6. MAINTENANCE

6.1 Cleaning the TV

- Always unplug the TV before cleaning.
- Use a soft, dry, lint-free cloth to gently wipe the screen and TV body.
- For stubborn marks, lightly dampen the cloth with water or a specialized screen cleaner (ensure it's safe for TV screens). Never spray cleaner directly onto the screen.
- Avoid using abrasive cleaners, waxes, or solvents.

6.2 Software Updates

Your TV may receive software updates to improve performance and add new features. It is recommended to keep your TV's software updated.

1. Ensure your TV is connected to the internet.

2. Press the **Settings** button on your remote.

3. Navigate to **System** > **About** > **System update**.

4. Select **Check for update**.

5. Follow the on-screen prompts to download and install any available updates.

7. TROUBLESHOOTING

If you encounter issues with your TV, refer to the following common problems and solutions:

Problem	Possible Cause / Solution
No power	Check if the power cord is securely plugged into the TV and the wall outlet. Ensure the outlet is working.
No picture, but sound is present	Check the input source. Ensure the connected device is turned on and functioning correctly.
No sound, but picture is present	Check the volume level and mute status. Verify audio cable connections for external devices. Check TV sound settings.
Remote control not working	Replace the batteries. Ensure there are no obstructions between the remote and the TV's IR sensor.
Cannot connect to Wi-Fi	Ensure your Wi-Fi router is on and within range. Re-enter the Wi-Fi password carefully. Try restarting the TV and router.
Apps are slow or freezing	Close unused apps. Clear app cache (Settings > Apps > See all apps > [App Name] > Clear cache). Ensure a stable internet connection.

If the problem persists after trying these solutions, please contact customer support.
