TDLOL X65

TDLOL X65 30000mAh Portable Misting Fan User Manual

Model: X65

Product Overview Safety Instructions Setup Operation Maintenance Troubleshooting Specifications Warranty & Support

1. Product Overview

The TDLOL X65 is a versatile 30000mAh portable misting fan designed for both indoor and outdoor use. It features a powerful fan with multiple speed settings, various mist modes, automatic oscillation, and an RGB ambient light. Its large battery capacity ensures extended operation, making it ideal for camping, travel, and other outdoor activities.

Package Contents

- 1 × TDLOL X65 Misting Fan (with built-in water tank and portable handle)
- 1 × 12V Charger Adapter
- 1 × User Manual

2. Important Safety Instructions

- Read all instructions before using the appliance.
- Do not immerse the fan in water or other liquids.
- Keep out of reach of children and pets.

- Use only the provided 12V charger adapter.
- Ensure the water tank is securely closed before operating the misting function.
- Always use clean water in the misting tank to prevent clogging and ensure proper function.
- Do not block the fan blades or air inlets/outlets during operation.
- Avoid placing the fan on unstable surfaces.
- Do not attempt to disassemble or repair the unit yourself. Contact customer support if needed.

3. Setup

3.1 Charging the Fan

Before first use, fully charge the fan. The 30000mAh battery requires approximately 4-6 hours for a full charge using the provided 12V charger adapter. The fan features built-in protection against overcharging and overheating.

1. Connect the 12V charger adapter to the DC input connector on the fan.
2. Plug the adapter into a standard wall outlet.
3. The charging indicator lights will show the charging status.
4. Once fully charged, disconnect the adapter.

Image: The DC input connector located on the fan base for charging.

3.2 Filling the Water Tank for Misting

The fan is equipped with a 2L water tank for the misting function. Always use clean water to prevent nozzle clogging.

1. Locate the water filling port on the side of the fan.
2. Open the leak-proof cover of the filling port.
3. Carefully pour clean water into the 2L water tank. Do not overfill.

4. Securely close the leak-proof cover to prevent spills.

Image: A visual guide demonstrating the four steps to easily add water to the portable spray fan's tank.

4. Operating Instructions

The control panel is located on the front of the fan, featuring buttons for fan, spray, and light functions.

4.1 Fan Operation

- **Power On/Off:** Press the **Fan** button once to turn on the fan at Speed 1. Press again to cycle through speeds. Long press to turn off.
- **Adjusting Wind Speed:** Repeatedly press the **Fan** button to cycle through 4 wind speeds (Speed 1, Speed 2, Speed 3, Speed 4).

Image: The fan displaying its adjustable speeds and estimated battery life for each setting (e.g., Speed 1 up to 60H, Speed 4 up to 26H).

4.2 Misting Function

- **Activate Mist:** Press the **Spray** button once to activate the continuous mist mode.
- **Change Mist Mode:** Repeatedly press the **Spray** button to cycle through 4 spray mist modes:
  - Mode 1: Continuous Spraying (approx. 30 minutes)
  - Mode 2: 3 Seconds Spray, 3 Seconds Stop
  - Mode 3: 5 Seconds Spray, 3 Seconds Stop
  - Mode 4: 7 Seconds Spray, 3 Seconds Stop
- **Deactivate Mist:** Continue pressing the **Spray** button until the mist function turns off.

Image: The fan illustrating its four distinct spray mist modes, from continuous to intermittent.

4.3 Oscillation and Angle Adjustment

- **Automatic Oscillation:** Long press the **SW** button for 2 seconds to activate 120° automatic left/right oscillation. Long press again to stop.
- **Manual Vertical Adjustment:** The fan head can be manually adjusted up to 270° vertically to direct airflow.

5. Maintenance

5.1 Cleaning

- Always unplug the fan before cleaning.
- Wipe the exterior of the fan with a soft, damp cloth. Do not use abrasive cleaners or solvents.
- For the water tank, regularly empty and rinse it with clean water to prevent mineral buildup and bacterial growth.
- If misting nozzles become clogged, gently clean them with a small brush or cotton swab. Using only clean water helps prevent this.

5.2 Storage

- When not in use for extended periods, ensure the water tank is empty and dry.
- Store the fan in a cool, dry place, away from direct sunlight and extreme temperatures.

6. Troubleshooting

Problem	Possible Cause	Solution
Fan does not turn on.	Battery is depleted.	Charge the fan using the provided adapter.
Misting function not working or weak mist.	Water tank is empty. Nozzles are clogged. Water tank not properly sealed.	Refill the water tank. Clean the misting nozzles. Ensure the water tank cover is securely closed.
Water leakage from tank.	Water tank cover not sealed properly. Tank damage (e.g., cracks).	Ensure the water tank cover is securely closed. If the tank is damaged, discontinue use and contact customer support.
Fan makes unusual noise.	Obstruction in fan blades. Unit not on a stable surface.	Check for and remove any obstructions. Place the fan on a flat, stable surface.

7. Specifications

Feature	Detail
Brand	TDLOL
