Yaheetech Wooden Storage Cabinet Instruction Manual

Model: YT-00146079

Introduction

Thank you for choosing the Yaheetech Wooden Storage Cabinet. This versatile freestanding cabinet is designed to enhance organization in various spaces such as bathrooms, entryways, and kitchens. It features four drawers and a cupboard with an adjustable shelf, providing flexible storage solutions for your household items.
Please read this manual thoroughly before assembly and use to ensure safe and proper operation of your new storage cabinet.

Image Description: The Yaheetech Wooden Storage Cabinet in black, positioned in a modern bathroom. The cabinet features four drawers on the left and a single-door cupboard on the right, open to reveal adjustable shelves storing folded towels and various toiletries.

Safety Information

- **Anti-Tipping Kit:** Always use the provided anti-tipping kit to secure the cabinet to the wall. This prevents accidental tipping and ensures stability, especially in households with children or pets.
- **Drawer Safety:** The drawers are equipped with a built-in come-off preventing unit to stop them from accidentally sliding out completely, ensuring contents remain secure.
- **Weight Capacity:** Do not exceed the maximum weight capacity for the tabletop (77 lbs), drawers (9 lbs each), and shelves (22 lbs each). Overloading can compromise stability and cause damage.
- **Assembly:** Follow all assembly instructions carefully. Ensure all parts are correctly installed and tightened before use.
- **Placement:** Place the cabinet on a flat, stable surface. Avoid placing it in areas with excessive moisture or direct sunlight to prevent material damage.

