Letaya R694

Letaya Metal Storage Cabinet User Manual

Model: R694

1. INTRODUCTION

Thank you for choosing the Letaya Metal Storage Cabinet. This manual provides essential information for the safe and efficient assembly, operation, and maintenance of your new storage unit. Please read these instructions thoroughly before beginning assembly or use to ensure proper functionality and longevity of the product.

2. SAFETY INFORMATION

- Always assemble the cabinet on a flat, stable surface to prevent tipping.
- Ensure all screws and fasteners are securely tightened before use. Periodically check and re-tighten as necessary.
- Do not overload shelves. Adhere to the maximum weight capacity specified in the 'Specifications' section.
- Keep small parts and assembly tools away from children during assembly.
- When moving the cabinet, especially with contents, ensure the detachable wheels are securely locked or removed if not in use.
- Avoid placing heavy objects on the top of the cabinet that could cause instability.
- For added stability, consider mounting the cabinet to a wall using the pre-drilled holes on the back, especially in areas prone to seismic activity or if children are present.

3. PACKAGE CONTENTS

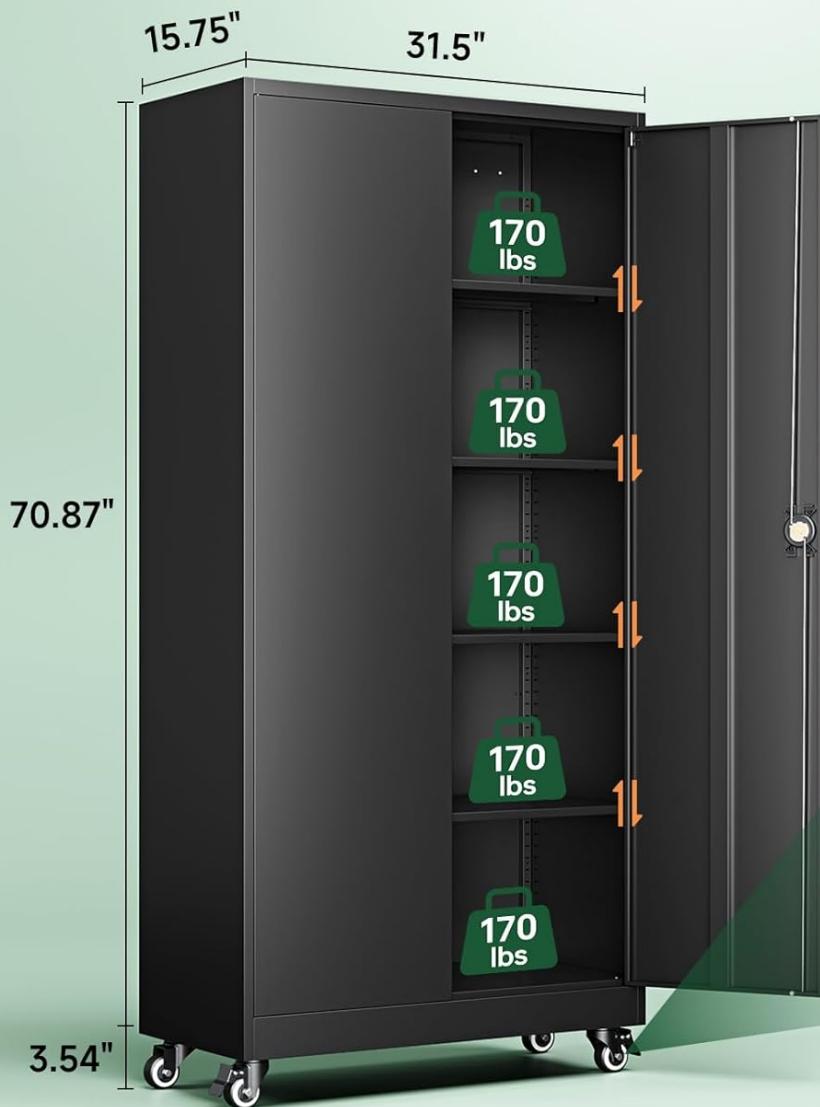

Before assembly, verify that all components are present and undamaged. If any parts are missing or damaged, please contact customer support.

