COZIWOW Cat Exercise Wheel Treadmill User Manual

Model: CWP0314-A09N01 | Brand: COZIWOW

1. INTRODUCTION

Thank you for choosing the COZIWOW Cat Exercise Wheel Treadmill. This product is designed to provide an engaging and safe exercise outlet for indoor cats, promoting physical activity and mental stimulation. Regular use can help reduce boredom and maintain your cat's overall well-being. This manual provides essential information for assembly, operation, maintenance, and troubleshooting to ensure optimal use of your cat's new exercise wheel.

Image 1.1: A cat actively using the COZIWOW Cat Exercise Wheel Treadmill.

2. SAFETY INFORMATION

- Always supervise your cat during initial use to ensure they adapt safely to the exercise wheel.
- Ensure the exercise wheel is placed on a flat, stable surface to prevent tipping.
- Keep children and other pets away from the exercise wheel when a cat is using it to avoid accidents.
- Regularly inspect the wheel for any loose parts, damage, or wear and tear. Discontinue use if any issues are found until repairs are made.
- Utilize the locking mechanism when the wheel is not in use or when moving it to prevent unintended rotation.
- Do not exceed the maximum weight capacity of 45 lbs (20.4 kg).

3. PACKAGE CONTENTS

Please check the package contents carefully to ensure all parts are present and undamaged.

- 1 x Cat Exercise Wheel (components for assembly)
- 1 x User Manual (this document)

- 1 x Cat Teaser Toy

4. ASSEMBLY INSTRUCTIONS

The COZIWOW Cat Exercise Wheel is designed for easy assembly, typically taking less than 10 minutes. Follow these steps carefully:

Image 4.1: Visual guide for the assembly process.

1. **Mount the Cat Wheel:** Securely attach the main wheel components using the provided fasteners. Ensure all connections are tight.
2. **Install the Running Pads:** The carpeted running pads attach inside the wheel using Velcro. Align them carefully and press firmly to secure.
3. **Place on the Base:** Position the assembled wheel onto the base, ensuring the rollers align correctly with the wheel's track.
4. **Attach the Safety Latch:** Install the safety latch mechanism onto the base. This allows you to lock the wheel when not in use.

Once assembled, gently rotate the wheel by hand to ensure it moves smoothly and quietly.

5. OPERATING INSTRUCTIONS

Introducing Your Cat to the Wheel:

- **Initial Familiarization:** Place the wheel in a quiet, accessible area. Allow your cat to explore it at their own pace.

- **Positive Reinforcement:** Use treats or the included cat teaser toy to encourage your cat to step onto the running surface.

- **Gentle Encouragement:** Once your cat is on the wheel, gently entice them to walk or run using the teaser. Start with short sessions.

- **Patience is Key:** Some cats may take longer to adapt. Never force your cat onto the wheel. Keep training sessions positive and short.

Using the Locking Mechanism:

The exercise wheel features a locking mechanism to secure the wheel when not in use. Engage the latch to prevent rotation, which is useful for safety during transport or when you want to prevent your cat from using it. Disengage the latch for free movement.

6. Maintenance

- **Cleaning the Running Pads:** The carpeted runway is attached with Velcro and can be easily detached for cleaning. Vacuum regularly to remove cat hair and debris. For deeper cleaning, hand wash with mild soap and water, then air dry completely before reattaching.

- **Cleaning the Wheel and Base:** Wipe down the plastic surfaces of the wheel and base with a damp cloth and mild, pet-safe cleaner. Avoid abrasive cleaners.

- **Roller Inspection:** Periodically check the rollers on the base for any accumulated hair or debris that might impede smooth operation. Clean as necessary.

- **General Inspection:** Regularly check all screws and fasteners to ensure they remain tight. Inspect the entire unit for any signs of damage or wear.

7. Troubleshooting

Problem	Possible Cause	Solution
Cat is not using the wheel.	Lack of interest, fear, or unfamiliarity.	- Use treats or toys to entice your cat. - Place the wheel in a high-traffic area your cat frequents. - Be patient; some cats need more time to adjust. - Ensure the wheel is unlocked and spins freely.
Wheel is not spinning smoothly or is noisy.	Debris in rollers, loose components, or improper assembly.	- Check rollers for cat hair or debris and clean them. - Ensure all assembly fasteners are tightened. - Verify the wheel is correctly seated on the base rollers.
Wheel feels unstable.	Uneven surface or loose base components.	- Place the wheel on a flat, level surface. - Check and tighten all screws connecting the base components.

8. Specifications

Image 8.1: Product dimensions overview.

| Feature	Detail
Model Number	CWP0314-A09N01
Material	Polypropylene (PP)
Overall Dimensions (L x W x H)	31.5"L x 13.2"W x 33.86"H (approx. 80L x 33.5W x 86H cm)
Running Wheel Diameter (Inner)	28.94" (approx. 73.5 cm)
Running Wheel Diameter (Outer)	31.5" (approx. 80 cm)
Running Wheel Width	10.83" (approx. 27.5 cm)
Base Dimensions (L x W x H)	31.5"L x 13.4"W x 5.91"H (approx. 80L x 34W x 15H cm)
Max. Weight Capacity	45 lbs (approx. 20.4 kg)
Net Weight	16.53 lbs (approx. 7.5 kg)
Color	Black (with red carpet)
