User Manual: 10.25 High Definition Central Information Display

Brand: **Acouto** | Model: **Acoutouno38dmtbq**

1. Introduction

This manual provides detailed instructions for the installation, operation, and maintenance of your new Acouto 10.25 High Definition Central Information Display Touch Screen. This product is designed as a premium replacement dashboard screen for specific vehicle models, offering a responsive touch experience and clear visuals for GPS navigation and other vehicle information.

2. Important Safety Information

- **Professional Installation Recommended:** Due to the complexity of automotive electronics, it is strongly recommended that installation be performed by a qualified professional to ensure proper function and avoid damage to the vehicle or product.
- **Disconnect Power:** Always disconnect the vehicle's battery before beginning any installation work to prevent electrical shorts or damage.
- **Handle with Care:** The display screen is a delicate electronic component. Handle it carefully to avoid scratches, cracks, or internal damage.
- **Avoid Liquids:** Keep the display away from water and other liquids. Exposure to moisture can cause severe damage.
- **Verify Compatibility:** Double-check the part number and fitment information to ensure compatibility with your specific vehicle model and year.

3. Package Contents

Please verify that all items are present in the package:

4. Setup and Installation

This display is designed for replaceable installation. For optimal results and to prevent damage, professional installation is highly advised.

4.1. Pre-Installation Checklist

- Ensure the vehicle is turned off and the ignition key is removed.
- Disconnect the negative terminal of the vehicle's battery.
- Gather necessary tools (e.g., trim removal tools, screwdrivers, wrenches).
- Review the vehicle's specific service manual for dashboard disassembly instructions.

4.2. Installation Steps (General Guide)

1. Carefully remove the existing dashboard trim and the old display screen according to your vehicle's service manual.
2. Disconnect all cables from the old display.
3. Connect the corresponding cables from your vehicle to the new Acouto display. Ensure all connections are secure.
4. Carefully position the new display into the dashboard opening.
5. Secure the new display using the original mounting hardware.
6. Reinstall any removed dashboard trim pieces.
7. Reconnect the vehicle's battery.
8. Turn on the vehicle and test the new display's functionality.

5. Operating Instructions

The Acouto Central Information Display integrates seamlessly with your vehicle's existing system, providing an enhanced visual and interactive experience. Its primary function is to display information from your car's infotainment system, including GPS navigation, media, and vehicle settings.

5.1. Basic Operation

- **Touch Screen Interaction:** The display features a premium touch experience with scratch-resistant glass. Interact with on-screen elements by tapping, swiping, and pinching (if supported by your vehicle's system).
- **Clear Visuals:** The high-definition screen ensures vibrant and true color restoration, providing a visually relaxing and clear view of all displayed information.
- **GPS Navigation:** Utilize the screen for clear and detailed GPS navigation maps, enhancing your driving experience.
- **Vehicle Information:** Access various vehicle settings, media controls, and other central information as provided by your car's system.

6. Maintenance

Proper care will ensure the longevity and optimal performance of your display screen.

- **Cleaning the Screen:** Use a soft, lint-free microfiber cloth to gently wipe the screen. For stubborn smudges, slightly dampen the cloth with a screen-specific cleaner or distilled water. **Do not** spray cleaner directly onto the screen.
- **Avoid Harsh Chemicals:** Do not use abrasive cleaners, ammonia-based solutions, or solvents, as these can damage the screen's coating.
- **Protect from Direct Sunlight:** Prolonged exposure to direct sunlight can cause overheating or screen degradation. When parked, consider using a sunshade.
- **Temperature Control:** Avoid exposing the display to extreme temperatures, both hot and cold, as this can affect

performance and lifespan.

7. Troubleshooting

If you encounter issues with your display, refer to the following common problems and solutions:

Problem	Possible Cause	Solution
Screen does not turn on	Loose cable connection; Blown fuse; Vehicle power issue	Check all cable connections; Inspect vehicle fuses; Consult a professional if power issues persist.
Touch screen unresponsive or slow	Software glitch; Screen calibration issue; Physical damage	Restart vehicle; Check for any obstructions on screen; If problem persists, professional diagnosis may be needed.
Distorted or no image	Loose video cable; Incorrect settings; Internal display fault	Verify video cable connection; Check vehicle's display settings; Contact support if issue continues.
Display flickers	Unstable power supply; Loose connection; Software conflict	Ensure stable power; Check connections; Consult vehicle's manual or professional.
