AEAC Smart Watch for Women - User Manual

Model: IDW28 | Brand: aeac

1. Introduction

Welcome to your new AEAC Smart Watch! This manual provides detailed instructions to help you set up, operate, and maintain your device. Designed for women, this smartwatch features a vibrant 1.85" HD display, crystal-clear Bluetooth 5.3 calling, and comprehensive health monitoring capabilities including heart rate, sleep, and SpO2 tracking. With over 100 sport modes and IP68 waterproofing, it's built to support your active lifestyle. Enjoy seamless compatibility with both iOS and Android smartphones and up to 7 days of battery life on a single charge.

2. What's Included

Your AEAC Smart Watch package includes the following items:

- AEAC Smart Watch (Rose Gold)
- Silicone Wrist Band (Rose Gold)
- Braided Fabric Wrist Band (Rose Gold)
- Magnetic Charging Cable
- User Manual

The smartwatch with its standard silicone band and the magnetic charging cable.

3. Setup Guide

3.1 Initial Charging

Before first use, fully charge your smartwatch. Connect the magnetic charging cable to the charging points on the back of the watch. Plug the USB end into a compatible power adapter (not included). A full charge provides up to 7 days of battery life.

3.2 App Installation & Pairing

The AEAC Smart Watch is compatible with both Android (6.0+) and iOS (9.0+) smartphones. Download the companion app (refer to the user manual for the specific app name) from your device's app store. Follow the in-app instructions to pair your smartwatch via Bluetooth 5.3 for seamless connectivity and data synchronization.

3.3 Customization

Personalize your watch experience by customizing watch faces. The 1.85" HD display allows for crisp visuals. You can upload personal photos or choose from over 100 pre-designed watch faces via the app.

Customize your watch face with personal photos or choose from a wide selection available in the app.

Watch this official video from aeac demonstrating various functions and setup aspects of the smartwatch.

4. Operating Your Smart Watch

4.1 Basic Navigation

Navigate the smartwatch using its responsive 1.85" HD touchscreen. Swipe left, right, up, and down to access different features and menus. The side button typically serves as a home button or to wake the screen.

4.2 Bluetooth Calls & Notifications

With Bluetooth 5.3 and a built-in DSP chip, enjoy ultra-clear call quality directly from your wrist with zero lag. Receive real-time

SMS and app notifications (e.g., Facebook, Twitter, TikTok, Email) directly on your smartwatch. Note: Replying to messages is not supported.