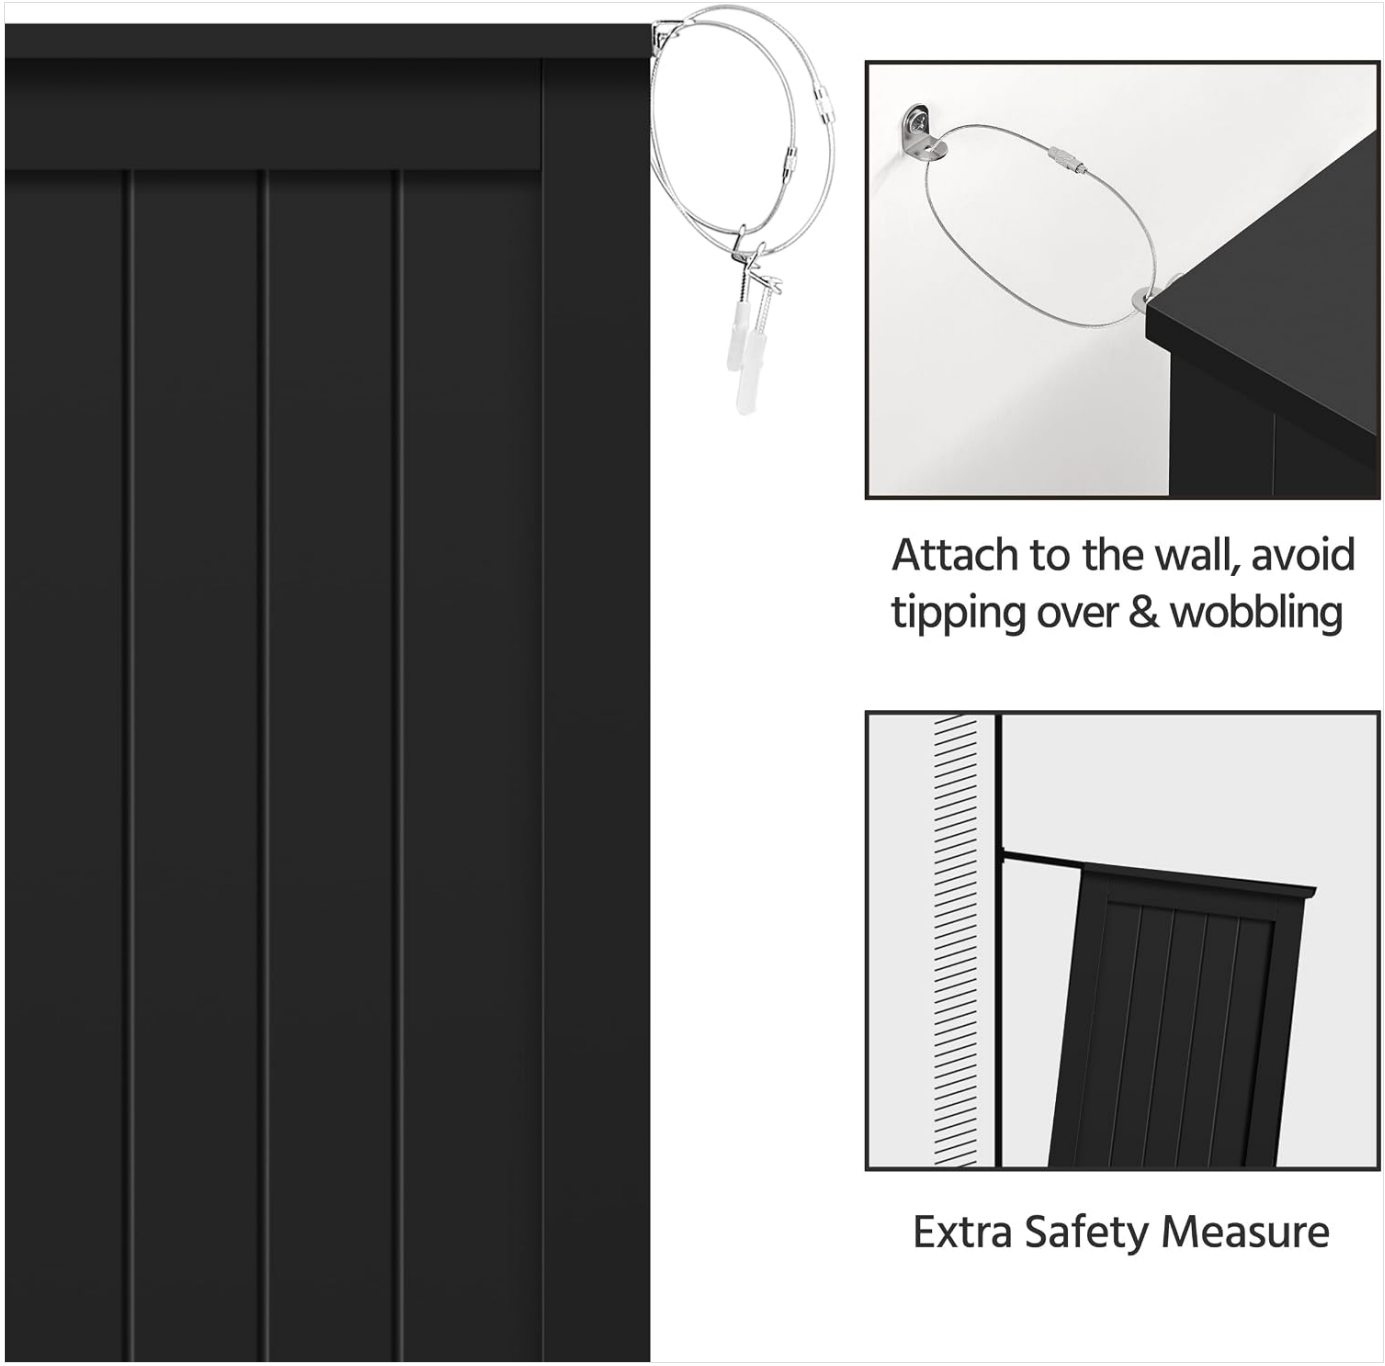

Image Description: A close-up view of the anti-tipping kit. A metal cable loop is shown attached to the top rear corner of the cabinet and secured to the wall with a bracket, illustrating an extra safety measure to prevent tipping.

Package Contents

Your Yaheetech Wooden Storage Cabinet package includes all necessary components for assembly. Please verify that all parts are present and undamaged before beginning assembly.

- Cabinet Panels (various sizes)
- 4 Drawers with arch openings
- 1 Cupboard Door
- Adjustable Shelves (3 total, 2 removable)
- Hardware (screws, dowels, hinges, magnetic catch, bronze knob)
- Anti-tipping kit
- Assembly Instructions

Setup and Assembly

The Yaheetech Wooden Storage Cabinet is designed for straightforward assembly. Please follow the included easy-to-read instructions step-by-step. All parts are clearly labeled to assist you.

1. Unpack all components and verify against the parts list.
2. Assemble the main frame of the cabinet using the provided hardware.
3. Install the adjustable shelves in the cupboard section at your desired height.
4. Assemble the four drawers and insert them into their respective slots.
5. Attach the cupboard door, ensuring the magnetic catch aligns properly.
6. Secure the cabinet to the wall using the anti-tipping kit for enhanced safety.

Note: An electric screwdriver or drill may expedite the assembly process, but is not strictly required.

Operating Instructions

Drawers:

The four drawers feature convenient arch openings for easy access. They are designed with internal stops to prevent them from being pulled out completely, ensuring contents remain secure. Simply pull the drawer gently to open and push to close.

Image Description: A close-up of the cabinet's four drawers, highlighting the integrated arch-shaped openings that serve as handles.

