaging, the original purchase documentation, or contact the seller or manufacturer directly.

SUPPORT

If you require further assistance or have questions not covered in this manual, please contact the seller through your purchase platform or reach out to ACHTFACH customer support. Please have your product model number (SC-05 Attachment suit) and purchase details ready when contacting support.
