2. SAFETY INFORMATION

Please read and understand all safety warnings and instructions before assembly and use. Failure to follow these instructions can result in serious injury.

- Always assemble the bed frame according to the provided instructions to ensure stability.
- Be cautious when using the reversible ladder to prevent instability.
- The guardrails are 16.5 inches high. Ensure this height is sufficient for the user's safety, especially for younger children.
- Do not exceed the weight capacity: **440 pounds for the lower bed** and **330 pounds for the upper bed**. Exceeding these limits can lead to structural damage or collapse.
- An anti-tip device is included to enhance bed stability. Ensure it is properly installed.
- Do not allow rough housing or excessive jumping on the bunk bed.

3. SETUP AND ASSEMBLY

Assembly is required for this bunk bed. The package includes a detailed installation manual and all necessary accessories are labeled for easy identification.

3.1 Assembly Steps

1. Unpack all components and verify against the parts list in the included manual.
2. Follow the step-by-step instructions provided in the separate installation manual.
3. Do not fully tighten screws until the entire assembly is complete to allow for adjustments.
4. Install the anti-tip device as instructed to secure the bed to a wall.

3.2 Convertible Configuration

The bunk bed can be converted into two separate beds: one twin bed and one full bed. This provides flexibility for different room arrangements or as needs change.

5. MAINTENANCE

Regular maintenance will help prolong the life and ensure the safety of your bunk bed.

- Periodically check all bolts and screws to ensure they are tight. Retighten if necessary.
- Clean the metal frame with a soft, damp cloth. Avoid abrasive cleaners.
- Inspect the ladder and guardrails regularly for any signs of wear or damage.
- Ensure the anti-tip device remains securely attached to the wall.

6. TROUBLESHOOTING

If you encounter any issues with your bunk bed, please refer to the following common solutions:

- **Wobbling or Instability:** Ensure all bolts and screws are fully tightened. Verify that the anti-tip device is correctly installed and secured to a sturdy wall.
- **Noise:** Check for loose connections and tighten all hardware. Ensure mattresses are properly seated on the

bed frame.

- **Difficulty with Ladder:** Ensure the ladder hooks are fully engaged with the bed frame. If converting the bed, ensure the ladder is re-attached correctly to the desired side.