Cupboard with Adjustable Shelves:

The cupboard section includes one fixed lower shelf and two adjustable shelves. These adjustable shelves can be positioned at three different heights (12.5", 10", 7.5") to accommodate items of various sizes. To adjust a shelf, carefully lift it and reposition the support pins into the desired holes.

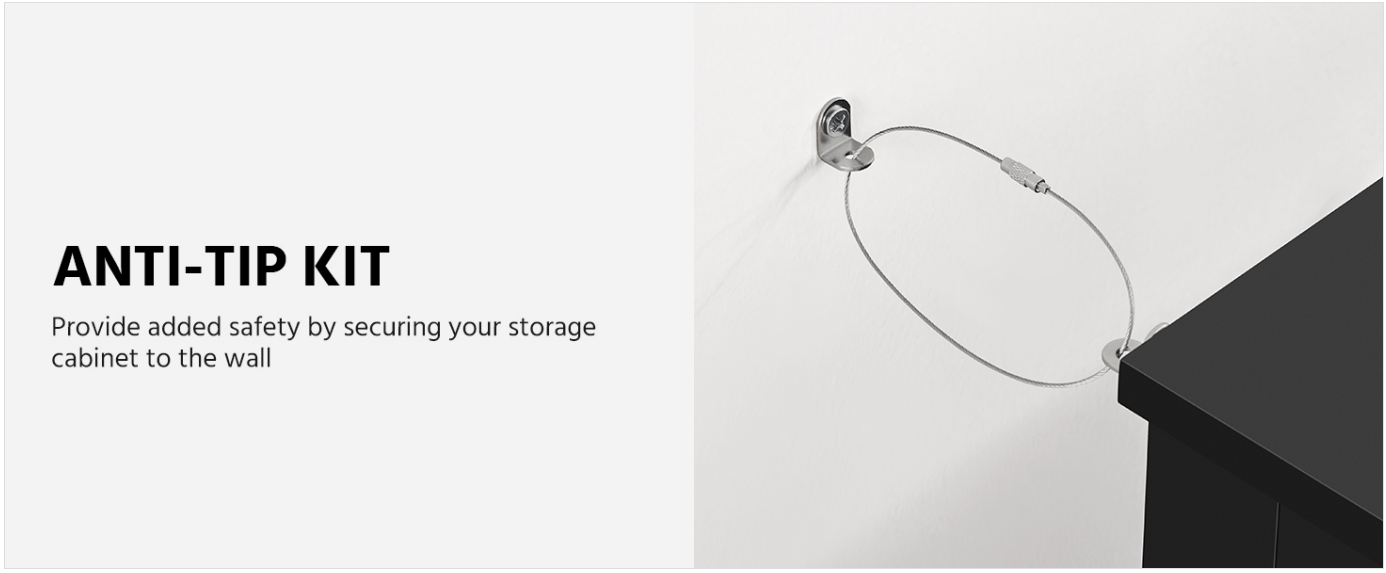

Image Description: A diagram illustrating the adjustable shelf feature within the cabinet's cupboard, showing three possible height settings.

The cupboard door is secured with a magnetic catch, ensuring it stays closed when not in use. To open, gently pull the bronze knob. To close, push the door until the magnet engages.