4.3 Health Monitoring

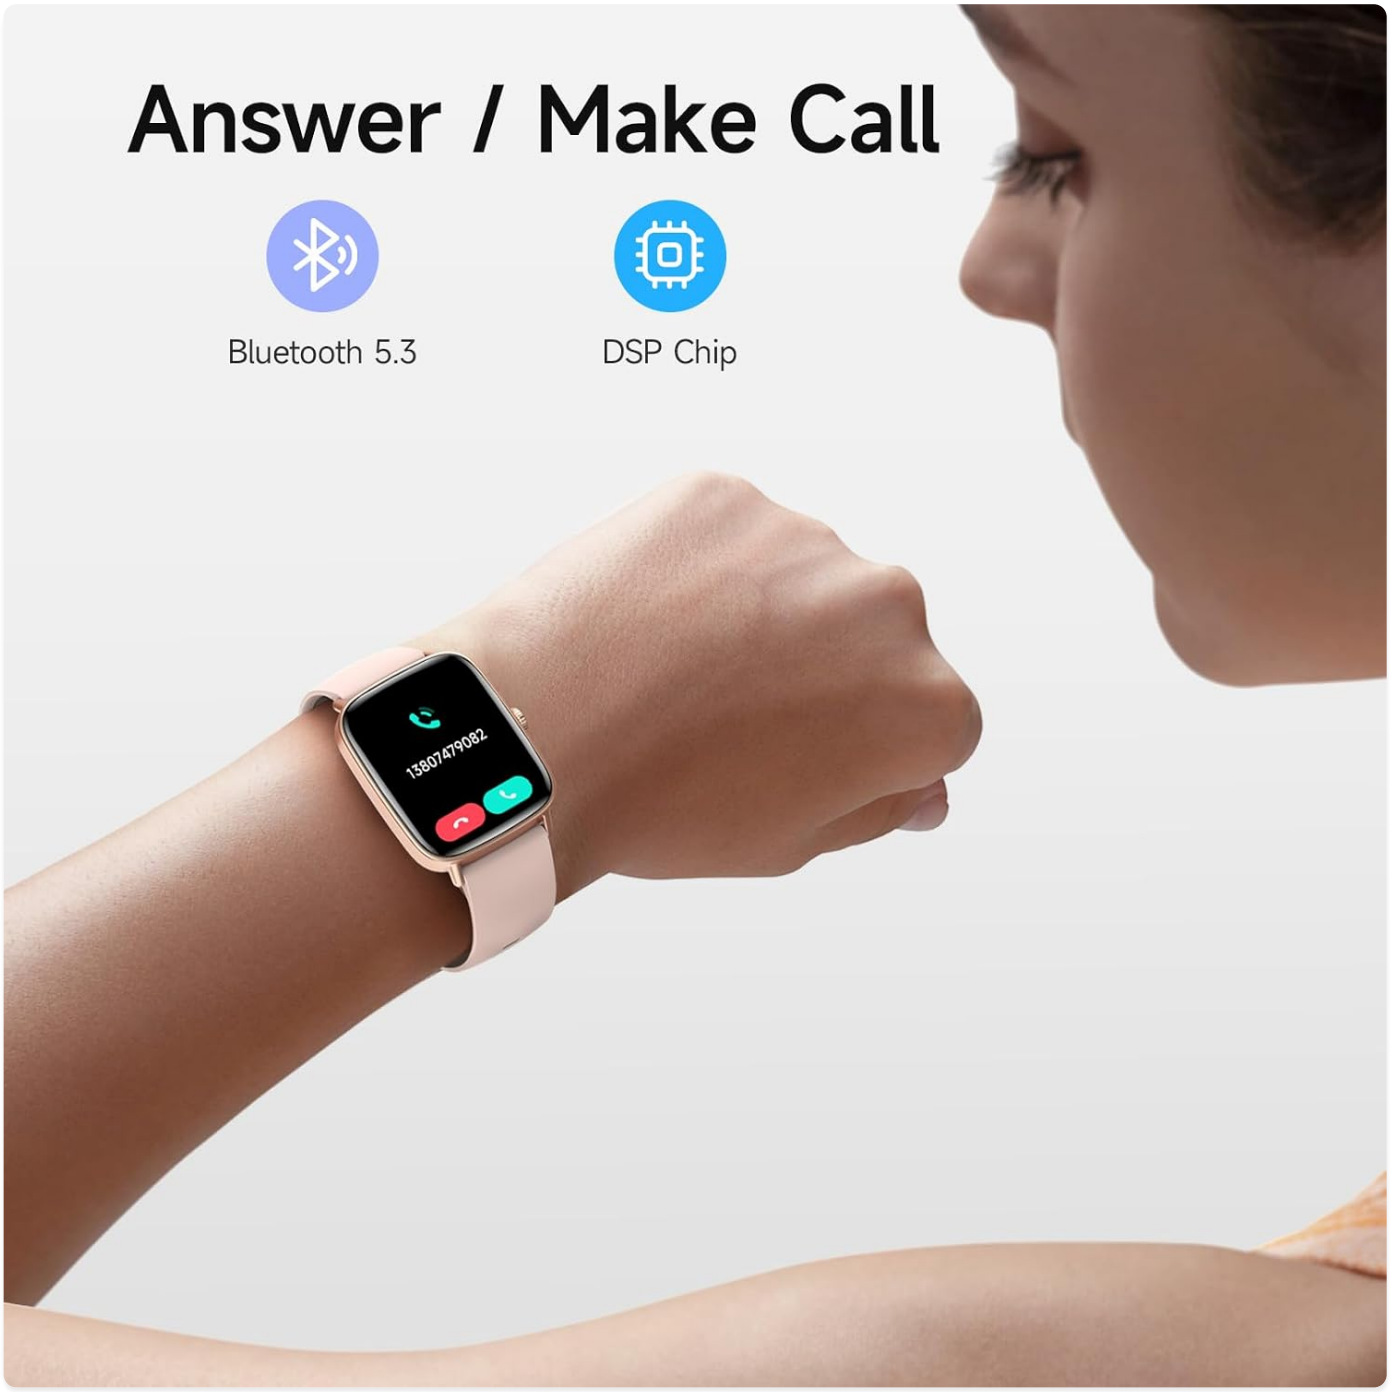

Track your health 24/7 with advanced sensors. The smartwatch monitors your heart rate, sleep stages (deep, light, REM), stress levels, and blood oxygen (SpO2). This data helps you make informed choices for a healthier lifestyle.

Screenshots of the smartwatch interface showing real-time data for heart rate, sleep patterns, blood oxygen levels, and stress monitoring.

4.4 Fitness Tracking

Elevate your workouts with over 100 sport modes, including running, swimming, yoga, and more. The IP68 waterproof design ensures the watch is ready for various activities, from the gym to the pool, capable of working at depths of up to 2 meters underwater.

4.5 Smart Reminders & Multi-functional Features

Stay proactive with smart reminders for water intake, menstrual cycle tracking, and sedentary alerts. The watch also offers handy features like music control, camera shutter, weather updates, alarm clock, and a 'Find Phone' function, all accessible from your wrist.

An overview of additional smart features available on the watch, including phone finding, alarm, weather, music control, and exercise analysis.

5. Maintenance

5.1 Cleaning

Regularly clean your smartwatch and bands with a soft, damp cloth. Avoid using harsh chemicals or abrasive materials that could damage the device or its finish. Ensure the charging contacts are clean and dry before charging.

5.2 Water Resistance

The AEAC Smart Watch is IP68 waterproof, meaning it can withstand submersion up to 2 meters for a limited time. It is suitable for swimming, showering, and sweating. However, avoid prolonged exposure to hot water, steam, or high-pressure water jets, as this may compromise the seal.

5.3 Battery Care

To maximize battery lifespan, avoid fully discharging the watch frequently. Charge the device when the battery level is low. Store the watch in a cool, dry place when not in use for extended periods.

6. Troubleshooting

If you encounter any issues with your AEAC Smart Watch, please refer to the following common solutions:

- **Connectivity Issues:** Ensure Bluetooth is enabled on your smartphone and the watch is within range. Try restarting both devices and re-pairing through the app.
- **Charging Problems:** Check that the magnetic charging cable is securely attached to the watch's charging points and the USB end is properly connected to a power source. Ensure contacts are clean.
- **Inaccurate Readings:** For health tracking, ensure the watch is worn snugly on your wrist, about one finger's width above your wrist bone.
- **App Synchronization:** Verify that the app is updated to the latest version and your phone has a stable internet connection.

For further assistance, please contact our customer support team as detailed in the Warranty & Support section.

7. Specifications