- Storage Cabinet Panels (sides, top, bottom, back, doors)
- Adjustable Shelves (4 included)
- Detachable 360° Rolling Wheels (4 included)
- Locking Mechanism with 2 Keys
- Assembly Hardware (screws, nuts, bolts)
- Installation Tools (screwdriver, wrench)
- Detailed Assembly Instructions

4. ASSEMBLY INSTRUCTIONS

Assembly typically takes approximately 30 minutes. Follow the step-by-step instructions provided in the included assembly guide. It is recommended to have a second person assist with certain steps, especially when aligning larger panels.

PRODUCT DIMENSION

**Easy To Assemble
30 min**

360° rolling detachable wheels can be installed or removed as needed.

**Total wheel capacity:
850 lbs**

**The size of the wheels:
3.54"**

This diagram illustrates the overall dimensions and individual shelf weight capacity of the cabinet, along with an estimated assembly time of 30 minutes.

An overview of the fully assembled cabinet, highlighting its spacious interior and the included detachable wheels.

Key Assembly Tips:

- Lay out all parts and identify them using the labels (A, B, C, D, etc.) before starting. If labels are missing, refer to the diagrams in the manual.
- Ensure panels are oriented correctly before tightening screws. Incorrect alignment can make subsequent steps difficult.
- While power tools can speed up assembly, use them with caution and low torque settings to avoid stripping screws or damaging the metal. The included manual screwdriver and wrench are sufficient.
- The most challenging part for some users is connecting the two side panels after attaching the back panel. It may be easier to stand the unit upright for certain screw placements.
- Install the doors as the final step of the main cabinet assembly.

5. PRODUCT FEATURES AND OPERATION

5.1 Durable Metal Construction

The cabinet is constructed from 0.8mm thick steel, providing ruggedness and resistance to deformation. The environmentally friendly powder-coated finish offers protection against moisture, corrosion, and rust, ensuring long-term durability.

5.2 Adjustable Shelves

The cabinet features four adjustable shelves, allowing you to customize the storage space to accommodate items of various heights. Each shelf can hold up to 180 lbs, providing robust support for tools, supplies, and other heavy items.

Adjust the cross bars according to different heights

This image demonstrates the adjustability of the shelves, allowing for flexible storage configurations.

5.3 Secure Locking System

An upgraded three-point lock system with thickened steel rods provides enhanced security for your valuables. The doors also feature anti-collision reinforcements, ensuring quiet operation and protecting the cabinet when opening or closing.

The cabinet integrated into an office space, showcasing its utility for professional storage.

The cabinet positioned in a garage, demonstrating its capacity for organizing tools and workshop items.

7. MAINTENANCE AND CARE

- Cleaning:** Wipe the cabinet surfaces with a soft, damp cloth. Avoid abrasive cleaners or harsh chemicals that could damage the powder-coated finish.
- Rust Prevention:** While the cabinet is moisture-proof and rust-resistant, avoid prolonged exposure to excessive moisture or corrosive substances. Promptly clean any spills.
- Hardware Check:** Periodically inspect all screws and fasteners to ensure they remain tight. Re-tighten if any looseness is detected.
- Shelf Capacity:** Do not exceed the maximum weight capacity of 180 lbs per shelf to prevent bending or damage.

8. TROUBLESHOOTING

- Difficulty during Assembly:** If parts do not align easily, double-check the orientation of the panels against the assembly instructions. Ensure no screws are overtightened prematurely, which can cause misalignment.
- Cabinet Instability:** Ensure the cabinet is placed on a level surface. If using wheels, ensure all four wheels are locked when stationary. For permanent stability, consider wall mounting using the pre-drilled holes.
- Dings or Minor Imperfections:** The packaging includes foam and metal corners to protect against shipping damage. In the event of minor dings, these are typically cosmetic and do not affect the structural integrity or functionality of the cabinet.
- Doors Not Closing Properly:** Check that the cabinet is level and square. Ensure the magnetic door catches are clean and unobstructed. Verify the locking mechanism is properly installed and lubricated if necessary.

9. SPECIFICATIONS

Attribute	Detail
Brand	Letaya
Model Name	R673 (Cabinet), R694 (Item Model Number)
Color	Black
Product Dimensions (D x W x H)	15.75"D x 31.49"W x 75"H
Size (Specific Variant)	16"D x 32"W x 74.41"H
Material	Metal (0.8mm Steel)
Finish Type	Powder Coated
Number of Shelves	4 (Adjustable)
Shelf Weight Capacity	Up to 180 lbs per shelf
Item Weight	75 Pounds
Mounting Type	Floor Mount (Wall mountable with pre-holes)