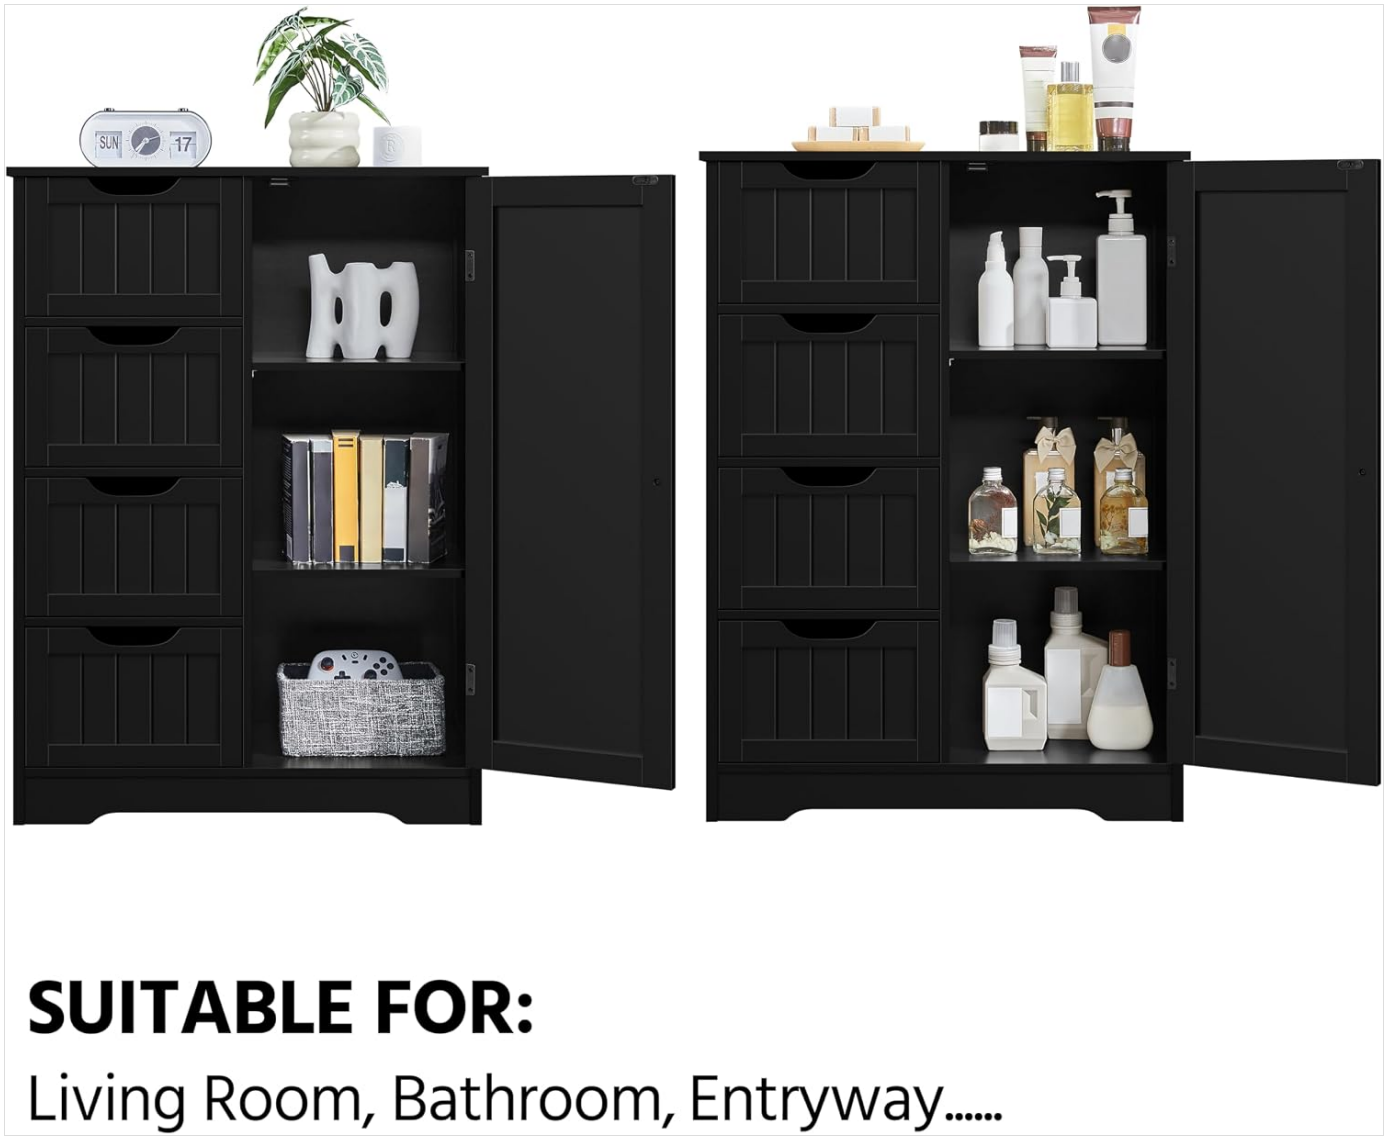

Image Description: A close-up of the cabinet's door, showing the bronze knob and the internal magnetic catch mechanism.

Maintenance

To maintain the appearance and longevity of your Yaheetech Wooden Storage Cabinet, follow these simple cleaning guidelines:

- **Cleaning:** Wipe down the cabinet surfaces with a soft, damp cloth. Avoid using harsh chemicals or abrasive cleaners, as these can damage the painted finish.
- **Spills:** Promptly wipe up any spills to prevent water damage or staining.
- **Inspection:** Periodically check all hardware and connections to ensure they remain tight. Retighten if necessary.

Troubleshooting

Drawers not sliding smoothly:

- Ensure the drawer slides are free of debris.
- Check that the drawer is correctly aligned within its runners.
- Apply a small amount of furniture wax or silicone spray to the runners for smoother operation.

Cabinet feels wobbly:

- Verify that the cabinet is placed on a level surface.
- Ensure all assembly screws are tightened securely.
- Confirm the anti-tipping kit is properly installed and secured to the wall.
