VOUNOT Dome Greenhouse 160x160x180cm Instruction Manual

Model: 15168804159837

INTRODUCTION

This manual provides essential instructions for the assembly, operation, and maintenance of your VOUNOT Dome Greenhouse. Designed to protect your plants year-round, this greenhouse offers a stable environment for growth. Please read these instructions carefully before assembly and use to ensure proper function and longevity of the product.

SAFETY INFORMATION

- Always assemble and disassemble the greenhouse with care to avoid injury from sharp edges and heavy components.
- Ensure the greenhouse is properly anchored to prevent it from being blown over or damaged by strong winds.
- Regularly inspect the structure for any signs of wear or damage. Perform necessary maintenance to prolong its lifespan and ensure safety.
- Keep the greenhouse away from direct sunlight for extended periods to prevent UV damage to the cover material.
- Do not use the greenhouse in extreme weather conditions without additional reinforcement.

PACKAGE CONTENTS

Before beginning assembly, verify that all components listed below are present and undamaged.

- 1 x Dome Greenhouse Cover (135g/m² high-density polyethylene)
- Steel Frame Components (16mm diameter sprayed steel tubes)
- 7 x Nylon Ties
- 12 x Fixing Stakes
- Assembly Instructions (this manual)

SETUP INSTRUCTIONS

Assembly of the VOUNOT Dome Greenhouse is designed to be straightforward. Follow these steps for quick and efficient setup.

- 1. Unpack Components:** Carefully remove all parts from the packaging and lay them out on a clean, flat surface. Verify against the package contents list.
- 2. Assemble Frame:** Connect the steel tubes according to the frame diagram. Ensure all connections are secure. The frame forms a dome shape.

Image: Close-up of the steel frame connectors, showing how the tubes interlock to form the dome structure.

- 3. Drape Cover:** Carefully place the polyethylene cover over the assembled steel frame. Ensure the zippered door is correctly positioned.
- 4. Secure Cover to Frame:** Use the provided nylon ties to secure the cover to the steel frame at various points, especially along the base and vertical supports, to prevent it from shifting.

Image: Demonstrates the use of nylon ties to fasten the cover to the frame and the ground stakes for anchoring.

5. **Anchor Greenhouse:** Position the greenhouse in your desired location. Use the 12 fixing stakes to firmly anchor the base of the greenhouse into the ground. For additional security, especially in windy areas, utilize the 7 nylon cords to tie down the greenhouse to external anchor points (not included).

OPERATING INSTRUCTIONS

The VOUNOT Dome Greenhouse is designed for year-round plant protection and growth. Here's how to optimize its use:

- **Access and Ventilation:** Use the zippered door for easy access to your plants. The integrated velcroed mosquito net allows for improved airflow and temperature regulation while keeping pests out. Open the net during warmer periods for ventilation.

Image: Detail of the zippered entrance and the roll-up mosquito net, illustrating its function for airflow and pest control.

- **Seasonal Use:** The greenhouse's reinforced cover and sturdy frame provide protection against rain, snow, and wind, making it suitable for wintering delicate plants. Its dome shape ensures even light distribution for optimal growth in all seasons.

Image: Depicts the greenhouse's effectiveness in providing shelter for plants during both sunny and snowy weather.

- **Plant Placement:** Arrange your potted plants and vegetables inside, ensuring adequate space for growth and air circulation.

MAINTENANCE

- **Regular Inspection:** Periodically check the steel frame for any signs of rust or damage. Inspect the cover for tears, punctures, or excessive wear. Address any issues promptly to maintain the greenhouse's integrity.
- **Cleaning:** Clean the polyethylene cover with mild soap and water as needed to ensure maximum light penetration. Avoid abrasive cleaners.
- **Anchoring Check:** Regularly verify that the fixing stakes and nylon cords are securely in place, especially after strong winds or heavy rainfall.
- **UV Protection:** While the cover is UV-resistant, prolonged exposure to intense direct sunlight can degrade materials over time. Consider relocating or providing additional shade during extreme summer heat if possible.
- **Disassembly:** If disassembling for storage, carefully reverse the assembly steps. Clean and dry all components before storing them in a cool, dry place to prevent mold or rust.

TROUBLESHOOTING

If you encounter any issues with your VOUNOT Dome Greenhouse, please refer to the following common solutions:

- **Greenhouse Instability:** Ensure all frame connections are tight and the greenhouse is properly anchored with all stakes and nylon cords. Check for loose ground.
- **Water Accumulation on Cover:** The dome design is intended to prevent this. If water pools, check the frame for proper assembly and ensure the cover is taut and evenly distributed over the frame.
- **Pest Entry:** Ensure the zippered door is fully closed and the velcroed mosquito net is properly sealed. Inspect for any small tears in the cover.

For issues not covered here, please contact VOUNOT customer support.

SPECIFICATIONS

Model Number	15168804159837
Brand	VOUNOT
Dimensions (L x W x H)	160 x 160 x 180 cm (62.99 x 62.99 x 70.87 inches)  <p>180cm / 70.8in</p> <p>160cm / 63in</p> <p>x 7</p> <p>x 12</p> <p>EU standard = cm US/UK standard = in</p>
Frame Material	Alloy Steel (16mm diameter sprayed steel tubes)
Cover Material	135g/m ² High-Density Polyethylene (PE)
Color	Green
Item Weight	3.57 kg (7.85 pounds)

Number of Doors	1 (with zippered access and velcroed mosquito net)
Usage	Outdoor

WARRANTY AND SUPPORT

For warranty information or technical support regarding your VOUNOT Dome Greenhouse, please refer to the product packaging or contact VOUNOT customer service directly through their official website or the retailer where the product was purchased. Please have your model number (15168804159837) and purchase details ready when contacting support.
